Effect of foreign exchange rate changes		3,832		(1,170)
<b>Cash and cash equivalents at 31 December</b>		<b>32,987</b>		<b>26,903</b>

# The ETC Local Currency Risk Sharing Special Fund

## Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### A. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. The financial statements have been prepared on a going concern basis.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the policies of the ETC Local Currency Risk Sharing Special Fund (“the Fund”). The areas involving a higher degree of judgement or complexity, or areas where judgements and estimates are significant to the financial statements, are disclosed in “Critical accounting estimates and judgements” within the section for Accounting Policies.

*New and amended IFRS mandatorily effective for the current reporting period*

The following new and amended standards are effective for the current reporting period:

<b>Pronouncement</b>	<b>Nature of change</b>	<b>Impact</b>
Investment entities – amendments to IFRS 10, IFRS 12 and IAS 27	Introduces an exception to consolidating particular subsidiaries for “investment entities”, requiring instead such subsidiaries to be measured at fair value through profit or loss in accordance with IFRS 9 Financial Instruments. New disclosure requirements are also introduced.	Not applicable as the Fund is not an investment entity.
IAS 32 (Amendment) Financial Instruments: Presentation – Offsetting of Financial Assets and Financial Liabilities	Updates the application guidance and basis of conclusions in relation to the offsetting of financial assets and financial liabilities.	Applicable but no changes of presentation required.

*IFRS not yet mandatorily effective but adopted early*

IFRS 9: Financial Instruments is the IASB’s replacement project for IAS 39. The Standard has developed in phases and was completed in July 2014 with a mandatory application date for annual reporting periods beginning on or after January 1, 2018. The Fund adopted the first phase ‘recognition and measurement of financial assets’ in its 2011 financial statements. See the accounting policy for financial assets for more details.

# The ETC Local Currency Risk Sharing Special Fund

*IFRS not yet mandatorily effective and not adopted early*

The following standards are not yet effective and have not been adopted early.

<b>Pronouncement</b>	<b>Nature of change</b>	<b>Potential Impact</b>
IFRS 9 Financial Instruments	Classification and measurement of financial liabilities (October 2010)  Hedge accounting (November 2013)  Impairment methodology and introduction of 'fair value through other comprehensive income' measurement category for financial assets represented by simple debt instruments (July 2014).  IFRS 9 to be adopted in its entirety for annual reporting periods beginning on or after January 1, 2018.	The Fund is yet to assess the potential impact of adopting this standard
Amendments to: IFRS 10: Consolidation Financial Statements and IAS 28: Investments in Associates and Joint Ventures	Provides guidance for the accounting for the loss of control of a subsidiary as a result of a transaction involving an associate or a joint venture that is accounted for using the equity method.  Effective for annual reporting periods beginning on or after 1 January 2016.	The Fund is yet to assess the potential impact of adopting this standard
Amendments to: IFRS 11: Joint Arrangements	Provides guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business. Effective for accounting periods beginning on or after 1 July 2016.	The Fund is yet to assess the potential impact of adopting this standard
IFRS 15: Revenue from Contracts with Customers	Establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.  Effective for annual reporting periods beginning on or after 1 January 2017.	The Fund is yet to assess the potential impact of adopting this standard
Amendments to: IAS 1: Presentation of Financial Statements	Various amendments to improve presentation and disclosure under IAS 1.  Effective for annual reporting periods beginning on or after 1 January 2016.	The Fund is yet to assess the potential impact of adopting this standard
Amendments to: IAS 16: Property, Plant and Equipment and IAS 38: Intangible Assets	Clarification of acceptable methods of depreciation and amortisation  Effective for annual reporting periods beginning on or after 1 January 2016.	The Fund is yet to assess the potential impact of adopting this standard

A number of existing standards were reviewed by the IASB in December 2014 as part of the IFRS annual improvements cycle. It is the Fund's opinion that none of these amendments, effective for accounting periods beginning on or after 1 January 2016, will have a material impact on the Fund's financial statements.

## **B. Significant accounting policies**

### **Financial assets – Classification and measurement**

The Fund early adopted the first instalment of IFRS 9: Financial Instruments, concerning the classification and measurement of financial assets, with effect from 4 April 2011. Pursuant to that adoption, the Fund classifies its financial assets in the following categories: those measured at amortised cost and those

# The ETC Local Currency Risk Sharing Special Fund

measured at fair value. This classification depends on both the contractual characteristics of the assets and the business model adopted for their management.

## *Financial assets at amortised cost*

An investment is classified as ‘amortised cost’ only if both of the following criteria are met: the objective of the Fund’s business model is to hold the asset to collect the contractual cash flow; and the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, interest being consideration for the time value of money and the credit risk associated with the principal amount outstanding.

