

Annual Review of Procurement Activities under the Procurement Policies and Rules 2017

European Bank
for Reconstruction and Development

Executive summary

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2017, funded and/or administered by the Bank, procured by the Bank's clients and entered into the Contract Review and Award database before the date of generating this report (20 March 2017). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD).

In 2017, a total of 247 contracts (excluding NSD contracts) were signed by the Bank's clients. The total value of these contracts amounted to € 988 million, for which EBRD's own financing represents € 732 million. In comparison with 2016, although this is a slight increase of signed contracts (14 per cent), it represents a substantial decrease in the total contract value (61 per cent). It should be noted that the statistics in this report does not cover the Gas Purchase Facility in Ukraine which would have added a significant monetary value to the report, bringing the total value to € 1.3 billion. Also not included the overall statistics of this report, is an additional 109 donor funded consultancy contracts selected and contracted by the Bank's Clients at a total value of € 34 million. Due to the reorganisation of the Bank's procurement functions these contracts are now under the oversight of PPAD whilst before the reorganisation these contracts would have been under the oversight of the TC Team and reported in the Annual report "Engagement of Consultants".

The average contract value was € 4 million and the average EBRD financing was € 3 million per contract. Both figures are substantially lower than in the previous year. The largest contract placed was the modernisation of the Pakhra Substation Federal Grid Company, in the Russian Federation. This supply and installation contract was signed with a value of € 82 million; of which EBRD financed € 53 million with the remaining amount financed by the client.

As in previous years the contracts awarded through Open Tendering constitute the majority of the contracts representing 87 per cent of total number of contracts and 76 percent of the total contract value. The interest of firms to participate in EBRD financed tenders remains at a high level. On average, 3.3 tenders were submitted when Open Tendering procedures under the Bank's PP&R were applied which is a slight decrease from 2016 (3.6). The total number of tenders submitted in 2017 was 806. Out of these tenders, 79 per cent were submitted by tenderers from EBRD countries of operation resulting in awards of 212 contracts (86 per cent of all contracts) with a total value of € 634 million (64 per cent of the total contract value). This result continues to underline a trend observed over the years that may suggest that the markets in the region are more mature and competitive but it is also likely to reflect that the majority of EBRD financed contracts are works contracts for which regional presence in some form is a necessity.

Firms from the following five countries were most successful in terms of highest total contract value, regardless of procurement method: Ukraine (€ 129 million), Romania (€ 109 million), Russian Federation (€ 106 million) China (€ 83 million and Austria (€ 77 million), in total the contracts represents € 504 billion and 51 per cent of the total contracted value.

Cross-border tendering for EBRD financed contracts in countries of operations is at a high level (14 per cent) and 15 per cent of all contracts were won by firms from countries of operations competing in other countries.

PPAD handled 18 complaints which is the same number of complaints as in 2016.

As of 31 December 2017, based on the Bank's commitments at the time, the contract pipeline shows that during the forthcoming four years, the Bank's public sector clients are expected to sign about 846 contracts for an amount exceeding € 9.62 billion.

It should be appreciated that with the relatively small number of contracts that are covered on a yearly basis in this report it is not possible to use this data to analyse long term trends. Contracting activities will inevitably reflect the investment and volume that the Bank finances rather than more general trends in the market. However, in the opinion of PPAD the statistics support that the Bank's Open Tendering procedures remain the most transparent and efficient procurement method for the majority of the Bank funded public sector contracts. However, a large part of the Bank's current public sector portfolio is now in the early transition countries where the project structures involve procurement of multiple smaller contracts of different nature. This can be also seen from the 2017 average contract value which has decreased by two thirds compared with 2016. This means an increasing workload on the Bank's procurement specialists and is one of the reasons why PPAD took a proactive approach in the revision of the new PP&R by providing for an enhanced ability to apply alternative procurement systems such as national procedures, e-procurement and use of advanced corporate procedures. Low implementation capacity of many new Bank clients is a major contributing factor for the deduction in the overall value of contracts, especially large technically complex and innovative contracts.

As part of the broader policy dialogue objective, PPAD works closely with the Legal transition team and actively monitor and support the development of procurement systems in the Bank's countries of operation to enable enhanced use of national procurement systems as well as supporting countries in optimising their public spending.

Section 2 of this report is based on a revised automatised format as explained in Section 1.

Annual Procurement Review 2017

1. Introduction

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2017, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA before the date of generating this report (20 March 2017). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts procured and contracted by the Bank's clients, regardless of source of funds.

The format of the Annual Procurement Review

Due to the reorganisation of the procurement functions of the Bank this report includes a separate annex which covers donor funded consultancy services selected and contracted by the Bank's clients. Due to technical restrictions these contracts cannot be entered into the CRA and are therefore reported separately from the overall statistics.

The reporting format do not use "frozen" data as the basis for comparison over the years. This means that the historical information (year to year data) will in each annual report show a larger number of contracts than reported the previous year as historical contracts will continue to be entered into the system. Compared with the 2016 Annual Procurement Review, there are 14 contracts that have been added to this report. The main reasons why contracts signed in one particular year are entered into the system after the report is produced, is that contract are often only submitted to the Bank when the first disbursement for the respective contract is requested or as part of the reporting requirement to the Bank. Especially the acceptance of alternative procurement procedures has highlighted the need for a different format for reporting as these contracts are often submitted to the Bank in one batch for disbursement, sometimes after the contracts are implemented.

A listing of the contracts that have been entered into the system since the 2016 report can be found in Annex 11.

A listing of Grant funded Client-Led Consultancy Contracts by Country of Operation can be found in Annex 12

It should, be noted that no individual contract information is included in the report for the Gas Purchase Facility in Ukraine due to confidentiality reasons.

Annexes 1 to 11 of the *Annual Procurement Review 2017* contain the statistical data for the public sector contracts signed during 2017. The analysis of this data (excluding contracts listed in Annex 11), as well as the main procurement activities of the PPAD (section 4), can be found in the main body of this report. Sections 1-3 of this report (not section 4) as well as the annexes will be published on the Bank's website.

2. Analysis of public sector procurement data

2.1 Volume and nature of contracts

2.1.1 Overview 2017 and 5 year trend

Contracts signed by the Bank's clients (excluding NSD) in 2017	247
The total value of these contracts amounted to	€ 988 million
EBRD financing portion	€ 732 million
Total number of signed contracts compared with last year	14% increase
Total value of signed contracts compared with last year	61% decrease

Chart 2.1.1a illustrates the number of public sector contracts signed between 2013 and 2017

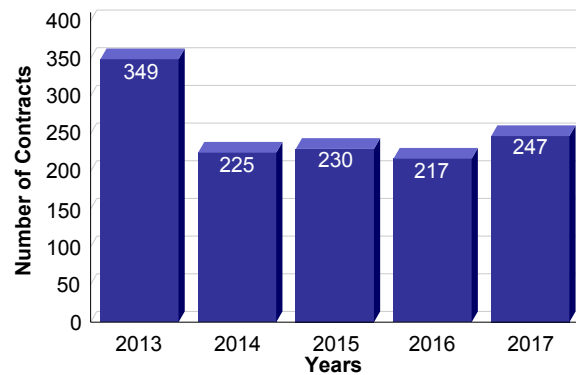

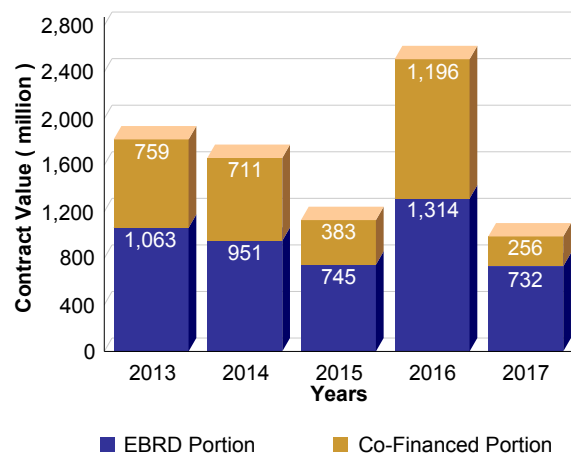

Chart 2.1.1b demonstrates the overall contract value as well as the portion financed by the EBRD between 2013 and 2017. Over the past five years, a total of 1,268 contracts have been signed with a total value of € 8.112 billion of which the EBRD financed € 4.804 billion.

