

## About the EBRD

**Established in 1991, the EBRD seeks to promote the transition to a sustainable market economy and the emergence of a strong private sector. It operates in nearly 40 economies in Europe, Asia and Africa that are committed to and applying the principles of multiparty democracy, pluralism and market economics.**

Through investment, policy reform and advisory projects, we work to make economies more competitive, well-governed, green, inclusive, resilient and integrated. These are the six transition qualities that guide our mission, which is also aligned with the UN Sustainable Development Goals.

We invest in projects that bring economic, social or environmental benefits and would not be funded solely by commercial banks. Our investments follow sound banking principles, ensuring that the returns are commensurate with the risks, and take the shape of debt, equity or guarantees. The Bank works mainly with private clients, although it also finances public entities that deliver essential infrastructure and services. Donors<sup>1</sup> provide funding for advisory and technical assistance projects that are crucial to the success of Bank investments.

The EBRD is owned by 69 shareholder governments, the European Union and the European Investment Bank. It operates from headquarters in London and a network of Resident Offices.

<sup>1</sup> More information about the crucial contribution that donors make to the EBRD's work is available at <https://www.ebrd.com/who-we-are/our-donors.html>