Investments meeting these criteria are measured initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. They are subsequently measured at amortised cost using the effective interest method less any impairment. The Fund’s financial assets at amortised cost are recognised at settlement date.

## *Financial assets at fair value*

If either of the two criteria above is not met, the debt instrument is classified as ‘fair value through profit or loss’. The Fund does not currently have any such assets in this category.

## **Financial liabilities**

The Fund has not adopted early that part of IFRS 9 which relates to financial liabilities and therefore still applies IAS 39: Financial Instruments.

All financial liabilities are measured at amortised cost, except for financial guarantees which are measured in accordance with IAS 39, as described under “Financial guarantees” below.

## **Contributors’ resources**

The Fund recognises contributions received from the contributors as equity on the basis that, should a contributor choose to withdraw from the Fund, the Fund is not obliged to return such contributions until the residual assets are distributed to the contributors upon the winding up of the Fund.

## **General reserve**

The general reserve represents foreign exchange movements on translation from functional currency to presentational currency.

## **Statement of cash flows**

The statement of cash flows is prepared using the indirect method. Cash and cash equivalents comprise balances with less than three months maturity from the date of the transaction, which are available for use at short notice and that are subject to insignificant risk of changes in value.

## **Foreign currencies**

The functional currency of the Fund is the United States dollar (USD) as this reflects the transactions, events and conditions under which the Fund conducts its business. For financial statement reporting purposes the unit of measurement is the euro (€).

For functional currency reporting, transactions in currencies other than USD are translated into USD at exchange rates ruling at the time of the transaction. All assets and liabilities denominated in currencies other than USD are re-translated into USD at spot rates ruling at 31 December 2014 with the resultant exchange gains or losses taken to the income statement.

For financial statement reporting, income and expenses (excluding exchange gains or losses) are translated from the functional currency to euro using exchange rates ruling at the time of the transaction. Exchange gains or losses are translated from the functional currency to euro at 31 December 2014 using the average exchange rate for the year. Assets and liabilities denominated in the functional currency are re-translated to

# The ETC Local Currency Risk Sharing Special Fund

euro at spot rates ruling at 31 December 2014 with the resultant exchange gains and losses taken to other comprehensive income.

## Contributions

Contributions received in currencies other than euro are translated into euro at the exchange rates ruling at the time of the transaction.

## Financial guarantees

The Fund's resources are used to guarantee the principal losses of loan investments in the European Bank for Reconstruction and Development ("the Bank's") Programme, limited to the resources of the Fund. When a guarantee is issued, its initial fair value reflects the fees charged for such guarantee, assuming an arm's-length commercial transaction. As the Fund does not charge the Bank any fee for its guarantee, its estimated initial fair value is estimated based on the fee that the Fund might otherwise have charged, given the credit risk attaching to the guaranteed portfolio. This initial fair value is recognised as a financial guarantee liability with a corresponding charge to the income statement. Subsequently the guarantee is measured at the higher of the initial fair value less cumulative amortisation or, if appropriate, the expenditure required to settle the commitment at the balance sheet date. When it is probable that the guarantee will need to be settled and the settlement amount can be reliably estimated, a financial guarantee contract is recognised.

## Interest

Interest is recorded on an accruals basis. All interest income is recognised within 'interest and similar income' in the income statement.

## Taxation

In accordance with Article 53 of the Agreement Establishing the Bank ("the AEB"), within the scope of its official activities, the Bank, its assets, property and income are exempt from all direct taxes and all taxes and duties levied upon goods and services acquired or imported, except for those parts of taxes or duties that represent charges for public utility services. As described in note 1, this exemption is extended to the Fund.

## C. Critical accounting estimates and judgements

Preparing financial statements in conformity with IFRS requires the Fund to make estimates and judgements that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts included in the income statement during the reporting period.

The Fund's critical accounting estimates and judgements are as follows:

### *Financial guarantee liability*

The Fund's method for determining the fair value of financial guarantees is described under "Financial guarantees" within the accounting policies section of the report and further explained within credit risk within the risk management section of the report.

# The ETC Local Currency Risk Sharing Special Fund

## Risk management

The Fund was established to support an increase in local currency lending in the Early Transition Countries (“the ETCs”) by providing guarantees on a first-loss basis for the Bank’s Programme.

As the purpose of the Fund is to promote local currency lending in the ETCs rather than to generate a return on its assets, not all financial risks are actively managed by the Fund. Credit risk is jointly managed with the Bank; however the Fund does not hedge against market risk and is hence exposed to interest rate risk and foreign exchange risk.