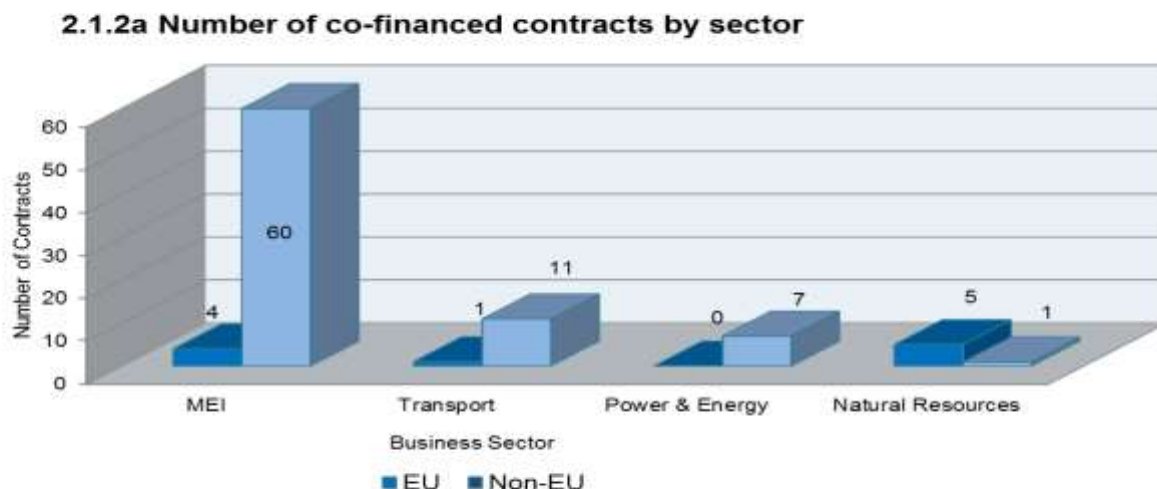

2.1.2 Co-financing

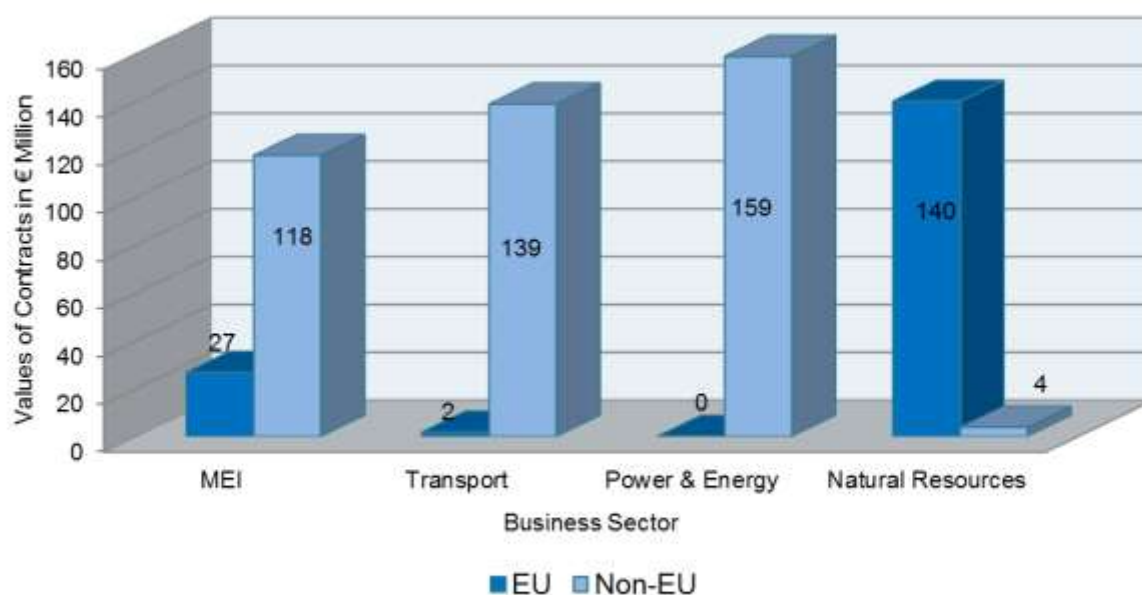

In 2017, the total contract value awarded was € 988 million of which the EBRD financed € 732 million. The balance of € 256 million was provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves. In comparison with 2016, a decrease of the total value provided by other sources can be noted.

Number of contracts with co-financing (2017)	89
Number of contracts with co-financing (2016)	124
Percentage of co-financed contracts out of total number of contracts (2017)	36%
Percentage of co-financed contracts out of total number of contracts (2016)	57%
Percentage difference of co-financed contracts (2017) vs co-financed contracts (2016)	21% decrease
Value of contracts with co-financing (2017)	588 million
Co-financed value as % total contract value for (2017)	59.5%
Value of contracts with co-financing (2016)	1,314 billion
Co-financed value as % total contract value for (2016)	52%
Percentage difference of co-financed contract value (2017) vs co-financed contract value (2016)	22% decrease

Chart 2.1.2a and Chart 2.1.2b present the distribution of the 89 co-financed contracts, in EU and non-EU member countries (by number and by value). Co-financed contracts in EU member countries represented 11 per cent of the total number of co-financed contracts and 29 per cent of the total value of all co-financed contracts. The sector with the highest co-financed contractual activity in terms of the number of contracts was the MEI sector with 64 contracts, i.e. 72 per cent of all co-financed contracts, representing € 144 million. 79 out of 89 co-financed contracts were signed in non-EU member countries. In the MEI sector, out of the 4 contracts signed in EU countries, 4 are co-financed with EU cohesion funds. The highest overall co-financed contract value was in the Power and Energy sector, (€159 million representing 27 per cent of the total co-financed contract value).

2.1.2b Value of co-financed contracts by sector

2.2 Average and largest value contract statistics

2.2.1 Average values of all contracts

	2016	2017	Percentage Change
Average contract value (€ million)	11.6	4.0	65 decrease
Average EBRD financing per contract (€ million)	6.1	3.0	51 decrease

2.2.2 Large value contracts

	2016	2017
Number of contracts with a value above € 10 million but less than € 20 million	31	22
Number of contracts with a value above € 20 million	22	15

Largest contract by value:

Pakhra Substation Modernisation Federal Grid Company, RUSSIAN FEDERATION

Total contract value	€ 82 million
EBRD funding portion	€ 53 million

2.3 Analysis by country of operation

2.3.1 2017 analysis

Number of countries of operation with public sector contracting activities: 26

The Countries with the highest number of contracts signed:

Rank	Country of Operation	Number of contracts	% of the total contract number in 2017
1	TAJIKISTAN	52	21
2	KAZAKHSTAN	34	14
2	UKRAINE	34	14
4	MOROCCO	33	13
5	ROMANIA	22	9
Overall - Total		175	71

The Countries with the highest cumulative value of contracts:

Rank	Country of Operation	Value of contracts (€)	% of the total contract value in 2017
1	UKRAINE	211 million	21
2	ROMANIA	177 million	18
3	KAZAKHSTAN	168 million	17
4	RUSSIAN FEDERATION	83 million	8
5	SERBIA	69 million	7
Overall - Total		708 million	72

2.4 Analysis by type of contract

Table 2.4.1 gives the distribution of contracts by size and type in 2017. The 100 goods contracts represented the largest total value by contract type (32 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants € 257 million out of € 314 million.

Table 2.4.1 Distribution of contracts by size and type (2017)

Contract Size (€M)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	27	4	38	10	79
0.3~7.5	55	27	50	7	139
>7.5	11	6	12	0	29
Total	93	37	100	17	247
Total Value (€)	425,572,215	234,401,990	314,315,595	13,452,549	987,742,349
Average Value (€)	4,576,045	6,335,189	3,143,156	791,326	3,998,957
Fund Portion* (€)	312,692,448	149,151,340	256,709,058	13,224,574	731,777,420

*Loan and EBRD administered Grants

Table 2.4.2 The following table illustrates the most successful firms by their country for each contract type in 2017

Contract Type	Tenderer Country	Share of Overall Value by Contract Type
Consultant Services	POLAND	29.0%
Goods	BELGIUM	15.0%
Works	CHINA	13.1%
Supply & Installation	RUSSIAN FEDERATION	35.1%

2.5 Distribution of contracts by award method 2017

Table 2.5.1 illustrates that the majority (215) of the public sector contracts were awarded through open tender. This represents 87 per cent of the total number of contracts awarded and 76 per cent of the total contract value. As open tendering only applies to goods, works and supply and installation contracts procured in accordance with the Bank's PP&R the public sector contracts awarded through open tendering represent 96 per cent of the number of these contracts and 92 per cent of the total contract value.

