Economic channels of disruption
Tourism, private consumption, external demand
- Severe lockdown causing sharp decline in economic activity and consumption pattern.
- Expected reduction in remittances to further decrease disposable incomes of households.
- Tightening global financial markets and reduced FX inflows put pressure on domestic FX market leading to currency volatility.
- Tourism (revenues:18.8% of GDP in 2019) will be heavily hit.

Crisis response measures to date
Support for healthcare, businesses and vulnerable population
- Total support package at 7% of GDP: GEL 2.1bn for the support to the private sector and entrepreneurs, GEL 1bn for social assistance measures and GEL 350mn to strengthen the healthcare system.
- Postponement of certain tax payments, doubling of the VAT refunds by the end of the year, subsidized interest payments on loans for companies in the most affected sectors, scaling up of the credit guarantee scheme, exemption from the income tax for low-paid jobs.
- Social assistance measures include coverage of utility fees for smaller household users, deferred loan repayments for household loans and support for those affected by the pandemic, self-employed and vulnerable groups.
- Lowered capital and liquidity requirements, relaxed regulatory requirements to support loan restructuring.

Selected crisis response indicators
Exemption from income taxes
6 months, for salaries up to a threshold (GEL 250mn)

Credit guarantee scheme
90% guarantees on new loans, 30% on restructurings (GEL 300mn)

Social assistance
6 months, for employees who lost their jobs or are on unpaid leave (GEL 460mn)
One-off for self-employed or those in the informal sector upon proof of loss of income (GEL 75mn)

Key short-term priorities
Provide liquidity to the economy, particularly SMEs, revenue support to vulnerable individuals, extra external assistance to boost confidence