### Risk governance

The Fund follows the Bank's risk governance procedures as below:

Matters related to Bank-wide risk and associated policies and procedures are considered by the Risk Committee. The Risk Committee is accountable to the President. It oversees all aspects of the Banking portfolio across all sectors and countries, and provides advice on Risk Management policies, measures and controls. It also approves proposals for new products submitted by Banking. The membership comprises senior managers across the Bank including representatives from Risk Management, Finance, Banking and the Office of the General Counsel.

The Risk Committee is chaired by the Vice President Risk and Chief Risk Officer (VP & CRO) who is ultimately responsible for the independent identification, measurement, monitoring and mitigation of all risks incurred by the Bank. The VP & CRO has the overall responsibility for formulating the risk management strategy.

The Managing Director Risk Management reports directly to the VP & CRO and leads the overall management of the Risk Department. The Risk Department provides an independent assessment of risks associated with individual projects investments and loans undertaken by the Bank and performs an ongoing review of the portfolio to monitor the risk presented by projects investments and loans from inception to exit. It develops and maintains the Risk Management policies to facilitate Banking operations and promotes risk awareness across the Bank.

In exercising its responsibilities, Risk Management is guided by its mission to:

- Provide assurance to stakeholders that risk decision-making in the Bank is balanced and within agreed appetite, and that control processes are rigorously designed and applied; and
- Support the Bank’s business strategy including the maximisation of transition impact through provision of efficient and effective delivery of risk management advice, challenge and decision making.

## A. Credit risk

Credit risk is the potential loss to a portfolio that could result from the default of a counterparty or the deterioration of its creditworthiness.

The Fund may also be exposed to concentration risk, which is the risk arising from too high a proportion of the portfolio being allocated to a specific country, industry sector or obligor, or to a particular type of instrument or individual transaction.

The carrying amounts of financial assets presented on the balance sheet, together with the guarantees as shown under memorandum items, best represents the Fund’s maximum exposure to credit risk at 31 December 2014 and 31 December 2013, without taking account of any collateral held or other credit enhancements.

### Credit risk management and measurement

As previously stated, the Fund participates jointly with the Bank in the financing of investments in the Bank’s countries of operations. It therefore benefits from the same governance process employed by the Bank in the measurement and management of credit exposures, which is described below.

# The ETC Local Currency Risk Sharing Special Fund

## *Underlying principles and procedures*

The Board of Directors ("the Board") approves a credit process document that defines the procedures for the approval, management and review of Banking exposures. The Audit Committee periodically reviews the credit process and its review is submitted to the Board for approval.

## *Individual projects*

The Operations Committee, which is chaired by the First Vice President Banking and whose membership comprises senior managers of the Bank, including the VP & CRO and Managing Director Risk Management, reviews all Banking projects prior to their submission for Board approval. A number of frameworks for smaller projects are considered by the Small Business Investment Committee or by senior management under a delegated authority framework supervised by the Operations Committee. The project approval process is designed to ensure compliance with the Bank's criteria for sound banking, transition impact and additionality. It operates within the authority delegated by the Board, via the Executive Committee, to approve projects within Board-approved framework operations. The Operations Committee is also responsible for approving significant changes to existing operations.

Risk Management conducts reviews of all exposures within the Banking portfolio. At each review, Risk Management assesses whether there has been any change in the risk profile of the exposure, recommends actions to mitigate risk and reconfirms or adjusts the risk rating. It also reviews the fair value of equity investments.

## *Portfolio level review*

Risk Management reports on the development of the portfolio as a whole on a quarterly basis to the Audit Committee of the Board. The report includes a summary of key factors affecting the portfolio and provides analysis and commentary on trends within the portfolio and various sub-portfolios. It also includes reporting on compliance with all portfolio risk limits including an explanation of any limit breaches.

## **EBRD internal ratings**

### *Probability of default (PD)*

The Bank assigns its internal risk ratings to all counterparties, including borrowers, investee companies, guarantors and sovereigns in the Banking portfolio. Risk ratings reflect the financial strength of the counterparty as well as consideration of any implicit support, for example from a major shareholder. The sovereign rating takes into consideration the ratings assigned by external rating agencies. For non-sovereign operations, probability of default ratings are normally capped by the sovereign rating, except where the Bank has recourse to a guarantor from outside the country which may have a better rating than the local sovereign rating.

The table below shows the Bank's internal probability of default rating scale from 1.0 (lowest risk) to 8.0 (highest risk) and how this maps to the external ratings of Standard & Poor's (S&P). References to risk rating through this text relate to probability of default ratings unless otherwise specified.