Contract Size (€M)	Open	Shopping	Direct Selection	Competitive	Alternative **	Total
0~0.3	68	1	2	3	0	79
0.3~7.5	124	0	5	4	4	139
>7.5	23	0	2	0	4	29
Total	215	1	9	7	8	247
Total Value (€)	752,551,187	108,691	68,768,464	9,620,820	151,637,225	987,742,349
Average Value (€)	3,500,238	108,691	7,640,940	1,374,403	18,954,653	3,998,957
Fund Portion (€) *	631,413,312	108,691	62,569,841	9,553,023	23,236,769	731,777,420

* Loan and EBRD administered Grants

** Please refer to the Procurement Policies and Rules edition October 2014, for an explanation of different tender methods.

2.6 Level of participation

2.6.1 Overview

Table 2.6.2 (overleaf) provides data on the level of participation in public sector tenders by country of origin of the tenderers for contracts signed in 2017

A total of 806 tenders from 52 countries were received during 2017, which is an increase (2 per cent) compared with the 787 tenders received in 2016. On average, 3.3 tenders were submitted when open tendering procedures were applied (compared with an average of 4 tenders in 2016).

Firms from the following five countries were most successful in terms of highest total contract value, which together won a total of € 504 million or 51 per cent of the total contract value, regardless of procurement method :

Tenderer Country	Awarded Value
UKRAINE	€ 129 million
ROMANIA	€ 109 million
RUSSIAN FEDERATION	€ 106 million
CHINA	€ 83 million
AUSTRIA	€ 77 million

The 5 most successful tendering countries in terms of number of awarded contracts were :

Rank	Tenderer Country	Number of Contracts
1	TAJIKISTAN	47
2	MOROCCO	31
3	KAZAKHSTAN	27
4	UKRAINE	19
5	ROMANIA	18

Firms from these 5 countries won a total of 142 contracts (57 per cent of the total number of contracts) worth €319 million, which represented 32 per cent of the total contract value.

Table 2.6.2 Distribution of tenderers by country of origin (2017)

The column “Rate of Success” seen in **Table 2.6.2** provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Tenderer Country	Signed Contract Value (EUR)	% of Total Value Won	Number of Contracts Won	% of Total Contracts Won	Number of Unsuccessful Tenders	Total Number of Tenders	% Rate of Success	% of Total Tenders Submitted
AFGHANISTAN	0	0.00%	0	0.00%	6	6	0.00%	0.74%

2.7 Analysis by tenderer

The following analysis is based on open tendered contracts only:

Participation of firms from countries of operations

Chart 2.7.1a shows that out of the 807 tenders that were submitted, 80 per cent were submitted by tenders from countries of operations.

Chart 2.7.1a: All submitted tenders

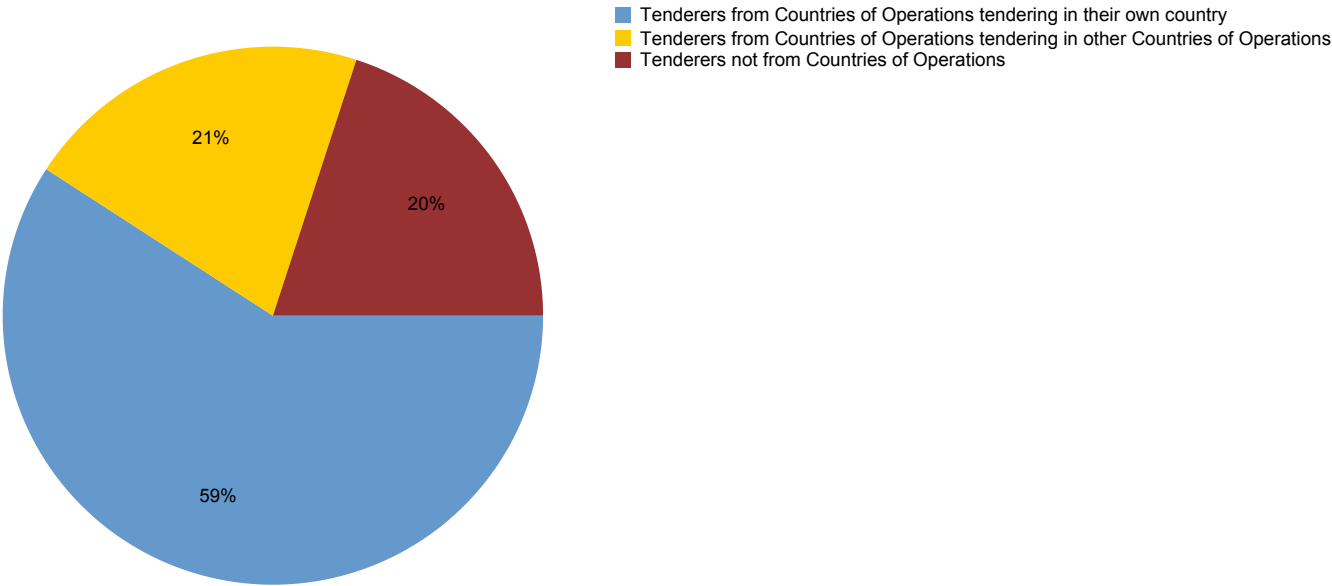

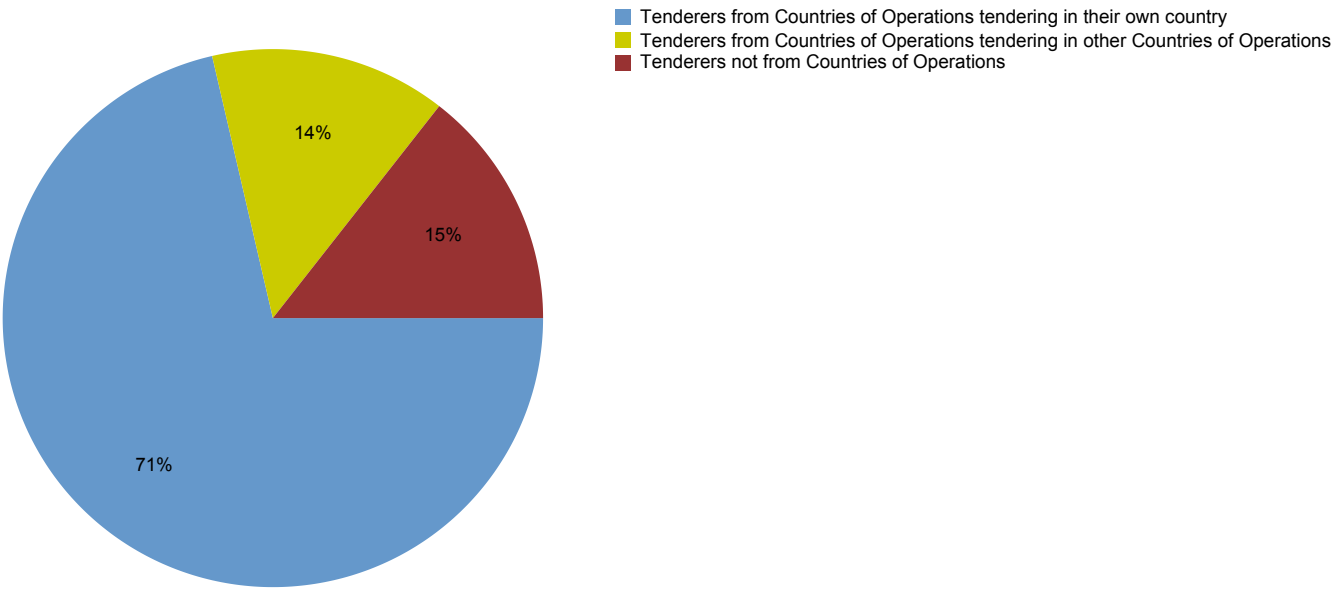

Chart 2.7.1b shows that out of the 247 contracts awarded, 71 per cent were won by firms from countries of operations tendering in their own country and 14 per cent were won by firms from countries of operations tendering in other countries of operations.

