Placements with and advances to credit institutions	**10,098**	6,628
Cash and cash equivalents at 30 June	**10,098**	6,628

[1] Cash and cash equivalents are amounts with less than three months to maturity from the date of the transactions, which are available for use at short notice and are subject to insignificant risk of change in value. Within the 30 June 2014 balance is €14 million restricted for technical assistance to be provided to member countries in the SEMED region.

Explanatory notes

1. Establishment of the Bank

i Agreement Establishing the Bank

The European Bank for Reconstruction and Development ("the Bank"), whose principal office is located in London, is an international organisation formed under the Agreement Establishing the Bank dated 29 May 1990 ("the Agreement"). At 30 June 2014 the Bank's shareholders comprised 64 countries, together with the European Union and the European Investment Bank.

ii Headquarters Agreement

The status, privileges and immunities of the Bank and persons connected therewith in the United Kingdom are defined in the Agreement and in the Headquarters Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Bank ("Headquarters Agreement"). The Headquarters Agreement was signed in London upon the commencement of the Bank's operations on 15 April 1991.

2. A summary of significant accounting policies

i Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through other comprehensive income, financial assets and financial liabilities held at fair value through profit or loss and all derivative contracts. In addition, financial assets and liabilities subject to amortised cost measurement which form part of a qualifying hedge relationship have been accounted for in accordance with hedge accounting rules.

ii Financial statements presentation

The financial statements are presented in a manner consistent with the Bank's audited financial statements for the year ended 31 December 2013.

In the opinion of management, all adjustments necessary for a fair presentation of the financial position and the results of operations for the period have been made. The results of operations for interim periods are not necessarily indicative of results to be expected for the year ending 31 December 2014.

3. Banking loan investments at amortised cost

	30 June 2014 Sovereign loans € million	**30 June 2014 Non-sovereign loans € million**	**30 June 2014 Total loans € million**	31 December 2013 Sovereign loans € million	31 December 2013 Non-sovereign loans € million	31 December 2013 Total loans € million

Portfolio provisions for the unidentified impairment of loan investments	**(18)**	**(489)**	**(507)**	(18)	(417)	(435)
Specific provisions for the identified impairment of loan investments	**-**	**(389)**	**(389)**	-	(382)	(382)
Total operating assets net of provisions for impairment	**2,739**	**15,659**	**18,398**	2,783	15,858	18,641

[1] The movement in fair value revaluation relates to those fixed rate loans that form part of a qualifying hedge relationship with a derivative position and as such are re-measured to fair value in respect of interest rate risk.

At 30 June 2014 the Bank categorised 70 loans as impaired, with operating assets totalling €715 million (31 December 2013: 68 loans totalling €655 million). Specific provisions on these assets amounted to €389 million (31 December 2013: €382 million).

5. Primary segment analysis

Business segments

For management purposes the business of the Bank is comprised primarily of Banking and Treasury operations. Banking activities represent investment in projects which, in accordance with the Agreement, are made for the purpose of assisting the countries of operations in their transition to a market economy, while applying sound banking principles. The main investment products are loans, share investments and guarantees. Treasury activities include raising debt finance, investing surplus liquidity, managing the Bank's foreign exchange and interest rate risks, and assisting clients in asset and liability management matters.

Primary reporting format - business segment

	30 June 2014			30 June 2013

Segment liabilities	**267**	**35,935**	**36,202**	221	36,035	36,256

[1] Banking figures includes both realised and unrealised changes on the equity and loans portfolios.

Interest expense and similar charges, net of the allocation of the return on capital, is €44 million (Q2 2013: €47 million). This is the Bank's "interest expense and similar charges" as reported in the income statement.

Banking operations recorded a net profit of €252 million for the second quarter compared to a loss of €115 million in the first quarter. This brought Banking's net profit for the year to €137 million (YTD 2013: €304 million profit), compared with a budgeted profit of €379 million.

The geopolitical tensions stemming from the Russia – Ukraine situation have contributed to increased general provisions on the Bank's loan portfolio, resulting in impairment charges of €171 million compared to a charge of €6 million in the first six months of 2013. Before provisioning, Banking operations achieved gains of €308 million, which is comparable to the €310 million gain recorded in 2013.

