

2021 ANNUAL REVIEW OF PROCUREMENT ACTIVITIES UNDER THE PROCUREMENT POLICIES AND RULES

Prepared by:

The Procurement Policy and Advisory Department

May 2022

Executive summary

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2021, funded and/or administered by the Bank, procured by the Bank's clients and entered into the Contract Review and Award database before the date of generating this report (31 March 2022). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD).

In 2021, a total of 383 contracts (excluding NSD contracts) were signed by the Bank's clients. The total value of these contracts amounted to € 2.558 billion, for which EBRD's own financing represents € 1.873 billion. In comparison with 2020, this is an increase in the number of signed contracts (22 per cent) and also an increase in the total contract value (4 per cent).

The average contract value was € 6.7 million and the average EBRD financing was €4.9 million per contract. The largest contract placed was the Construction of wastewater system, drainage of rain fall and reconstruction of water supply system in City of Zadar and Petrcane Zadar Wastewater Project, Croatia, in the amount of € 259 million, procured under alternative procurement procedure.

As in previous years, the contracts awarded through competitive processes constitutes the majority of contracts representing 83 per cent of the total number of contracts and 75 percent of the total contract value. The interest of companies to participate in EBRD financed tenders remains at a high level. The total number of tenders submitted in 2021 was 1,346. Out of these tenders, 75 per cent were submitted by tenderers from EBRD Countries of Operation (in their own or other Countries of Operation) resulting in awards of 278 contracts (84 per cent of all contracts) with a total value of € 1.5 billion (60 per cent of the total contract value).

Companies from the following five countries were most successful in terms of highest total contract value: Kazakhstan (€ 347 million), Germany (€ 273 million), United States of America (€ 247 million), Poland (€ 187 million) and China (€ 175 million). In total, these contracts represent € 1.229 billion or 48 per cent of the total contracted value.

Cross-border participation in tendering for EBRD financed contracts in Countries of Operation remain at a high level (43 per cent), where 9 per cent of all contracts were won by companies from Countries of Operation competing in other Countries of Operation.

PPAD handled 12 complaints, which is a slight decrease in numbers compared to 2020 (14).

As of 31 December 2021, based on the Bank's commitments at the time, the contract pipeline shows that in the forthcoming four years, the Bank's public sector clients are expected to sign in excess of 1,153 contracts for an amount exceeding € 17.9 billion (EBRD funding €12 billion) under 252 projects.

It should be appreciated that with the relatively small number of contracts spread across different sectors and Countries of Operation that are covered on a yearly basis in this report, the data set is not sufficiently representative to be used for comprehensive analysis of trends. Contracting activities will inevitably reflect the investment and volume that the Bank finances rather than more general trends in the market.

As a consequence of the pandemic, governments and international organisations have implemented severe measures to control the spread of the virus, with serious implications on the clients, contractors, suppliers and consultants and their staff and business partners. These implications had an impact on procurement exercises and implementation of signed contracts under Bank financed projects even though not to the extent originally anticipated.

Section 2 of this report is based on a revised automated format as explained in Section 1.

Annual Review 2021

1. Introduction

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2021, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA before the date of generating this report (31 March 2022). A separate section (2.11) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts procured and contracted by the Bank's clients, regardless of source of funds.

The data used in the report

The reporting format uses concurrent data. This means that the historical information (year to year data) from each annual report will in this report may show a larger number of contracts than reported in the previous years as historical contracts will continue to be entered into the system when received the Bank from the clients. Compared with the 2021 Annual Procurement Review, there are 25 contracts (19 contracts in 2020 and six contracts in 2019) worth a combined total of €289 million, which have been added to this report. The main reason why contracts signed in one particular year are entered into the system after the report is produced, is that contracts are often only submitted to the Bank when the first disbursement for the respective contract is requested or as part of other reporting requirements to the Bank, especially when alternative procurement procedures are used.

Annexes 1 to 10 of the report contain the statistical data for the public sector contracts signed during 2021. The analysis of these data, as well as the main procurement activities of PPAD (Section 4), can be found in the main body of this report. Sections 1-3 of this report as well as the annexes will be published on the Bank's website.

A list of the contracts that have been entered into the CRA system since the previous report can be found in Annex 11.

2. Analysis of public sector procurement data

2.1 Volume and number of contracts

2.1.1 Overview 2021

Number of contracts signed by the Bank's clients (excluding NSD)	383
The total value of these contracts amounted to	€ 2.558 billion
Total number of signed contracts compared with last year	22% increase
Total value of signed contracts compared with last year	4% increase

2.1.2 Average values of all contracts

	2020	2021	Year on year change
Contract value (€ million)	7.8	6.7	15% decrease
Average EBRD financing per contract (€ million)	4.8	4.9	2% increase

2.1.3 Large value contracts

	2020	2021
Number of contracts with a value above € 10 million but less than €20 million	57	48
Number of contracts with a value above € 20 million	21	27

The largest contract by value was for the **Construction of wastewater system, drainage of rain fall and reconstruction of water supply system in City of Zadar and Petrcane Zadar Wastewater Project, Croatia**, for a total contract value of €259 million of which €2 million was funded by the EBRD and procured under alternative procedures.