EBRD risk rating category	EBRD risk rating	External rating equivalent	Category name	Broader category
1	1.0	AAA	Excellent	Investment Grade
2	1.7	AA+	Very Strong	
	2.0	AA		
3	2.3/2.5	AA-	Strong	
	2.7	A+		
	3.0	A		
4	3.3	A-	Good	
	3.7	BBB+		
	4.0	BBB		
5	4.3	BBB-	Fair	Risk class 5
	4.7	BB+		
	5.0	BB		
6	5.3	BB-	Weak	Risk class 6
	5.7	B+		
	6.0	B		
7	6.3	B-	Special Attention	Classified
	6.7	CCC+		
	7.0	CCC		
8	7.3	CCC-/CC/C	Expected Loss/Impaired	
	8.0	D		

# The ETC Local Currency Risk Sharing Special Fund

## *Loss given default (LGD)*

The Bank also assigns loss given default ratings on a scale of 0 per cent to 100 per cent determined by the seniority of the instrument in which the Bank invested and the jurisdiction and sector of the transaction.

## **Impaired loss provisioning**

### *Impaired definition*

An asset is designated as impaired when either the borrower is more than 90 days past due on payment to any material creditor, or when the counterparty is considered unlikely to pay its credit obligations in full without recourse by the Bank to actions such as realising security, if held.

### *Provisioning methodology*

A specific provision is raised on all impaired assets accounted for at amortised cost. The provision represents the amount of impairment loss, being the difference between the outstanding amount from the client and the expected recovery amount. The expected recovery amount is equal to the present value of the estimated future cash flows discounted at the loan's original effective interest rate.

## **Credit risk exposures**

### *Placements with credit institutions*

The Fund's placements with credit institutions were classified in internal credit rating risk category 2 (approximately AA+ to AA- in terms of S&P equivalent).

### *Guarantees*

At 31 December 2014, the Bank had outstanding loans amounting to €190.8 million (2013: €131.7 million) under the Programme, for which, in the event of a future default, losses incurred by the Bank may be refunded in part from the resources of the Fund. At 31 December 2014, the Fund's maximum exposure under such guarantees was €32.9 million (2013: €26.9 million).

At 31 December 2014, €0.1 million is currently recognised as a financial guarantee contract as a result of a specific impairment on a Bank loan (2013: nil). The guarantee liability on the balance sheet of €4.4 million (2013: €4.4 million) includes this amount plus the initial fair value of the liability recognised when the guarantees were issued less cumulative amortisation. The Fund does not actively manage credit risk on its guarantee exposure.

## **B. Market risk**

Market risk is the potential loss that could result from adverse market movements. The driver of market risk for the Fund is interest rate risk.

### **Market risk management and measurement**

As discussed at the beginning of the Risk Management section, the Fund does not actively monitor or hedge against market risk.

#### *Interest rate risk*

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The length of time for which the rate of interest is fixed on a financial instrument indicates to what extent it is exposed to interest rate risk.

The Fund's placements are repriced to market interest rates within one month, therefore the exposure to interest rate risk is considered to be minimal.

#### *Foreign exchange risk*

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Fund's net exposure to functional currency foreign exchange risk (euro to USD) is considered to be minimal, as all assets and liabilities are held in USD as at 31 December 2014 and 31 December 2013.

## The ETC Local Currency Risk Sharing Special Fund

Based on the average five year absolute rolling average movement in the USD to euro exchange rate, the potential impact on other comprehensive income due to presentational currency movement, from a 5 per cent strengthening or weakening (2013: 6 per cent) is €1.4 million (2013: €1.3 million).

### C. Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The Fund's Rules and Regulations require that guarantees are financed from the resources of the Fund, which comprise contributions received and investment income. Accordingly, the Fund cannot commit more than the available resources and cannot borrow funds to finance operations. The Fund's guarantees are limited to the resources of the Fund, and contributions received are recognised as equity, which will only be returned to the contributors as part of the residual assets upon termination of the Fund. As a result, the exposure to liquidity risk is considered to be minimal.

# The ETC Local Currency Risk Sharing Special Fund

## Notes to the financial statements

### 1. Creation of the Special Fund

The creation of the Fund was approved by the Board on 15 February 2011 and is administered, *inter alia*, in accordance with the AEB and under the terms of the Rules and Regulations of the Fund. The Fund became operational on 4 April 2011 when the initial aggregate resources of the Fund equalled €10 million. An amendment to the Rules and Regulations was approved by the Board on 9 May 2012 to change the denomination of the Fund from euro to the United States dollar.