Chart 2.7.1b: All successful tenderers (number of contracts)

2.8 Success of entities from countries of operations

Table 2.8.1 represents the success of firms from countries of operations

	Number of Contracts	% of the total Number of Contracts	Value of Contracts	% of the total Contract Value
Contracts won by entities from EBRD's countries of operations	212	86%	€ 634 million	64%
Contracts won by entities from EBRD's countries of operations in their own country	177	72%	€ 491 million	50%
Contracts won by the entities from EBRD's countries of operations in a country which is not their country of origin	35	14%	€ 144 million	15%
Contracts won by the entities from EBRD's countries of operations in their own countries only (list of countries below)	126	51%	€ 223 million	23%

In 2017, 13 countries from the Bank Countries of Operations won contracts only in their own country. These countries were:

BOSNIA AND HERZEGOVINA

BULGARIA

EGYPT

FYR MACEDONIA

GEORGIA

JORDAN

KYRGYZ REPUBLIC

MOLDOVA

MONGOLIA

2.9 Public sector procurement under sub-sovereign projects

		Percentage of total Contracts	Compared to the previous year
Number of contracts under sub-sovereign projects	94	38	3% increase
Value of contracts under sub-sovereign projects (€ million)	470	48	26% decrease

2.10 Alternative procurement

Alternative procurement is the categorisation given to those contracts which are co-financed with other International Financial Institutions and for which the Board has granted an exception under paragraph 2.4 of the PP&R from the use of the Bank's procurement procedures. In such cases, these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board.

Number of contracts	8
Contracts won by firms in their own country	7 out of 8
Total value	€ 151,637,225
EBRD funded portion	€ 23,236,769
Average EBRD financing	15%
Largest contract	€ 47,287,000

2.11 Annexes covering 2017

Country and sector tendering analysis

Annex 1 provides a breakdown by country of operation of all contracts signed during 2017 (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

Annex 2 provides the total value of contracts signed in 2017, distributed by type and by country of origin of the winning firms.

Annex 3 presents the level of interest generated by business sector in the respective countries of operation for 2017

Annex 4 presents the distribution of tenders submitted by country of origin of the tenderers and by country of operations for 2017

Annex 5 presents the distribution of submitted tenders by country of origin of the tenderers and by business sector for 2017

Annex 6 awards by country of origin of the tenderers (Value in € by Procurement Method).

2.12 Analysis by sector 2013 - 2017

Chart 2.12.1a and Chart 2.12.1b illustrate the overall contract value and the number of public sector contracts signed between 2013 and 2017 by business sector. With a total number of 807 contracts (€ 3.193 billion) the MEI sector had the highest contracting activity in terms of number. The MEI sector recorded the highest activity in terms of value, with € 3.193 billion over the past five years.

Annual number and value of public sector contract awards by business sector (2013 - 2017)

Chart 2.12.1a Number of public sector contract awards by business sector

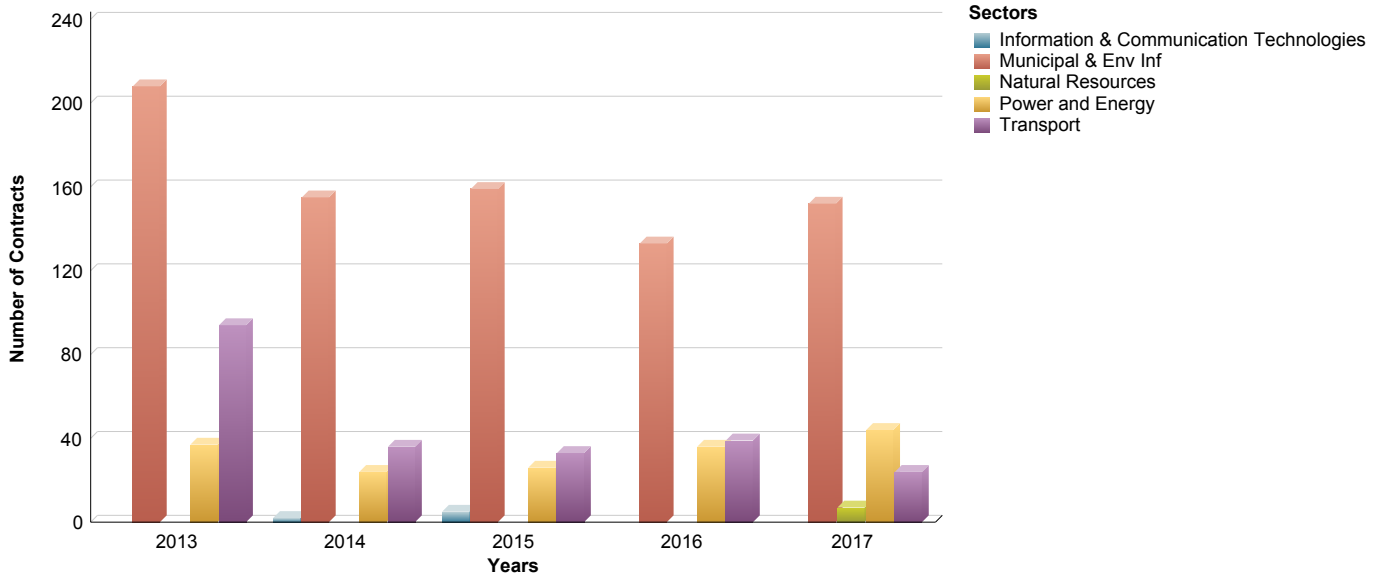

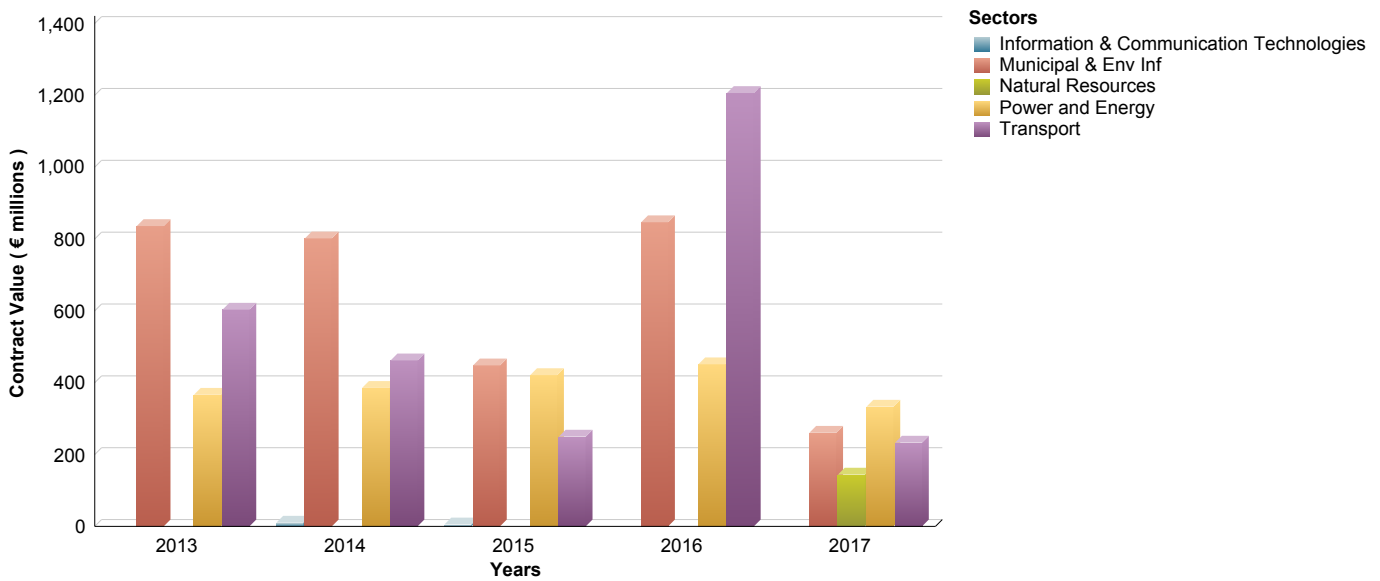

Chart 2.12.1b Value of public sector contract awards by business sector

2.13 Cumulative 2013 - 2017 data overview

Table 2.13.1 shows the countries with the highest total value of contracting over the past five years in descending order.

Country of Operations	Awarded (€)
UKRAINE	1.451 billion
ROMANIA	1.370 billion
MOROCCO	866 million
KAZAKHSTAN	565 million
SERBIA	546 million
Overall - Total	4.797 billion

The contracts in these five countries totalled € 4.797 billion which represented 59 per cent of the overall total contract value of the past five years (€ 8.112 billion).