2.2 Analysis by country of operation

Number of countries of operation with public sector contracting activities: **28**

The countries with the highest number of contracts signed:

Rank	Country of Operation	Number of contracts	Percentage of the total contract number
1	Kyrgyz Republic	39	12
2	Turkey	33	10
3	Tajikistan	31	9
4	Ukraine/Romania/Moldova	22	6
Total		169	49

The countries with the highest cumulative value of contracts:

Rank	Country of Operation	Value of contracts (€ million)	Percentage of the total contract value
1	Kazakhstan	444	18
2	Egypt	350	14
3	Croatia	273	11
4	Serbia	204	8
5	Bosnia and Herzegovina	186	7
Total		1,457	58

2.3 Analysis by type of contract

Table 2.3.1 gives the distribution of contracts by size and type in 2021. The 164 works contracts represented the largest total value by contract type (60 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants € 955 million out of € 1.540 billion.

Contract Size (€ million)	Works	Goods	Consultant Services	Total
0~0.3	25	38	47	110
0.3~7.5	92	57	59	209
>7.5	46	18	0	64
Total	164	113	106	383
Total Value (€)	1,550,906,559	935,608,529	71,349,452	257,678,497
Average value (€)	9,456,747	8,279,721	673,108	6,678,497
Fund Portion* (€)	962,457,457	848,586,532	61,701,471	1,872,745,461

*Loan and EBRD administered Grants

Table 2.3.2 illustrates the most successful companies by their country for each contract type in 2021

Contract Type	Tenderer Country	Share of Overall Value for category
Consultant Services	Kazakhstan	9.6%
Goods	Unites States of America	26.4%
Works	Germany	16.8 %
Supply & Installation	Kazakhstan	100%

2.4 Distribution of contracts by award method in 2021

Table 2.4.1 illustrates that the majority (223) of the public sector contracts were awarded through open tender. This represents 59 per cent of the total number of contracts awarded and 67 per cent of the total contract value. As open tendering only applies to goods, works and supply and installation contracts procured in accordance with the PPR the public sector contracts awarded through open tendering represent 82 per cent of the number of these contracts and 86 per cent of the total contract value.

Contract Size (€ million)	Open	Shopping	Direct Selection	Competitive	Alternative ¹	Total
0~0.3	50	1	40	16	3	110
0.3~7.5	128	0	2	57	21	209
>7.5	45	0	5	0	13	64
Total	223	1	46	73	37	383
Total Value	1,729,568,078	48,379	261,320,804	67,471,876	481,077,974	2,557,864,541
Average Value	7,775,911	48,379	5,560,134	937,109	13,002,107	6,678,497
Fund Portion	1,521,534,052	48,379	246,584,797	58,129,680	28,076,622	1,872,745,461

¹ Alternative procurement is the categorisation given to those contracts for which the Board has granted an exception under paragraph 2.4, 3.10 and 3.11 of the PPR from the use of the Bank's procurement procedures. Please refer to the Procurement Policies and Rules edition October 2014 and November 2017, for an explanation of different tender methods.

2.5 Level of participation

2.5.1 Overview

A total of 1,346 tenders from 65 countries were received during 2021, which is an increase in participation from 2020 (1,079). On average, 3.5 tenders were submitted when open tendering procedures were applied (compared with an average of 3 tenders in 2020).

Companies from the following five countries were most successful in terms of highest total contract value, winning in total € 1.229 billion or 50 per cent of the overall contract value:

Tenderer Country	Awarded Value
Kazakhstan	€ 347 million
Germany	€ 273 million
United States of America	€ 247 million
Poland	€ 187 million
China	€ 175 million

Companies from the following six countries were most successful in terms of number of awarded contracts, winning in total 154 contracts (40 per cent of the total number of contracts) worth €704 million, which represented 28 per cent of the total contract value:

Rank	Tenderer Country	Number of Contracts
1	Turkey	36
2	Kyrgyz Republic	28
2	Tajikistan	28
4	Kazakhstan	22
5	Morocco	20
5	Romania	20

Table 2.5.2 Distribution of tenderers by country of origin (2021)

The column “Rate of Success” seen in **Table 2.5.2** provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Tenderer Country	Signed Contract Value (EUR)	% of Total Value Won	Number of Contracts Won	% of Total Contracts Won	Number of Unsuccessful Tenders	Total Number of Tenders	% Rate of Success	% of Total Tenders Submitted
Albania	64,050	0.00%	1	0.26%	13	14	7.14%	1.04%
Armenia	4,127,181	0.16%	4	1.04%	11	15	26.67%	1.11%

2.6 Analysis by origin of tenderer

The following analysis is based on open tendered contracts only:

Chart 2.6.1a: All submitted tenders shows that out of the 1,346 tenders that were submitted, 75 per cent were submitted by tenders from Countries of Operation.