The Fund's principal office is located in London at One Exchange Square, EC2A 2JN.

The Fund was established in accordance with Article 18 of the AEB. The Fund is not part of the ordinary capital resources of the Bank, but any privileges and immunities available to the Bank are extended to the Fund.

### 2. President's responsibilities

The President is responsible for preparing the financial statements in accordance with IFRS issued by the IASB.

### 3. Financial guarantees movement

	2014	2013
	€ 000	€ 000
Amortisation of day one fair value	(649)	(604)
Charge for estimated settlement of impaired guaranteed loans	121	-
<b>Financial guarantees movement</b>	<b>(528)</b>	<b>(604)</b>

### 4. Other operating expenses

Other operating expenses comprise of administrative costs directly related to the Fund and include fees payable to the Bank for operating the Fund, calculated in accordance with the Rules and Regulations.

### 5. Contributions

	2014	2013
	€ 000	€ 000
<b>Cumulative contributions received</b>		
EBRD Shareholder Special Fund	22,334	20,100
Finland	155	155
Germany	78	78

Japan	568	568
Korea	117	117
Luxembourg	62	62
Netherlands	1,168	1,168
Norway	312	312
Spain	310	310
Sweden	210	210
Switzerland	1,736	1,736
Taiwan ICDF	108	108
United Kingdom	605	605
United States of America	3,747	3,747
<b>Total contributions at 31 December</b>	<b>31,581</b>	<b>29,347</b>

# The ETC Local Currency Risk Sharing Special Fund

## 6. Financial guarantee liability

	2014	2013
	€ 000	€ 000
Unamortised balance of day one fair value	4,251	4,372
Estimated settlement of impaired guaranteed loans	127	-
<b>At 31 December</b>	<b>4,378</b>	<b>4,372</b>

## 7. Analysis of current and non-current assets and liabilities

All assets and liabilities in the balance sheet are classified as current for both 2014 and 2013.

## 8. Fair value of financial assets and liabilities

The carrying amounts of financial assets and liabilities presented on the balance sheet approximate to their fair value.

## 9. Events after the reporting period

There have been no material post-reporting date events that would require disclosure or adjustment to these financial statements.

## 10. Related parties

The Fund's related parties are the Bank and contributors.

The Bank is entitled to charge the Fund a management fee of an amount equal to 2 per cent of contributions received, taking into account the amount of any management fees paid to the Bank previously for contributions transferred from existing funds managed and administered by the Bank. During the period a management fee of €23,000 (2013: €50,000) was charged by the Bank to the Fund. At 31 December 2014 there was no accrued management fee payable by the Fund to the Bank (2013: nil). External auditor's remuneration of €7,200 (2013: €6,500) is payable by the Bank from the management fee. In 2014 the Bank approved an extension of the term of appointment from four years to five with a maximum of two consecutive terms. Deloitte LLP (UK) completes its first four-year term in 2014 and has been re-appointed for the five year period 2015 - 2019.

Guarantees issued by the Fund to the Bank are disclosed under credit risk exposures.

Contributions received from the contributors are outlined in note 5.

# **INDEPENDENT AUDITOR'S REPORT TO THE GOVERNORS OF THE EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT ("THE BANK")**

## **Report on the financial statements**

We have audited the financial statements of the ETC Local Currency Risk Sharing Special Fund ("the Fund") for the year ended 31 December 2014 which comprise the income statement, the statement of comprehensive income, the balance sheet, the statement of changes in contributors' resources, the statement of cash flows for the year then ended together with the accounting policies, the risk management statement and the related notes 1 to 10. The financial reporting framework that has been applied in their preparation is the International Financial Reporting Standards as issued by the International Accounting Standards Board.

## **President's responsibility for the financial statements**

The President is responsible for the preparation and fair presentation of the Financial Statements in accordance with the International Financial Reporting Standards issued by the International Accounting Standards Board, and for such internal control as the President determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's responsibility**

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion the Financial Statements present fairly, in all material respects, the financial position of the ETC Local Currency Risk Sharing Special Fund as at 31 December 2014 and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

## **Other reporting responsibilities**

We also report to you if, in our opinion, the Financial Statements are not in agreement with the accounting records, if the proper accounting records have not been kept, or if we have not received all the information and explanations we require for our audit. We have nothing to report in connection with these matters.

## **Other matters**

This report, including the opinion, has been prepared for, and only for, the Bank in accordance with Article 24 of the Agreement Establishing the Bank dated 29 May 1990, and for the use of the contributors and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this Report is shown or into whose hands it may come, save where expressly agreed by our prior consent in writing.
