Annex 2

MARKET CONSULTATION QUESTIONNAIRE

This Questionnaire is intended for participants in the upcoming market consultation meeting related to the tender for Emptying and Decontamination of the 2 off Mogilnik radioactive storage facilities in Kozloduy Reactor Buildings 1 and 2 for an EBRD-administered project in the Nuclear Safety Sector. The purpose is to assess market interest, capability, availability, and willingness to participate in the subsequent tender.

Instructions: Please provide your answers in the 'Answer' column for each question. You may expand the space in the answer cell as needed. If a question is not applicable, please indicate 'N/A'. The completed questionnaire should be returned by the deadline stated in the Invitation.

No.	Question	Answer
Section 1: General Information		
1.1.	Please provide the name of your organization, country of registration, and main office location.	[Please insert here your answer/information]
1.2.	Is your company registered on EBRD Client E-Procurement Platform (ECEPP - https://ecepp.ebrd.com/)?	[Please insert here your answer/information]
1.3.	Please specify your company's field of activity.	[Please insert here your answer/information]
1.4.	Please describe your experience in implementing (or being involved in implementation of) similar projects, works, or parts of works, over the last 10 years.	[Please insert here your answer/information]
Section 2: Market Interest and Appetite		
2.1.	Are you interested in participating in the upcoming tender for Emptying and Decontamination of the 2 off Mogilnik radioactive storage facilities in Kozloduy Reactor Buildings 1 and 2?	☐ YES / ☐ NO (please elaborate) / ☐ Maybe (please elaborate) [Please insert here your answer/information]

No.	Question	Answer
2.2.	What are the main factors that would influence your decision to submit a bid? (e.g., contract size, scope, location, partnership opportunities)?	[Please insert here your answer/information]
Section 3: Capability and Experience		
3.1.	Please summarize your organization's experience in delivering similar works for nuclear sector or donor-funded projects/programme.	[Please insert here your answer/information]
3.2.	Have you previously worked with international development partners or multilateral organizations? Please list relevant examples (project name, duration, client, scope).	[Please insert here your answer/information]
3.3.	What is your experience with managing emptying and decontamination of radioactive storage facilities, and waste management technologies, including reactor components, under multi-stakeholder Decommissioning programmes?	[Please insert here your answer/information]
Section 4: Availability and Resources		
4.1.	Do you have personnel directly experienced in these types of works available or easily mobilizable for at least 3 years (2027 - 2029) period?	[Please insert here your answer/information]
4.2.	If interested, will you employ professionals, engage in joint activities, or use subcontractors?	[Please insert here your answer/information]
4.3.	Do you have the capacity to deploy a multidisciplinary site team?	[Please insert here your answer/information]
4.4.	What is your typical mobilization timeline for contracts of such nature?	[Please insert here your answer/information]

No.	Question	Answer
Section 5: Procurement and Contracting Considerations		
5.1.	Are there any major challenges or risks you foresee in participating in a future tender for such works (e.g., contract terms, payment modalities, local registration requirements)?	[Please insert here your answer/information]
5.2.	Will you be able to participate in a pre-qualification exercise followed by a multi-stage tendering process, in line with EBRD Procurement Policies and Rules (PPRs)?	[Please insert here your answer/information]
5.3.	Would you consider participating in the tender as a sole bidder, lead partner in a consortium, or subcontractor? (Please elaborate)	[Please insert here your answer/information]
5.4.	What indicative payment terms would be acceptable to you? Please explain.	[Please insert here your answer/information]
5.5.	What procurement document terms could have the biggest impact on your decision to participate?	[Please insert here your answer/information]
5.6.	If awarded the contract, what would be your preferred advance payment amount?	[Please insert here your answer/information]
Section 6: Feedback and Suggestions		
6.1.	Please provide your preliminary assessment of the overall duration for these works related to Emptying and decontamination of radioactive storage facilities, and waste management technologies. Please justify, if this period is more than 3 years.	[Please insert here your answer/information]
6.2.	Please provide any other relevant information not covered above.	[Please insert here your answer/information]