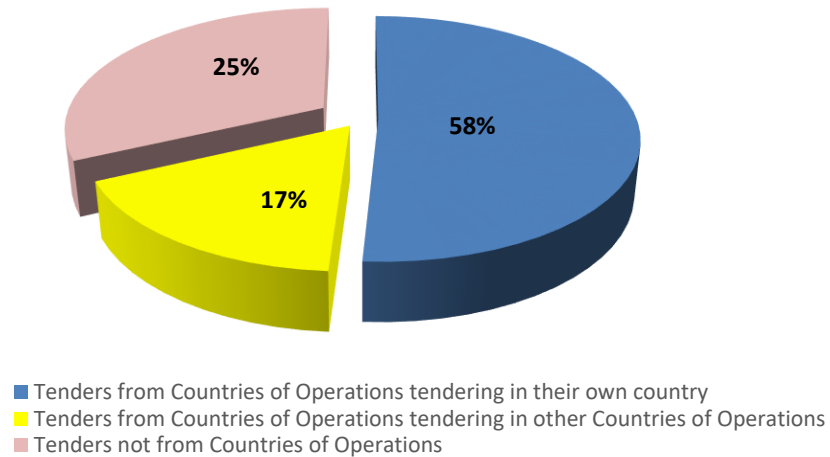

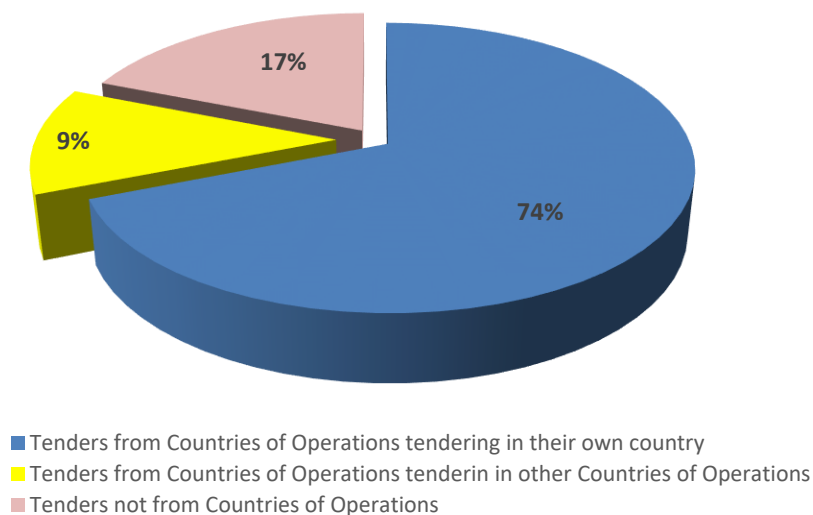

Chart 2.6.1b: All successful tenderers (number of contracts)

The chart shows that out of the 383 contracts awarded, 74 per cent were won by companies from Countries of Operation tendering in their own country and 9 per cent were won by companies from Countries of Operation tendering in other Countries of Operation. In total 83 per cent were won by companies from Countries of Operation.

2.7 Success of entities from Countries of Operation

Table 2.7.1 illustrates the success of companies from Countries of Operation

	Number of Contracts	Percentage of the total number	Value of Contracts (million)	Percentage of the total Value
Contracts won by entities from the Countries of Operation	278	83%	€ 1,518	60%
Contracts won by entities from the Countries of Operation in their own country	249	74%	€ 1,094	43%
Contracts won by the entities from the Countries of Operation in a country which is not their country of origin	29	9%	€ 424	17%
Contracts won by the entities from the Countries of Operation in their own countries only (list of countries below)	127	38%	€ 345	14%

In 2021, companies from the following 13 countries of the Bank Countries of Operation won contracts only in their own country.

These countries were: Azerbaijan; Bosnia and Herzegovina; Bulgaria; Croatia; Egypt; Georgia; Jordan; Moldova; Mongolia; Morocco; Serbia; Tajikistan; Uzbekistan.

2.8 Co-Financing

In 2021, the total value of co-financed contracts awarded was € 1.451 billion of which the EBRD financed € 766 million. The balance of € 685 million were provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves. In comparison with 2020, this is a decrease (€ 817 million) of the total value provided by other sources. Altogether 182 contracts (47.5 percent of total number) were co-financed.

2.9 Public sector procurement with sub-sovereign clients

		Percentage of total contracts	Compared to previous year
Number of contracts	99	30	3% decrease
Value of contracts (€ million)	968	38	3% increase

2.10 Alternative procurement

Alternative procurement is the classification given to those contracts which are co-financed with other International Financial Institutions and for which the Board has granted an exception under paragraph 2.4 of the PPR from the use of the Bank's procurement procedures. In such cases, these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board. In 2021, alternative procedures were applied in the following four countries: Bulgaria, Croatia, Egypt, Romania, Serbia.

Number of contracts	37
Total value	€ 481,077,974
EBRD funded portion	€ 28,076,622
Average EBRD financing	6%
Largest contract	€ 258,703,692

2.11 Nuclear Safety Department

The EBRD manages seven nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PPR for public sector projects.

	2021	Compared to the previous year
Number of contracts signed	4	decrease 71%
Value of contracts signed (€ million)	2	decrease 94%

Table 2.11.1 illustrates the distribution of NSD administered contracts by size and type.

Contract Size (€ million)	Works	Supply & Installation	Goods	Consultant Services	Total
0.3~7.5	0	0	0	4	4
>7.5	0	0	0	0	0
Total	0	0	0	2,103,340	4
Total Value (€)	0	0	0	2,103,340	2,103,340
Average Value (€)	0	0	0	525,835	525,835

The largest contract by value was for **State Committee of Ecology and Environmental Protection of the Republic of Uzbekistan - Environmental Remediation Account for Central Asia (ERA)**

2.12 Annexes covering 2021

Country and sector tendering analysis

Annex 1 provides a breakdown by Country of Operations of all contracts signed during 2021 (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

Annex 2 provides the total value of contracts signed in 2021, distributed by type and by country of origin of the winning companies.

Annex 3 presents the level of interest generated by business sector in the respective countries of operation for 2021

Annex 4 presents the distribution of tenders submitted by country of origin of the tenderers and by country of operations for 2021

Annex 5 presents the distribution of submitted tenders by country of origin of the tenderers and by business sector for 2021

Annex 6 awards by country of origin of the tenderers (Value by Procurement Method) for 2021.

