Responses to Clarification Questions
Egypt Women in Business Technical Cooperation Programme
Eselection: 71501
28/11/2017

1. Can you confirm if the scope is focusing on only assessing the organization capability or it’s also about the people/employees capabilities? If later, what are the measurements of employees’ capabilities?

At this stage of reviewing expressions of interests, we would like firms to provide their previous project experience of dealing with similar projects in the past. More details and terms of reference of the assignment will be available to shortlisted firms.

2. We have noted that some key expert profiles are in singular form, such as Team Leader, or Senior Women in Business Financing Expert, while others are in the plural form: key expert 4: senior banking experts and key expert 3: Senior Communications and Marketing Manager(s). Does this mean that more than one profile should be proposed for these positions? And if so, how many?

At this stage of reviewing expressions of interest, we would like to screen the profile of the key experts that firms will make available for the assignment. However, we leave the precise composition to the firm.

3. We are interested in sending submitting our requirements for this project however we would like to see more details regarding the pilot programme that was launched 2015. Is there a link or information that can be provided to see what the model contained and outcomes?

We generally provide additional details to shortlisted firms.

4. We would like to submit our interest for this Programme and would like to confirm with you if there is a specific form or format to present our expertise.

The consultants are required to follow the instructions under submission requirements.

5. Can you clarify what it is meant under the cost estimate heading “EUR 2,000,000 (exclusive of VAT) for both Programmes?”

EUR 2,000,000 is the value for the entire assignment in Egypt.

6. Can an American NGO apply either as a sub-applicant or as a lead applicant?

There are no eligibility restrictions, firms and non-profit organizations from any jurisdiction can apply for the tender.