In the period 2013 to 2017 no public sector contracts were reported in:

Country of Operation

CYPRUS
ESTONIA
GREECE
LATVIA
LEBANON
LITHUANIA
POLAND
SLOVAK REPUBLIC
TURKMENISTAN
UZBEKISTAN
WEST BANK AND GAZA

Tenderers from TURKEY have been the most successful over the last five years as they have won a total of € 1.667 billion or 21 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order:

Rank	Tenderer Country	Total Contract Value Awarded (€)
1	TURKEY	1.667 billion
2	ROMANIA	1.222 billion
3	UKRAINE	552 million
4	RUSSIAN FEDERATION	551 million
5	ITALY	420 million

The contracts won by firms from these five countries amount to € 4.413 billion which represented 54 per cent of the

According to the country of origin of the firms. Out of the 1,268 contracts administered by EBRD in the period the highest numbers of contracts were awarded to firms from:

Rank	Tenderer Country	Number of Contracts
1	ROMANIA	295
2	TAJIKISTAN	116
3	RUSSIAN FEDERATION	100
4	MOROCCO	67
5	KAZAKHSTAN	58

The number of contracts won by firms from these five countries is 636 which represented 50 per cent of the overall total contract count for the past five years.

2.14 Listing of annexes 2013 - 2017

Annex 7 provides a distribution by country of origin of the successful tenderers and the value of contracts signed for the period 2013 - 2017

Annex 8 provides the same breakdown but on the basis of the total number of public sector contracts won and signed in the period 2013 - 2017

Annex 9 provides public sector contract awards in the countries of operation by value

2.15 Contract award process

2.15.1 Public procurement postings

Table 2.15.1 summarises data concerning the public procurement opportunities posted on the Bank's Internet site. It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section as well as to the EU for publishing in the Official Journal of the European Union.

Table 2.15.1 Public procurement postings on web site (2013 - 2017)

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalify	Invitations for Tenders	Total
2013	84	21	14	147	266
2014	103	18	13	130	264
2015	126	22	159	159	316
2016	96	29	21	247	393
2017	122	23	11	242	398

In 2017, the Bank published a total of 398 procurement notices on its internet site. Out of 122 General Procurement Notices published in 2017, 53, were for new projects.

2.16 Nuclear Safety Department

The EBRD manages 7 nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PP&R for public sector projects with the limitation that eligibility is restricted to entities from member countries of the respective Funds, the EU member states and the EBRD's countries of operations.

	2017	Compared to the previous year
Number of contracts signed	29	decrease 62%
Value of contracts signed (€ million)	180	increase 10%

Table 2.16.1 provides the distribution of the NSD administered contracts by size and type.

Contract Size (€M)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	0	1	11	4	16
0.3~7.5	1	2	1	5	9
>7.5	1	3	0	0	4
Total	2	6	12	9	29
Total Value (€)	118,248,011	54,008,295	1,478,478	6,087,913	179,822,697
Contract Type Value as % of Total Value	66%	30%	1%	3%	100%
Average Value (€)	59,124,006	9,001,382	123,207	676,435	6,200,783

Annex 10 contracts for Nuclear Safety Managed Funds for 2017

3. Compliance and integrity

3.1 Procurement Complaints

PPAD handled 18 procurement complaints and 8 concerns for Bank financed or administered contracts during the course of 2017, as compared to the 18 procurement complaints and 12 concerns in 2016¹. For reference, the following number of contracts was awarded under the Bank's PP&R, under which participants in the respective procurement processes are eligible to submit procurement complaints and concerns to the respective clients and the Bank. There were 247 contracts signed under public sector projects and 29 under the nuclear safety funds, 2,215 consultancy contracts, funded from Bank administered TC funds and from the Bank's own budget. Furthermore, 662 consultancy contracts were signed by OGC for retaining outside legal counsel.²

Table 3.1.1 presents a comparison of figures for complaints/concerns reviewed between 2013 and 2017, by contract type and procurement method.

Table 3.1.1 Number of complaints/concerns 2013-2017 by contract type and procurement method

Contract Type	2013	2014	2015	2016	2017
Works	7	2	3	8	8
Goods	3	1	3	6	9
Supply and Installation	3	1	5	10	7
Commodities	0	0	0	1	0
Services	0	0	0	0	0
Consultancy (Loan or NSD Grant Funded)	3	3	0	2	0
Consultancy (TC and Bank's own funds, administered by TCT)	3	4	2	3	2
Consultancy (outside legal counsel retained by OGC)	0	0	0	0	0
Total	19	11	13	30	26

Summary of all complaints and concerns

The complaints/concerns raised by unsuccessful entities in 2017 varied in nature. The following issues were raised:

¹ A distinction is made between those issues raised by dissatisfied parties that clients can resolve themselves and complaints that are formally addressed to and require the action of the Bank. A "concern" is any minor issue that is brought to the attention of the EBRD by a tenderer regarding the procurement process or contract award. The concern is referred to the contracting authority, which is expected to address and resolve the issue with the relevant party under PPD's supervision. If the two parties cannot come to an understanding or an agreement, the concern may be elevated to the status of a complaint. At that point, the EBRD freezes the procurement process and an investigation is undertaken.

² The number of consultancy contracts administered by the Technical Cooperation Team (including contracts related to the Small Business Support Team (SBS) and OGC) has been included in this section as the Bank's PP&R and, consequently, the Bank's procurement complaints/concerns review procedures are also applicable for these contracts.

- Challenging the Client's decision to disqualify a tenderer on technical grounds.
- Challenging the qualification of the lowest priced tenderer.
- Challenging the incongruence of the submitted versus the evaluated tender prices.
- Allegation that the winning tenderer did not fulfil the requirements of the tender documents.
- Allegation that the tender price of the winning tenderer was increased after contract award.
- Allegation of undue communication between the Client and a tenderer.
- Allegation that the winning tenderer's price was too low.
- Challenging the decision to reject a first stage proposal for having been submitted late.
- Challenging the tender requirements.

In terms of the duration of the review of complaints and concerns it is evident that whilst the review of 14 of the cases could be finalised within a period of less than five months, four complaints/concerns could only be closed up to six, eight or 12 months respectively after receipt by the Bank. The review of two complaints under the "Ukraine: Nuclear Power Plant Safety Upgrade Program" took up to 8 and 12 months, mainly due to with the complexity of establishing the detailed facts concerning the allegations.

The complaints/concerns closed in 2017 were related to MEI (11), Power & Energy (four), Nuclear Safety (two) and Transport (one) projects. Allegations of improper tender evaluation, restrictive tender requirements and tenderers' compliance with the requirements of the tender documents were the principal sources of complaints.

The following section provides a summary of the 11 complaints and seven concerns that were closed in 2017. The information provided includes the nature, the business sector and the outcome of the complaint process for each of these complaints and concerns. None of the 11 complaints were upheld by the Bank. All seven concerns were resolved or became redundant.

Complaints and concerns by nature and by business sector (complaints and concerns closed during 2017, presented in chronological order as received by the Bank)

1. Project: Ukraine: Nuclear Power Plant Safety Upgrade Program

<i>Country of Originator:</i>	Ukraine
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Power & Energy
<i>Contract Amount:</i>	€1,350,000
<i>Timeline:</i>	< 12 months

Nature of Complaint/Concern:

The complaint concerns a tender for the replacement of electric motors in nuclear power stations in Ukraine. The Complainant states its disagreement with the assessment of its technical proposal by the client and expresses its concern that the client's request for extension of the tender validity was made to help increase the price of the winning tenderer. The complainant requested the Bank to verify the outcome of the tender.

Outcome of the Complaint/Concern Process:

As a result of the tender evaluation process and as no-objection by the Bank, the Client awarded the contract to the company that had submitted the lowest evaluated tender. It was established that the tender price, as submitted by the winning tenderer in its tender, is identical with the contract price. Furthermore, the tender documents and the signed contract do not allow any price adjustments for the duration of the contract. As the contract was correctly awarded to the lowest evaluated tenderer, a detailed assessment of the challenged technical evaluation of the Complainant's tender, who had submitted the highest priced tender, was considered to be obsolete. Based on the findings of this review, the Bank decided not to uphold the complaint.

2. Project: Kyrgyz Republic: Bishkek Solid Waste

<i>Country of Originator:</i>	Turkey
<i>Complaint / Concern:</i>	Complaint

Business Sector: MEI
Contract Amount: €8,956,000
Timeline: < 3 months

Nature of Complaint/Concern:

The complaint concerned the tender for Bishkek Solid Waste Project - Design and Construction of a new Landfill. The Complainant stated that the Tender Documents included two price schedule forms which apparently seem to be incongruent. The Complainant stated that the Client had intentionally caused this incongruence between the forms because it would make it possible to them to alter the final results of the evaluation process, by deciding whether to include or not for all the tenderers certain missing items.