Annex 10 Contracts placed under Nuclear Safety managed funds during 2021

2.13 Analysis by sector 2017 – 2021

Chart 2.13.1a illustrates the number of public sector contracts signed between 2017 and 2021

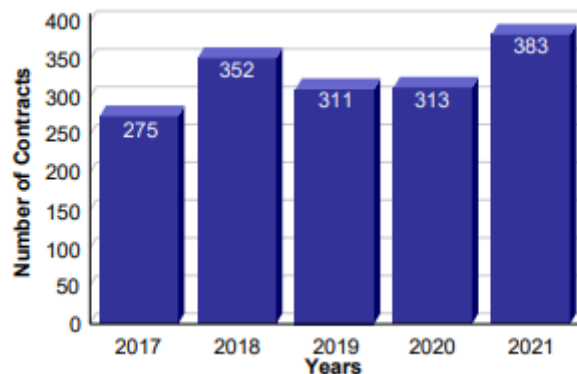

Chart 2.13.1b demonstrates the overall contract value as well as the portion financed by the EBRD between 2017 and 2021. Over the past five years, a total of 1,634 contracts have been signed with a total value of € 11.991 billion of which the EBRD financed € 7.990 billion

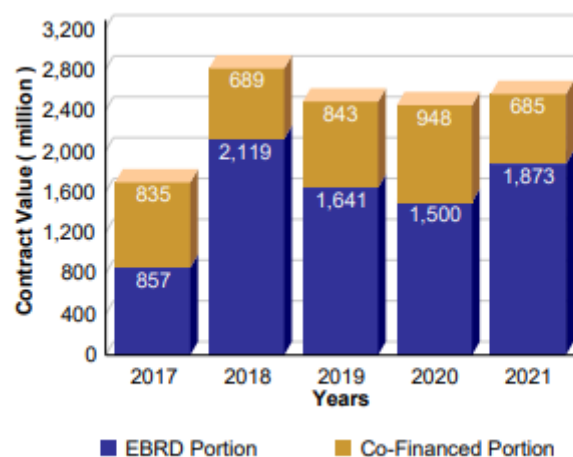

Chart 2.13.1c illustrates the overall number of public sector contracts signed between 2017 and 2021 by business sector. With a total number of 1,043 contracts, with the MEI sector having the highest contracting activity.