Treasury operations for the first six months of 2014, before hedge accounting adjustments, recorded a gain of €53 million against a budgeted profit of €35 million. This compares to a gain of €126 million for the same period in 2013 when market conditions afforded more opportunities for Treasury to manage the currency composition of its balance sheet to achieve lower funding costs and to buy back its issued debt at favourable levels. Hedge accounting adjustments resulted in a loss of €7 million (2013: loss of €2 million) to bring Treasury's overall result for the period to a gain of €46 million (2013: gain of €124 million). Hedge accounting adjustments represent the net fair value movement on hedging relationships undertaken by Treasury that either do not qualify for hedge accounting or do not fully offset when measured in accordance with IFRS. This unrealised adjustment does not reflect economic substance, inasmuch as it would not be realised in cash were the hedging relationships to be terminated and it will reverse over time as the underlying deals approach their maturities.

6. Fair value of financial assets and liabilities

Classification and fair value of financial assets and liabilities

Financial Assets at 30 June 2014	**Carrying amount € million**	**Fair value € million**
Financial assets measured at fair value through profit or loss:		
Debt securities	116	116
Derivative financial instruments	3,501	3,501

	41,167	42,311
Total	**51,175**	**52,319**

Financial Liabilities at 30 June 2014	**Carrying amount € million**	**Fair value € million**
Amounts owed to credit institutions	(1,924)	(1,924)
Debts evidenced by certificates	(31,577)	(31,471)
Derivative financial instruments	(2,030)	(2,030)
Other financial liabilities	(671)	(671)
Total financial liabilities	**(36,202)**	**(36,096)**

The basis of fair value for debt securities listed in an active market is the quoted bid market price on the balance sheet date.

The basis of fair value for debt securities that are unlisted or listed in an inactive market is determined using valuation techniques appropriate to the market and industry of each investment. The primary valuation techniques used are quotes from brokerage services and discounted cash flows. Techniques used to support these valuations include industry valuation benchmarks and recent transaction prices.

The fair value of banking loan investments at amortised cost was calculated by discounting the cash flows at prevailing interest rates at the quarter end interest and further discounting the value by an internal measure of credit risk.

"Debts evidenced by certificates" represents the Bank's borrowing activities executed through the issuance of commercial paper and bonds. Fair value is estimated based on the Bank's historical experience of the price at which it has been able to re-purchase its debt.

Fair value hierarchy

IFRS 7 specifies classification of fair values on the basis of a three-level hierarchy of valuation methodologies. The classifications are determined based on whether the inputs used in the measurement of fair values are observable or unobservable. These inputs have created the following fair value hierarchy:

- **Level 1 –** Quoted prices in active markets for identical assets or liabilities. This level includes listed share investments on stock exchanges.
- **Level 2 –** Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). This level includes debt securities and most derivative products. The sources of inputs include prices available from screen-based services such as Reuters and Bloomberg, broker quotes and observable market data such as interest rates and foreign exchange rates which are used in deriving the valuations of derivative products.
- **Level 3 –** Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes share investments and debt securities or derivative products for which not all market data is observable.

The table below provides information at 30 June 2014 about the Bank's financial assets and financial liabilities measured at fair value. Financial assets and financial liabilities are classified in their entirety based on the lowest level input that is significant to the fair value measurement.

	At 30 June 2014			
	Level 1	**Level 2**	**Level 3**	**Total**
	€ million	**€ million**	**€ million**	**€ million**

Balance as at 30 June 2014	**-**	**343**	**206**	**4,000**	**4,549**	**(128)**	**(128)**
Unrealised fair value changes on assets and liabilities held at 30 June 2014 included in net profit/(loss) above	-	7	9	(310)	(294)	10	10

The transfers out of level 3 for Banking share investments relates to the listing of a previously unlisted investment.

Level 3 – sensitivity analysis

The table below presents the level 3 financial instruments carried at fair value at 30 June 2014, the main valuation models/techniques[1] used in the valuation of these financial instruments and the estimated increases or decreases in fair value based on reasonably possible alternative assumptions:

		Impact on net profit in 2014		
	Main valuation models/techniques	Carrying amount € million	Favourable change € million	Unfavourable change € million
Treasury derivative financial instruments	Discounted cash flow models	1	-	-
Banking loans	Discount cash flow and option pricing models	206	5	(11)
Banking share investments & associated derivatives	NAV and EBITDA multiples, discount cash flow models, compounded interest and option pricing models	4,214	590	(495)
At 30 June 2014		**4,421**	**595**	**(506)**

[1] NAV = net asset value; EBITDA = earnings before interest, tax, depreciation and amortisation.