Outcome of the Complaint/Concern Process:

Resulting from the Bank's analysis of the Tender Documents, the Evaluation Report and of the relevant parts of the submitted tenders it was evident that the Evaluation Committee had followed the methodology stated in the Tender Documents and had applied the same approach to each tender in terms of adjustments and corrections as required by the evaluation methodology in the Tender Documents. On the basis of the above, the Bank decided to reject the complaint.

3. Project: Georgia: Tbilisi Bus Project

Country of Originator: Czech Republic
Complaint / Concern: Concern
Business Sector: MEI
Contract Amount: €34,000,000
Timeline: < 2 months

Nature of Complaint/Concern:

The originator of the procurement concern had participated in the tender for the "Procurement of 175 Full Low Floor CNG 12m Buses and Related Services". The originator alleged that A) the Evaluated Tender Price of the originator did not correspond to the Tender Price as submitted by the originator. Consequently, they requested a debriefing by the Client, which should include a detailed explanation on how the Evaluated Tender Price had been calculated; B) the Contract signed with the successful tenderer did not fulfil Section I. 34.2 - Instructions to Tenderers, i.e. "34.2 Award Criteria" the Purchaser reserves the right to increase or decrease the quantity of Goods and Services originally specified in Section VI, Supply Requirements, provided this does not exceed the percentages specified in the TDS, and without any change in the unit prices or other terms and conditions of the Tender and the Tender Document. The percentage specified in the TDS was +/- 15%, i.e. number of buses ranging from 148 to 201. The Contract, however, had allegedly been signed for the procurement of 143 buses and Related Services; and C) the dates of delivery of buses by the suppliers who were awarded the Contract was not August but September. The Complainant requested the Client to clarify these points.

Outcome of the Complaint/Concern Process:

The Client provided the originator of the procurement concern with a detailed response to the concerns, which was copied to the Bank. As no further correspondence was received by the originator of the procurement concern, the Bank considered the issues to have been resolved and closed the case.

4. Project: Belarus: Belarus Environmental Infrastructure Facility

Country of Originator: Czech Republic
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €7,700,000 (approximate cumulative amount for both contracts in question)
Timeline: < 6 months

Nature of Complaint/Concern:

The procurement complaint concerned the following two-stage tenders under the Belarus Environmental Infrastructure Facility: 1) Baranovich Biogas, Contract: B1 Biogas Power Supply Facility; 2) Slonim Biogas

Contract: Biogas Plant and Auxiliary Facilities. Both contracts were awarded to the same Lithuanian tenderer in March and October 2016 respectively, i.e. prior to the receipt of this complaint by the Bank. The Complainant alleged that the winning tenderer did not have sufficient relevant experience to perform the contracts. They further alleged that the Client had applied "administrative leverage" on the managements of the water companies of the municipalities of Baranovichi and Slonim as well as their project implementation consultant to award the contracts to the winning tenderer. The Complainant further argued that the contract for Baranovichi was being renegotiated to increase the financing and reduce the construction volume. Finally, the Complainant alleged that the contract under the Slonim project was awarded to the winning tenderer, although the price offered by the Complainant's joint venture was lower.

Outcome of the Complaint/Concern Process:

Based on its analysis, the Bank concluded that the winning tenderer for the projects of Baranovichi and Slonim had demonstrated that it met the requirements as per the respective tender documents. Evidence to this effect had been provided through the documents that the winning tenderer had submitted as part of its tenders and as confirmed by the Clients and their consultant. As the Bank did not detect any adverse or prohibited conduct by the Clients or their consultant and as the Complainant had not presented any concrete evidence to substantiate its allegation of "administrative leverage", this allegation was not considered as substantiated. The tender price offered by the winning tenderer for the Baranovichi project is the result of an open tender process and is within a reasonable margin of the final cost estimate. Furthermore, the contract was not renegotiated but contract amendments introduced to the original contract were adequately justified by the Client and no-objected by the Bank. There is no evidence that the original contract has been or is being re-negotiated to increase the price whilst reducing the scope of goods and works to be provided. Finally, it had been demonstrated that the evaluated tender price of the winning tenderer was lower than that of the Complainant. Based on the findings of this review, the complaint was not upheld.

5. Project: FYR Macedonia: Railways Fleet Renewal Project

<i>Country of Originator:</i>	Romania
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Transport
<i>Contract Amount:</i>	€9,000,000
<i>Timeline:</i>	< 3 months

Nature of Complaint/Concern:

This complaint concerned an open tender for the supply of Goods (three electric locomotives). The contract was placed in December 2016 with a Chinese Manufacturer for four ELOCOS. The Complainant alleged that the winning tenderer did not meet the technical requirements as they did not hold the required certification to enable their products to be used in FYR Macedonia at the time of tender submission.

Outcome of the Complaint/Concern Process:

As a result of its review of the complaint and as confirmed by a technical consultant, the Bank established that the winning tenderer had met the technical requirements and had produced any relevant certification, as required by the tender documents. Consequently, the complaint was rejected.

6. Project: Moldova: Chisinau Water Development Programme

<i>Country of Originator:</i>	Romania
<i>Complaint / Concern:</i>	Concern
<i>Business Sector:</i>	MEI
<i>Contract Amount:</i>	€1,800,000
<i>Timeline:</i>	< 1 month

Nature of Complaint/Concern:

A tenderer for this contract raised a concern to the EBRD with reference to the Client's refusal to provide a tender debriefing in accordance with section 14 of the Annex to the EBRD Procurement Policies and Rules. The Client communicated to the tenderer that it was not in a position to provide any debriefing on the grounds that the EBRD Public Information Policy (section E) envisaged that any information related to procurement

processes was to be considered confidential.

Outcome of the Complaint/Concern Process:

The Client was advised by the Bank that it was the Client's obligation to provide a debriefing to the originator of the concern in accordance with section 14 of the Annex of the Bank's Procurement Policies and Rules. As no further communication on this issue was received after the debriefing meeting, this case was closed.

7. Project: Bulgaria: Kozloduy International Decommissioning Support Fund

<i>Country of Originator:</i>	Slovak Republic
<i>Complaint / Concern:</i>	Concern
<i>Business Sector:</i>	Nuclear Safety
<i>Contract Amount:</i>	€11,700,000
<i>Timeline:</i>	< 6 months

Nature of Complaint/Concern:

The concern was in relation to the tender for the Reconstruction and Modernization of Boiler Units EK 220t/h No.7 & 8 at TPP Sofia District Heating in Bulgaria. The concern was in respect of the transparency and fairness of the evaluation process in the "tender procedure ref. EBRD 4/13" alleging that there was direct unofficial communication from the Client to the main competitor of the originator of the concern, leading to modification of figures in the evaluation process in favour of the competitor. The originator of the concern requested EBRD's independent review of the evaluation process and to share all the details and final results with them.

Outcome of the Complaint/Concern Process:

As no formal complaint was submitted to the Bank, the Client responded in detail to the originator of the concern concerning the allegations. As the Bank did not receive any further substantiation of the allegations from the originator of the concern, this case was closed

8. Project: Ukraine: Nuclear Power Plant Safety Upgrade Program

<i>Country of Originator:</i>	Ukraine
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Power & Energy
<i>Contract Amount:</i>	€16,000,000
<i>Timeline:</i>	< 2 months

Nature of Complaint/Concern:

This procurement complaint related to a tender for nuclear safety equipment. The Complaint alleged that national norms/standards were used in the technical specifications (as opposed to the use of international norms/standards).

Outcome of the Complaint/Concern Process:

Based on a reasonable assessment of the information available to the Bank during the complaint review process, it was established that the selected nuclear standards and classification determined by the client were in full compliance with the relevant international and national standards. On this basis, the complaint was not upheld.

9. Project: Kyrgyz Republic: Bishkek Solid Waste

<i>Country of Originator:</i>	Turkey
<i>Complaint / Concern:</i>	Concern
<i>Business Sector:</i>	MEI
<i>Contract Amount:</i>	€8,956,000
<i>Timeline:</i>	< 3 months

Nature of Complaint/Concern:

The concern related to the tender for the "Bishkek Solid Waste Project - Design and Construction of a new Landfill". Upon receiving the Bank's answer to their previous complaint the originator of the concern decided to reiterate the issues previously raised. The originator of the concern once again questioned the qualification of the successful tenderer, alleging that the Client had relaxed their qualification criteria, specifically the interpretation of particular experience to help the successful tenderer being awarded the contract and suggesting that this was a case of serious corruption.