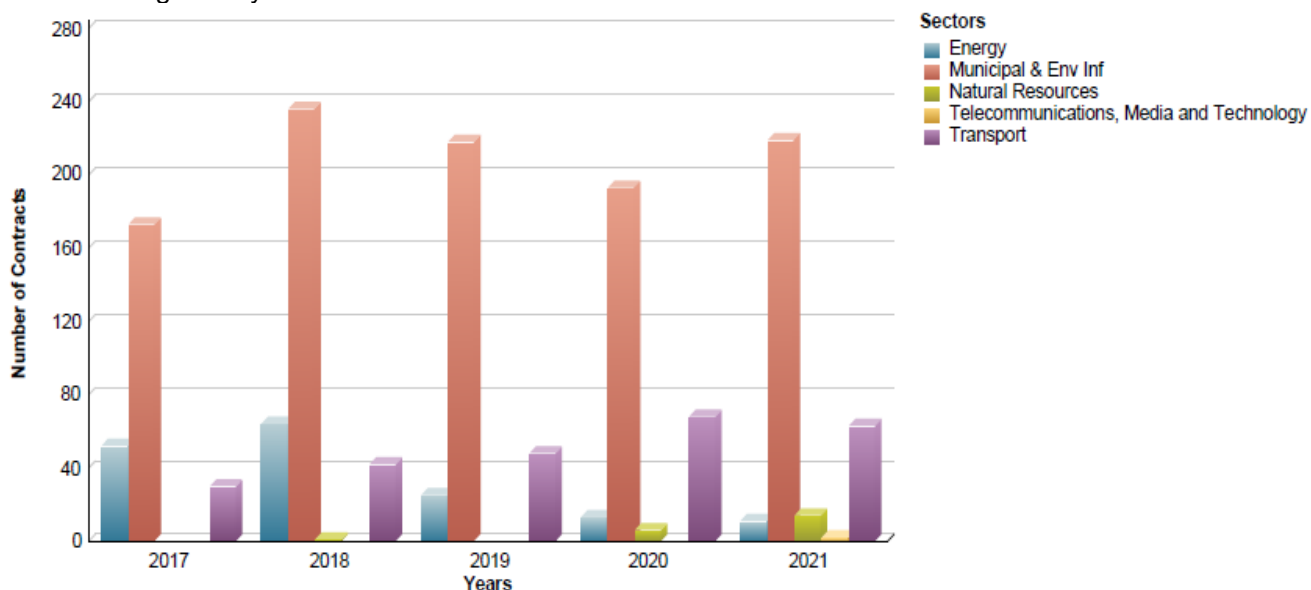

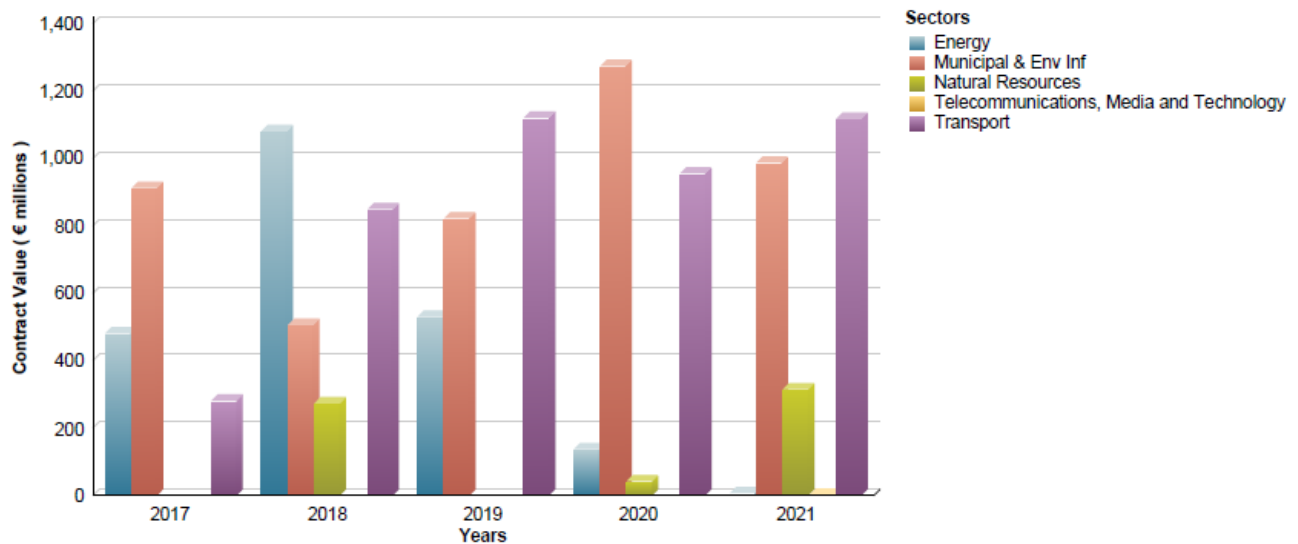

Chart 2.13.1d illustrates the overall contract value of public sector contracts signed between 2017 and 2021 by business sector. The Transport sector recorded the highest contracting activity with € 4.584 billion over the past five years.

2.14 Cumulative 2017-2021 data overview

The below information shows the countries with the highest total value of contracting over the past five years in descending order.

Country of Operations	Awarded Value (€)
Kazakhstan	1,384 million
Ukraine	1,298 million
Turkey	997 million
Romania	975 million
Bosnia and Herzegovina	828 million
Overall - Total	5,482 million

The contracts in these five countries amounted to € 5.482 billion, which represented 46 per cent of the overall total contract value of the past five years (€ 11.991 billion).

Tenderers from Turkey have been the most successful over the last five years as they have won a total of € 2.017 billion or 17 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order:

Rank	Tenderer Country	Total Contract Value Awarded (€)
1	Turkey	2,017 million
2	China	1,217 million
3	Morocco	722 million
4	Ukraine	690 million
5	Romania	617 million

The contracts won by companies from these five countries amount to € 5.264 billion which represented 44 per cent of the overall total contract value for the past five years. According to the country of origin of the companies, out of the 1,627 contracts administered by EBRD the highest numbers of contracts were awarded to companies from:

Rank	Tenderer Country	Number of Contracts
1	Tajikistan	167
2	Kazakhstan	154
3	Morocco	126
4	Romania	110
5	Kyrgyz Republic	99

The number of contracts won by companies from these five countries is 656, which represented 40 per cent of the overall total contract count for the past five years.

In the period 2017 to 2021 no public sector contracts were reported in: Estonia; Greece; Hungary; Latvia; Lebanon; Lithuania; Slovak Republic; Slovenia; Turkmenistan; West Bank and Gaza

2.15 Annexes covering 2017 – 2021

Annex 7 provides a distribution by country of origin of the successful tenderers and the value of contracts signed for the period 2017 - 2021

Annex 8 provides the same breakdown but on the basis of the total number of public sector contracts won and signed in the period 2017 - 2021

Annex 9 provides public sector contract awards in the Countries of Operation by value

2.16 Public Procurement Opportunities

Table 2.16.1 illustrates the data regarding the public procurement opportunities posted on the Bank's Internet site and the EBRD procurement portal (ECEPP). It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section.

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalify	Invitations for Tenders	Total
2017	122	23	11	242	398
2018	103	44	19	199	398
2019	127	66	23	193	409
2020	137	48	12	134	331
2021	85	27	13	150	275

In 2021, the Bank published a total of 275 procurement notices. Out of 85co general procurement notices published, 48 were for new projects.

3. Compliance and integrity

3.1 Procurement Complaints

3.1.1. Procurement complaint review process

The Bank's role in a procurement complaints review process is to determine if the client has followed the agreed procedures, or not. Should the Bank consider that the Bank's client has, in a material way, not followed the agreed procedures it may decide not to finance the subject contract, and may reduce the amount of financing provided by the Bank by the corresponding amount in accordance with Section III, Article 2.12 of the PPR. It should be noted that a determination by the Bank to uphold a procurement complaint might affect the availability of Bank funding for the contract, but may not alter the outcome of the procurement process.

In 2021, all procurement complaints were reviewed in accordance with the provisions of the Procurement Complaints Review Directive, which had come into effect on 1 October 2020. The essential features of this Directive can be summarised as follows:

A procurement complaint will only be considered by the Bank if filed by or on behalf of a participant in a procurement process after the deadline for:

- (a) In respect of goods, works, commodities and non-consultancy services tenders, the opening of the final tender which includes the financial proposal;
- (b) In respect of consultancy services, the opening of the financial proposal.