Outcome of the Complaint/Concern Process:

The originator of the concern did not present any additional information concerning the procurement related complaint which had already been considered and rejected by the Bank (see Project 2. above). The additional allegation of corruption was review by the Bank's Office of the Chief Compliance Officer who determined that the allegations were not substantiated. Resulting from these findings, the case was closed.

10. Project: Bulgaria: Kozloduy International Decommissioning Support Fund

<i>Country of Originator:</i>	Croatia
<i>Complaint / Concern:</i>	Concern
<i>Business Sector:</i>	Nuclear Safety
<i>Contract Amount:</i>	€1,200,000
<i>Timeline:</i>	< 2 months

Nature of Complaint/Concern:

This procurement concern related to a tender for a Supervisory Control and Data Acquisition System (SCADA). The complainant raised concerns that the successful tenderer may not have submitted a fully responsive tender and requested a copy of the successful tenderer's tender to enable the complainant to further investigate its concerns.

Outcome of the Complaint/Concern Process:

The Bank established that the Tender Evaluation Report contained no indication of any irregularities in the tender evaluation process or any red flags. As such, the Bank advised the concerned tenderer that: 1) In accordance with the Bank's Public Information Policy the Bank considers information relating to procurement processes (including tenders) to be confidential and will not disclose such information to tenderers; and 2) In view of the very general and unspecific nature of the concerns raised, unless the concerned tenderer can be more specific in terms of its concerns, with specific reference to the relevant provision(s) of the tender documents which it considers have not been met by the successful tenderer, the Bank will be unable to undertake any further review of the concern. As no further communications was received by the Bank from the concerned tenderer, the case was closed.

11. Project: Ukraine: Nuclear Power Plant Safety Upgrade Program

<i>Country of Originator:</i>	Austria
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Power & Energy
<i>Contract Amount:</i>	€1,000,000
<i>Timeline:</i>	< 8 months

Nature of Complaint/Concern:

This procurement complaint related to a tender for a Whole Body Scan Counter for use in a nuclear safety environment. The complaint related to an allegation by an unsuccessful tenderer that the successful tenderer cannot have offered a product that could be classified as a "commercial product" as required by the tender documents.

Outcome of the Complaint/Concern Process:

In the absence of any internationally accepted definition of the term "commercial product" the Bank considered

that the key aspect of the complaint related to whether tenderers had been required by the tender documents to offer a standard “off-the-shelf” product or whether it would be acceptable to offer a prototype product. It was concluded that the key components of the offered product were all proven key “off-the-shelf” components which, based on information provided by the client, the Bank’s project team, the Bank’s Lender’s Monitor and an Independent Technical Expert, essentially meant that the offered product could be considered in essence as the equivalent of an “off-the-shelf product”. On the basis of the overwhelming consensus in this regard by the relevant technical experts, the Bank decided not to uphold the complaint.

12. Project: Serbia: Belgrade Water

Country of Originator: Serbia
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €4,500,000
Timeline: < 5 months

Nature of Complaint/Concern:

This complaint related to a contract for sedimentation removal from the Sava Lake and construction of two raw water pipelines. The complaint related to an allegation from one of the participants in the tender that one of its competitors may not meet the qualification criteria contained in the tender document and should therefore not be awarded the contract. In order to prove the above the complainant had submitted an extract from the Journal of the Croatian Association of Civil Engineers which stated that the project measures did not meet the specific experience requirement of the current tender.

Outcome of the Complaint/Concern Process:

On the basis that the winning tenderer had provided sufficient evidence to demonstrate that it substantially met the post-qualification criteria contained in the tender document and that the agreed procedures had therefore been followed by the client in all material aspects, the Bank decided that the complaint should not be upheld.

13. Project: Kazakhstan: Pavlodar Tram Project

Country of Originator: Russian Federation
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €7,440,000
Timeline: < 5 months

Nature of Complaint/Concern:

The complaint concerned the outcome of the evaluation of the tenders for the supply of trams for the City of Pavlodar. The Complainant, who submitted the lowest priced tender, stated that, in their opinion, the Client had not evaluated the tender correctly by adjusting the tender price in respect of VAT. The Complainant requested to suspend the tender process, re-evaluate the tenders in accordance with the tender documents and verify the qualification of the Client in respect of their ability to evaluate tenders.

Outcome of the Complaint/Concern Process:

As a result of its review of the available information, the Bank concluded that the Client had assessed that the Complainant had submitted the lowest evaluated responsive tender. However, the Complainant’s tender was rejected as the tenderer did not meet some of the qualification criteria. Consequently, the Bank decided not to uphold the complaint.

14. Project: Jordan: East Zarqa Wastewater Project

Country of Originator: Jordan
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €11,600,000

Timeline: < 5 months

Nature of Complaint/Concern:

The complaint concerned the outcome of the tender for the construction of the pressure waste water main from East Zarqa pumping station to As-Samra Waste Water Treatment Plant. The Complainant had submitted the lowest priced tender (as read out), but was not awarded the contract, as their tender had been rejected as non-responsive. The Complainant disagreed with the justification for the rejection.

Outcome of the Complaint/Concern Process:

The Bank's review focussed on the key aspect of the complaint which related to whether the deviation of the Complainant's tender in respect of air valves should be considered material, given its marginal cost and possibility to correct it in the course of contract implementation. As confirmed by technical experts consulted by the Bank, it was concluded that the deviations of the above mentioned equipment proposed by the Complainant can be considered as material, given that, if accepted, they would substantially affect the performance as stipulated in the technical requirements. On this basis, the Bank decided not to uphold the complaint.

15. Project: Romania: SMART - Iasi Urban Transport

Country of Originator: Romania
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €15,000,000
Timeline: < 3 months

Nature of Complaint/Concern:

This procurement complaint related to an open single-stage tender for the supply of 75 low-floor buses for the City of Iasi in Romania. The Complainant alleged that the post-qualification criteria contained in the tender documents issued by the Bank's Client were unreasonably restrictive and had prohibited the Complainant from participating in the tendering exercise. The Complainant alleged that this had resulted in insufficient competition and had had a negative impact on the overall competitiveness of the procurement process.

Outcome of the Complaint/Concern Process:

Having reviewed the relevant documentation, the Bank concluded that the tender documents were not unduly restrictive. Consequently, the Bank decided not to uphold the complaint.

16. Project: Tajikistan: Khujand Public Transport Project

Country of Originator: Russian Federation
Complaint / Concern: Concern
Business Sector: MEI
Contract Amount: €12,695,000
Timeline: < 2 months

Nature of Complaint/Concern:

The procurement concern related to an open tender for the procurement of buses for the city of Khujand. The originator of the concern, who had submitted the only tender as evidenced at tender opening in August 2016, complained that approximately one year after tender opening, they had not received any resolution regarding the evaluation of their tender but instead had repeatedly been requested to extend the validity of their tender and the Bank guarantee, thus increasing the corresponding cost to the tenderer. The tenderer also stated that they had not received the Minutes of Tender Opening. Therefore, the Complainant requested the Bank to intervene and to ensure the integrity of the tender process.

Outcome of the Complaint/Concern Process:

Subsequent to the Bank receiving the complaint, the Client formally awarded the contract to the Complainant and signed the contract. Consequently, the issue was resolved and the case was closed by the Bank.

17. Project: Ukraine: Hydro Generation Rehabilitation Programme

Country of Originator: Germany
Complaint / Concern: Concern
Business Sector: Power & Energy
Contract Amount: €28,000,000
Timeline: < 4 months

Nature of Complaint/Concern:

This procurement concern related to the tender for the Rehabilitation of Kaplan Units at Seredniodniprovska HPP and DiproHPP-2. The originator of the concern raised the following two main issues: 1) Tender price of the other tenderer was considered too low; and 2) Allegation that the technical solution offered by the other tenderer was not compliant with the tender documents.

Outcome of the Complaint/Concern Process:

The Client's technical consultant undertook a detailed analysis of the issues raised by the originator of the concern and concluded that both submitted tenders were compliant with the tender requirements. The Client subsequently communicated to the originator of the concern that their tender was not the lowest evaluated substantially responsive tender and that they could request a formal debriefing. No further communication was received from the originator of the concern by the Bank. Consequently, the case was closed.

18. Project: Ukraine: Vinnytsia Automated Fare Collection

Country of Originator: Sweden
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €15,000,000
Timeline: < 2 months

Nature of Complaint/Concern:

This procurement complaint related to a two-stage tender for an Automated Fare Collection System. The complaint related to the rejection of the Complainant's first-stage tender on the basis that it was received by the client after the deadline stated in the tender documents issued by the Client.

Outcome of the Complaint/Concern Process:

The Bank established that the tender document contained unambiguous provisions with regard to the treatment of 'late' first-stage tenders and therefore that the client's action in rejecting the late first-stage tender was fully in accordance with the relevant provisions of the tender documents and the agreed procedures. Consequently, the Bank decided not to uphold the complaint.

3.2 Prohibited practices

The Agreement Establishing the European Bank for Reconstruction and Development expressly provides that the Bank must take all necessary measures to ensure that the proceeds of its financing are used solely for the purposes for which such financing was granted. To this end, OCCO investigates and, if appropriate, recommends sanctions for corrupt, fraudulent, coercive, collusive and obstructive practices, theft, and misuse of Bank resources or Bank assets (Prohibited Practices) pursuant to the Bank's Enforcement Policy and Procedures (EPPs).

In 2010, the Agreement for Mutual Enforcement of Debarment Decisions (AMEDD) was signed by the African Development Bank Group, the Asian Development Bank, the Inter-American Development Bank Group, the World Bank Group and the Bank pursuant to which it was agreed that these Mutual Enforcement Institutions would recognise each other's debarment decisions by cross-debarment of the same entities and individuals if

specific conditions are met. Entities (and their affiliates) or individuals are ineligible to become the Bank's counterparty in any new Bank project if - in accordance with the EPPs - it is determined that (a) they have engaged in any Prohibited Practice in the context of a Bank project or Bank assets, (b) they are subject to a Third Party Finding, or (c) they are subject to a debarment decision by a Mutual Enforcement Institution.

In 2017, 2 enforcement proceedings, which were initiated in 2016, resulted in a debarment of 2 entities and 1 individual for a period of 3 years, respectively 6 entities and 6 individuals for a period of 4 years. Furthermore, OCCO requested the debarment of an entity for a period of 3 years; a decision in these enforcement proceedings is expected in 2018. Also, 4 individuals were debarred for 4 years after a Third Party Finding (the decision of a national court in Poland was applied). Additionally, in 2017, the Bank entered into a settlement with an entity to resolve an investigation. As part of the settlement, the entity is subject to a 3-year period of conditional non-debarment, and required to implement an anti-corruption compliance programme to be verified through internal and external audits.

In 2017, in accordance with the AMEDD, the Bank cross-debarred 191 entities and 52 individuals and requested the cross-debarment of 8 entities and 7 individuals, which have been subsequently cross-debarred.

Entities and individuals (cross-) debarred by the Bank are ineligible to be awarded Bank-funded contracts during the (cross-) debarment period. On its website the Bank publishes all entities and individuals it (cross-) debarred over the years (<http://www.ebrd.com/ineligible-entities.html>).

PPAD and OCCO work closely together in relation to public sector procurements. The Procurement Function refers potential Prohibited Practices matters to OCCO, provides information on Bank-financed procurement projects to OCCO if required for its investigation, and shares its knowledge and experience about procurements with OCCO. In addition, following the conclusion of its investigations, OCCO shares any relevant lessons learned with PPAD to further strengthen the Bank's procurement processes.

3.3 Independent procurement reviews

Independent Procurement Reviews (IPRs) are carried out with the view to strengthen the ability of the Bank to fulfil its fiduciary obligation with regard to the oversight of procurement and contract implementation, to complement the prior and post review procedures applied, and to inform the Bank's management of the quality of the Bank's fiduciary work on procurement. The projects for IPRs are selected based on: the relevance of the project or the issue reviewed to the Bank's likely future operations and lessons-learned potential.

As one of its findings in 2016, the Bank's Board Effectiveness and Efficiency Group (BEEG) recommended to streamline or amalgamate certain reports. In this context it was decided that the IPRs summary report will not need to be presented separately to the Audit Committee. Instead, the main findings of the IPRs will be reported in the Annual Procurement Review.

The following IPRs were commissioned by PPAD in 2017:

1) FYR Macedonia: Railway Corridor VIII – Phase I Project (OPID 42921)

The project consists of a Euro 46.4 million sovereign loan to the Government of FYR Macedonia represented by the Ministry of Finance (MOF). The Line Ministry, the Ministry of Transport and Communications (MOTC) is designated as the Borrower's Authorised Representative for taking action in respect of drawdown and holding a Special Account. The Bank entered into a Project Agreement with Public Enterprise for Railway Infrastructure (PERI) for the implementation of the Project. PERI has a Sub-Loan agreement for on-lending the funds with the MOF. The key commercial purpose of the Bank's loan for Phase I of the Project is to finance the rehabilitation of a 30.8 km section of Corridor VIII in the east of FYR Macedonia from Kumanova to Beljakovce.

The Bank engaged a senior independent procurement consultant to undertake the IPR. His main findings can be summarised as follows:

- Procurement of the works and consultancy contracts were carried out in accordance with the Bank's PP&R.
- The implementation of the works falls well below expectations. As of 31 May 2017, less than 24% of the works are complete and the time for completion has been exceeded by 28%.
- The design for Phase I contained a high level of design errors, which were not rectified by the relevant

stakeholders.

- The client lacked in capacity of managing the project.
- Clear unimpeded access to the site was not granted to the contractor in a timely manner.
- There have been deficiencies in the performance of the contractor and its sub-contractors,
- It is expected that substantial additional costs have been incurred due to the deficiencies in the implementation of the project and the resulting delay in implementation. It is unclear how these additional costs can be covered by the client.
- The Supervising Engineer consultancy contract has practically exhausted allocated funds, although the works were only 24% complete at the time of the IPR. Funding for the consultancy has been provided through grant funds, it is understood no further grant funds can or will be made available. The project is in imminent danger of not having an “Engineer” to supervise the contract which would curtail the works contract and settlement of claims.

The IPR consultant’s main recommendations for the continuation of implementing Phase 1 are:

- The client should in the very near future obtain funding, either from the Bank, Government or other sources, to continue the consultancy contract with the incumbent Supervising Engineer or for a change of the Supervising Engineer if necessary.
- The client should, in the very near future, resolve all impediments – design errors and access to site.
- The client should advise the MOF, which in turn would advise the Bank of the potential additional cost for the proposed extension of time of the contract and determine how these costs are to be funded.
- The client needs to reinstate a functioning PIU which will carry out the duties as required by the Loan and Project agreements.

The IPR consultant’s recommendations resulting from this IPR directed particularly to implementing Phases II and III are:

- Ensure the detailed design issued for tender is carried out with a very high level of care, diligence and accuracy.
- Ensure that expropriation of property is complete and that a mechanism is in place for timely additional expropriation.
- Consider contracting using FIDIC “Plant and Design-Build” contract conditions (the “Yellow Book”) if there is a risk of additional design requirements during implementation.
- Ensure that the Supervising Engineer’s TOR includes specific responsibility for reviewing the design and correcting identified errors. Consider including inspectors and technicians in the mix of the SE’s staff.
- Insert specific conditions in the supervisory services contract that permits the Client to order reduction in personnel commensurate with the progress of work.
- At tender evaluation stage, treat as a potential risk, tenders which rely heavily on a high portion of the works being subcontracted.
- Limit the scope of work that may be sub-contracted to any entity with a view to ensuring the Contractor is not wholly dependent on one entity.
- Provide a Particular Condition of Contract (PCC) in the works contract which gives the Engineer the right to withdraw approval for a sub-contractor for poor performance, repeated health and safety infringements etc. or other reasons which are detrimental to implementation.
- If the Bank considers the project is to be managed and directed by a PIU, then the PIU should be independent of the Executing Agency (Project Entity) and the role, responsibilities and authority of the PIU should be specifically stated in the Project Agreements.

The Bank duly considered the recommendations concerning Phase I and decided to address these issues with the government; the Bank will also take into account the recommendations for any future Phases II and III of the Project.

2) Morocco: ONE-Rural Electrification and Smart Metering (OPID 44057)

An EBRD loan of up to EUR 60 million in favour of the Office National de l’Électricité et de l’Eau Potable (ONE), a state-owned utility company incorporated in the Kingdom of Morocco. The loan finances (i) the completion of the rural electrification programme connecting 1,500 remote villages via LV and MV infrastructure to the country’s electricity network, and (ii) a pilot smart metering project to prepare for the deployment of decentralised renewable generation.

The Bank has selected a senior independent procurement consultant to undertake the IPR, who will finalise the IPR in 2018.