Issues raised by participants in a procurement process prior to the above deadlines will be dealt with by the Bank in accordance with the provisions of the Guidance Note on "Request for Bank Procurement Review".

Furthermore, procurement complaints will only be considered by the Bank if:

- (a) the complaining participant has requested and received a debriefing by the Bank's client or if the Bank's client declined to arrange a debriefing explicitly or by not responding to a request;
- (b) the complaint is set forth in the format of the EBRD Procurement Complaints Form, duly completed, accompanied by relevant documents, and submitted via the Bank's procurement complaints portal; and
- (c) the complaining participant has provided reference(s) to the paragraph(s) or section(s) of the tender documents that are alleged to have been violated and has described the substantive nature of the issues raised.

Complaints that are received by the Bank in any other form or through any other communication channel will not be considered by the Bank and will be forwarded to the client for its review and response.

3.1.2. Procurement Complaints during 2017-2021

Table 3.1.2 illustrates the number of complaints closed in 2017-2021 by contract type

Contract type	2017	2018	2019	2020	2021
Works	8	9	6	6	3
Goods	9	3	2	6	5
Supply and Installation ²	7	2	1	N/A	N/A
Commodities	0	0	0	0	0
Consultancy	2	1	2	2	4
Total	26	16	11	14	12

3.1.3. Procurement Complaints during 2021

During the course of 2021, PPAD reviewed and closed 12 procurement complaints for Bank financed or administered contracts, as compared with 14 procurement complaints in 2020.

3.1.4 Summary of all complaints

The complaints raised by unsuccessful entities in 2021 varied in nature. The following main issues were raised:

- Challenging the Client's decision to disqualify a tenderer on technical grounds;
- Challenging the qualification of the lowest priced tenderer;
- Allegation that the winning tenderer did not fulfil the requirements of the tender documents;
- Allegation that the successful tenderer had submitted an abnormally low tender price;
- Challenging the client's scoring of a consultant's technical proposal.

In terms of the duration of the review of complaints, seven cases could be finalised within a period of less than two months, and the remaining five cases in between three and five months respectively after receipt by the Bank.

The following section provides a summary of the 12 complaints that were closed in 2021. The review of 10 further complaints was still ongoing as at 31 December 2021. The information provided includes the nature and the outcome of the complaint process for each of these complaints. 11 of the 12 complaints were not upheld and one complaint was upheld by the Bank.

Complaints closed by the Bank in 2021³

1. Project: Ukraine: GrCF - Lviv Solid Waste

Country of Complainant: Poland
Contract Amount: €35.2 million
Timeline⁴: < 5 months

Nature of Complaint:

The procurement complaint related to a two stage open tender process for the procurement of a contract for the Construction of the Municipal Solid Waste Mechanical and Biological Treatment Facilities (Phase 1) in Lviv, Ukraine. The complainant challenged the validity of the Client's tender evaluation. In summary, the complainant claimed that the Client had not correctly applied the evaluation methodology in accordance with the requirements of the tender documents in that:

² From 2020, contracts for "Supply and Installation" are included in the contract type category of "Works or "Goods", as appropriate.

³ Complaints closed during 2021, presented in chronological order as received by the Bank.

⁴ This represents the period between the Bank's receipt of the procurement complaint and the date on which the Bank has made its final determination whether or not to uphold the complaint.

1. It had incorrectly determined that the offer from the tenderer who had been awarded the contract was the most economically advantageous offer.
2. A conflict of interest may have existed between the Client's consultant and the company that had been awarded the contract due to a previous commercial association between the companies prior to the tender.
3. The company that had been awarded the contract did not meet the financial qualification requirements of the tender.

Outcome of the Complaint Review Process:

The Bank decided to uphold the complaint on the basis of a mistake in the client's tender evaluation, which erroneously resulted in the tender from the company that had originally been awarded the contract having been evaluated as the lowest evaluated substantially responsive tender when in fact the lowest evaluated substantially responsive tender should have been the one from the complainant. The Bank's client was informed about the outcome of the review and subsequently awarded the contract to the complainant.

2. Project: Kyrgyz Republic: KR Water Framework - Myrzaki-Kurshab Regional Water

Country of Complainant: Turkey
Contract Amount: €1.5 million
Timeline: < 3 months

Nature of Complaint:

The procurement complaint related to a consultancy selection process from a consultancy framework for the Project Implementation Unit ("PIU") Support services (including Procurement, Design and Contracts Supervision) for three water sub-projects under the KR water framework. The evaluation of the proposals was undertaken by the Bank. The complainant objected to the technical scoring for their:

- Relevant professional experience
- Approach and methodology
- Qualification of Experts.

Outcome of the Complaint Review Process:

The Bank established that there was evidence that the scoring of the complainant's technical proposal by the Evaluation Committee reflected the strengths and weaknesses of the complainant's technical proposal, which was adequate for the Project. However, technical proposals submitted by other Participants of this consultant selection process were qualitatively stronger, resulting in relatively lower scores for the complainant's technical proposal. Based on the analysis, it was concluded that the allegations made by the complainant were unfounded and that the complaint should not be upheld.

3. Project: Kazakhstan: Shalkiya Zinc: Pre-Privatization Loan

Country of Complainant: United Kingdom
Contract Amount: €10.0 million
Timeline: < 2 months

Nature of Complaint:

The complaint relates to the award of a contract for project management consulting services. The procurement complaint focused on the complainant's allegation that the client had not undertaken the overall evaluation process in accordance with the procedures contained in the Request for Proposals (RFP) and related to three key issues that had resulted in the rejection by the client of the complainant's proposal. The three issues are summarised as follows:

- i) The technical and financial proposals were not submitted by the entity that was shortlisted at the EOI stage;
- ii) The CVs submitted in the technical proposal contained no names and no signatures; and
- iii) Eligibility of the complainant for contract award.

Outcome of the Complaint Review Process:

The Bank established that the overall evaluation process had not been compromised and that the ultimate award decision was the correct decision. On this basis the complaint could not be upheld.

4. Project: Romania: SLFW - Bacau Urban Energy Efficiency

Country of Complainant: Romania
Contract Amount: €10 million
Timeline: < 2 months

Nature of Complaint:

The procurement complaint concerned the contract for the "Design and execution for 'Modernization of a large part of public lighting system in Bacau Municipality' in Romania". The complainant alleged that the winning tenderer's tender did not meet certain technical requirements of the tender documents.

Outcome of the Complaint Review Process:

The Bank's review established that in the course of the tendering process, tender evaluation and post-evaluation debriefing, the Client acted in accordance with the procedure and rules described in the tender documents, the Bank's Guidance Note on Procurement Debriefing and the PPR. The analysis thus demonstrated that none of the allegations presented by the complainant were substantiated. Consequently, it was decided not to uphold the complaint.

5. Project: Serbia: Serbian Climate Resilience & Irrigation Programme SCRIP

Country of Complainant: Czech Republic
Contract Amount: €0.35 million
Timeline: < 1 month

Nature of Complaint:

The complaint related to an assignment for PIU support consulting services. In summary, the complainant alleged that the evaluation of its technical proposal had neither been undertaken in accordance with the criteria contained in the Request for Proposals (RFP) or in a transparent manner. In particular, the complainant alleged that the client incorrectly penalised the complainant's proposal for deviating from the indicative number of man-months required for key experts and further claimed the client had not provided a satisfactory explanation in this regard in the subsequent debriefing process.

Outcome of the Complaint Review Process:

The Bank's analysis concluded that the technical scoring in the client's evaluation process appeared to be reasonable and that the overall evaluation process had been undertaken in accordance with the relevant provisions of the RFP and the agreed procedures. On this basis, the Bank decided not to uphold the complaint.

6. Project: North Macedonia: Rail Corridor VIII - Second Phase

Country of Complainant: Germany
Contract Amount: €0.6 million
Timeline: < 2 months

Nature of Complaint:

The procurement complaint related to a single stage competitive selection process for a contract involving Consultancy Services for Project Implementation Support for the project. The complainant considered that the client did not act in accordance with the rules of the procurement procedure, which led to a contract award to their competitor. The complainant believed that during contract negotiations the successful consultant attempted to substitute the key personnel, who had been subject to the evaluation, but allegedly did not meet the minimal requirements. The complainant further alleged that the key personnel concerned were the Team leader and the Contract/Claim specialist. The complainant requested the Bank to review if the client had been acting in accordance with the agreed procedures and in line with the PPR and respective Guidelines.

Outcome of the Complaint Review Process:

On the basis of the review of the complaint and the relevant procurement documents, the Bank decided that in the course of the competitive selection process, the evaluation of the proposals and the contract negotiations, the client had acted in accordance with the procedures and rules described in the procurement documents and the PPR. The analysis demonstrated that the allegations presented by the complainant were not substantiated. Consequently, the complaint was not upheld.

7. Project: Ukraine: Project Voyager

Country of Complainant: Latvia
Contract Amount: €16.2 million
Timeline: < 3 months

Nature of Complaint:

The complainant submitted to the Bank seven complaints. They were related to specific lots and were concerned with the same tender for the supply and installation of a train management control system, as part of the dispatch centralisation programme, which was carried out by JSC Ukrainian Railways. The complainant challenged the outcome of the Client's tender evaluation for all seven lots, concerning the contract for installation of the train management control system for the route between Pomichna - Chornoliska - 124 km. The Complaints were focused on a number of issues:

- (a) The qualification of the successful tenderer;
- (b) Allegedly abnormally low tender price of the successful tenderer;
- (c) Non-disclosure of information about the winning tenderer's tender and the evaluation process during the client's debriefing.

Outcome of the Complaint Review Process:

During the review of the complaint, the Bank established that in the course of the tender evaluation and post-evaluation debriefing the Client acted in accordance with the procedure and rules described in the procurement documents, the Bank's Guidance Note on Procurement Debriefing and the PPR. The analysis thus demonstrated that none of the allegations, as presented by the Complainant, were substantiated. Consequently, the Bank did not uphold the complaint.

8. Project: Egypt: SOPC Energy Efficiency & Upgrade Program

Country of Complainant: Italy
Contract Amount: €15 million
Timeline: < 1 month

Nature of Complaint:

The complaint related to a procurement exercise for the supply of piping valves (lot 7). The complainant alleged that the tender price of the successful tender was unjustifiably low and therefore the tenderer should not have been awarded the contract.

Outcome of the Complaint Review Process:

The Bank established that the overall procurement process had been undertaken in accordance with the agreed procedures. On this basis the complaint could not be upheld.

9. Project: Egypt: SOPC Energy Efficiency & Upgrade Program

Country of Complainant: Italy
Contract Amount: €6.5 million
Timeline: < 1 month

Nature of Complaint:

The complaint related to a procurement exercise for a fire protection package (lot 28). The complainant alleged that the tender price of the successful tender was unjustifiably low and therefore the tenderer should not have been awarded the contract.

Outcome of the Complaint Review Process:

The Bank established that the overall procurement process had been undertaken in accordance with the agreed procedures. On this basis the complaint could not be upheld.

10. Project: Ukraine: UPTF2: Kherson Trolleybus

Country of Complainant: Ukraine
Contract Amount: €7.7 million
Timeline: < 4 months

Nature of Complaint:

The procurement complaint concerned the tender for the supply of Low-floor 12m trolleybuses, diagnostic and maintenance equipment, tools, spare parts, and related services. The complainant challenged the rejection of their tender by the Client for failure to pass post-qualification. Having submitted the lowest evaluated tender, the complainant's tender was rejected for failing to meet the qualification requirement for Financial Situation (Section III: Evaluation Methodology, B. Qualification Requirements, Financial Situation).

Outcome of the Complaint Review Process:

The Bank's analysis confirmed the client's determination that, despite having submitted the lowest evaluated tender, the complainant was not qualified and capable of performing the Contract, having failed to meet the Financial Situation criteria.

11. Project: Ukraine: UPTF2: Kherson Trolleybus

Country of Complainant: Ukraine
Contract Amount: €7.7 million
Timeline: < 3 months

Nature of Complaint:

The procurement complaint concerned the tender for the supply of Low-floor 12m trolleybuses, diagnostic and maintenance equipment, tools, spare parts, and related services. The complainant claimed that the tender evaluation had not been carried out in accordance with the evaluation criteria set out in the procurement documents, and the "agreed EBRD procedures". They claim that the tender submitted by the successful tenderer was not fully responsive to the technical specifications of the procurement documents, particularly alleging that the trolleybuses were not compliant with certain specific requirements of the Technical Specifications and that the Client had not verified the legality of the successful tenderer's consortium agreement properly, as required by the Ukrainian legislation.

Outcome of the Complaint Review Process:

The Bank established that the allegations concerning the alleged non-qualification of the winning tenderer was unfounded. Similarly, the alleged non-legality of the successful tenderer's consortium set-up could also not be confirmed. Consequently, the Bank decided not to uphold the complaint.

12. Project: Turkey: Turkey COVID-19 Equipment Emergency Response

Country of Complainant: Turkey
Contract Amount: €1.5 million
Timeline: < 1 month

Nature of Complaint:

The procurement complaint concerned the tender for PP 3: COVID-19 Medical Equipment For Public Hospitals: Lot 13: 26 Endovision Imaging System (ENT) Type 1. The complainant contested the rejection of its tender by the client on the grounds of material non-compliance with certain technical requirements. The complainant stated that it had inadvertently submitted the wrong catalogue to proof compliance of its product with the technical requirements and that this should not have led to their disqualification.

Outcome of the Complaint Review Process:

The Bank determined that the Client had evaluated the submitted tenders in accordance with the Procurement Documents, had provided an opportunity to the complainant for clarification and had provided a debriefing to the complainant. Consequently, it was decided not to uphold the complaint.

3.2 Prohibited practices

The Agreement Establishing the European Bank for Reconstruction and Development expressly provides that the Bank must take all necessary measures to ensure that the proceeds of its financing are used solely for the purposes for which such financing was granted. To this end, OCCO investigates and, if appropriate, recommends sanctions for corrupt, fraudulent, coercive, collusive and obstructive practices, theft, and misuse of Bank resources or Bank assets (Prohibited Practices) pursuant to the Bank's Enforcement Policy and Procedures (EPPs).

In 2010, the Agreement for Mutual Enforcement of Debarment Decisions (AMEDD) was signed by the African Development Bank Group, the Asian Development Bank, the Inter-American Development Bank Group, the World Bank Group and the Bank pursuant to which it was agreed that these Mutual Enforcement Institutions would recognise each other's debarment decisions by cross-debarment of the same entities and individuals if specific conditions are met. Entities (and their affiliates) or individuals are ineligible to become the Bank's counterparty in any new Bank project if - in accordance with the EPPs - it is determined that (a) they have engaged in any Prohibited Practice in the context of a Bank project or Bank assets, (b) they are subject to a Third Party Finding, or (c) they are subject to a debarment decision by a Mutual Enforcement Institution.

In 2021, enforcement proceedings resulted in the debarment of one entity for a period of 16 months and one individual for a period of 13 months.

In 2021, in accordance with the AMEDD, the Bank cross-debarred 124 entities and 34 individuals and requested the cross-debarment of three entities and one individual, who have been subsequently cross-debarred.

Entities and individuals (cross-) debarred by the Bank are ineligible to be awarded Bank-funded contracts during the (cross-) debarment period. On its website the Bank publishes all entities and individuals it (cross-) debarred over the years (<http://www.ebrd.com/ineligible-entities.html>).

PPAD and OCCO work closely together in relation to public sector procurements. The Procurement Function refers potential Prohibited Practices matters to OCCO, provides information on Bank-financed procurement projects to OCCO if required for its investigation, and shares its knowledge and experience about procurements with OCCO. In addition, following the conclusion of its investigations, OCCO shares any relevant lessons learned with PPAD to further strengthen the Bank's procurement processes.
