The Borrower/the Grant Recipient, if different from the Client, intends to make available to the Client a portion of the funds and/or the Client will use the funds for eligible payments under the Contract for which this Prequalification Document is issued.

- 3.3 The Bank may declare any contract subsequently awarded to be ineligible for financing, and the Bank may take any of the Enforcement Actions and Disclosure Actions set out in the Enforcement Policy and Procedures, if in accordance with the Enforcement Policy and Procedures the Bank determines that:
- (a) the Borrower/the Grant Recipient (including beneficiaries of Bank's loans or grants administered by the Bank), Participants, suppliers, sub-suppliers, contractors, sub-contractors, concessionaires, consultants, or sub-consultants have engaged in Prohibited Practices with respect to the procurement, award, or execution of the Contract.

- 3.5 In contracts financed by the Bank, the Bank requires a provision mandating Participants, suppliers, sub-suppliers, contractors, sub-contractors, concessionaires, consultants, and sub-consultants to permit the Bank or persons appointed by the Bank to inspect the Site and/or to inspect their assets, books, accounts and records relating to the Contract and to have such assets, books, accounts and records audited by auditors appointed by the Bank if required by the Bank.

The Participants, suppliers, sub-suppliers, contractors, sub-contractors, concessionaires, consultants, and sub-consultants shall require their officers, directors, employees or agents with knowledge of the Contract to respond to questions from the Bank and to provide to the Bank any information or documents necessary for (i) the investigation of allegations of Prohibited Practices, or (ii) the Bank's monitoring and evaluation of the Contract and to enable the Bank to examine and address any project-related complaints made under the Bank's Project Complaint Mechanism.

The Participants, suppliers, sub-suppliers, contractors, sub-

contractors, concessionaires, consultants, and sub-consultants shall maintain all books, documents and records related to the Contract in accordance with applicable law but in any case for at least six years from the date of substantial performance of the Contract

- 3.6 Prohibited Practices and other terms in this provision have the meaning as defined in the Enforcement Policy and Procedures or in the Prequalification Document.

The applicable version of the Enforcement Policy and Procedures is specified in the DS.

4 Eligible Participants

- 4.1 A Participant may be a natural person, private entity, government-owned entity or any combination of such entities in the form of a Joint Venture, Consortium, or Association joint venture, consortium, or association (JVCA).

In the case of a JVCA:

- (a) unless otherwise specified in the DS, the application shall be signed by all JVCA partners; and
 - (b) the JVCA shall nominate a Representative (the Lead Partner) who shall have the authority to conduct all businesses for and on behalf of any and all the partners of the JVCA during the Prequalification process.
- 4.2 Unless stated otherwise in the DS, subject to the conditions specified in the ITP 4.3 to 4.8 below, a Participant from any country may apply for Prequalification.

A Participant shall be deemed to have the nationality of a country if the Participant is a citizen of, or is constituted, incorporated or registered in and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed subcontractors or suppliers for any part of the Contract.

- 4.3 A Participant shall not have a conflict of interest. All Participants found to have a conflict of interest shall be disqualified. A Participant may be considered to have a conflict of interest with one or more parties in this Prequalification process, if:
- (a) they have controlling partners in common; or
 - (b) they receive or have received any direct or indirect subsidy from any of them; or
 - (c) they have the same legal representative for purposes of this prequalification; or
 - (d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the prequalification of another Participant, or influence the decisions of the Client regarding this Prequalification process; or
 - (e) a Participant, its affiliates or parent organisation has participated in the feasibility or design stages of the Project. In which case that Participant, its affiliates or parent organisation shall not be eligible to participate in a prequalification for contracts involving the supply of goods, works or services, including architectural or engineering services, for the Project, unless it can be demonstrated that such participation would not

constitute a conflict of interest. Such determination must be made prior to the submission of a prequalification application; or

- (f) a Participant, its affiliates or parent organisation has participated as a consultant in the preparation of Section VI, Requirements, which is the subject of the prequalification; or
- (g) a Participant, its affiliates or parent organisation has been hired, or is proposed to be hired, by the Client or the Borrower/the Grant Recipient for the supervision of the Contract.

- 4.4 Notwithstanding the provisions of ITP 4.3 above, a firm may apply for prequalification both individually and as part of a JVCA.

However, a firm or a member of a JVCA, if prequalified, may participate as a tenderer in only one tender for the Contract, either individually or as a partner in a JVCA. Submission or participation by a tenderer in more than one tender for the Contract will result in the disqualification of all tenders for that Contract in which the party is involved. However, this does not limit the inclusion of the same subcontractors in more than one application.

Notwithstanding the above, a subcontractor is not deemed to be participating in a prequalification or a follow up tender.

- 4.5 A Participant shall be disqualified if the Participant is under a declaration of ineligibility by the Bank in accordance with ITP 3, at the date of the deadline for application submission or thereafter.
- 4.6 No affiliate of the Borrower/the Grant Recipient, or the Client, or of a procurement agent engaged by the Client, shall be eligible to participate in a prequalification in any capacity whatsoever unless it can be demonstrated that there is not a significant degree of common ownership, influence or control amongst the Borrower/the Grant Recipient, the Client or the Client's agent and affiliate.
- 4.7 Participants shall provide such evidence of their eligibility satisfactory to the Client, as the Client may reasonably request.
- 4.8 Firms or individuals shall be excluded from participation in a procurement process or resulting contract award, if:
- (a) it has been convicted of an intentional crime, or an affiliate of the firm has been convicted of an intentional crime, and any such criminal conviction is final in the relevant national jurisdiction, with no more than ten years having lapsed between the date on which the criminal conviction became final and the date of eligible assessment, and the Bank concludes that the judicial proceedings provided for adequate due process acceptable to the Bank;
 - (b) it is prohibited under relevant national law from entering into commercial relations with the Client, provided the prohibition relates to a Prohibited Practice, which had been determined through judicial or administrative proceedings with adequate due process acceptable to the Bank;
 - (c) any import of goods from the Participant's country or any payments to persons or entities in that country are prohibited

by sanctions imposed by a resolution of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations.

-
- | | | | |
|----------|--|-----|--|
| 5 | Cost of participation in Prequalification | 5.1 | The Participant shall bear all costs associated with the preparation and submission of its application, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the Prequalification process. |
| 6 | Language of Prequalification | 6.1 | <p>The applications, as well as all correspondence and documents relating to the Prequalification exchanged by the Participant and the Client, shall be written in the language specified in the DS.</p> <p>Supporting documents and printed literature that are part of the application may be in another language provided they are accompanied by an accurate translation of the relevant passages in that language, in which case, for purposes of interpretation of the application, such translation shall govern.</p> |

The Client shall neither be liable nor be under any obligation to inform

the Participants of the grounds for such action.

- 24.3 At the time of submitting their tenders, prequalified Participants shall update the relevant information used at Prequalification to confirm that they continue to comply with the qualification criteria. A tenderer may be disqualified at the time of the Contract award if it no longer meets the qualification requirements or if the tenderer, who was conditionally prequalified, is unable to meet the conditions specified in accordance with ITP 23.3.
- 24.4 The formation of a new JVCA after Prequalification, any change in a prequalified JVCA or prequalification of any individual partners of a dissolved prequalified JVCA shall be subject to the written approval of the Client prior to the deadline stated in the tender document. Such approval may be denied if:
- (a) partners withdraw from a JVCA and the remaining partners do not meet the qualifying requirements;

The Client should specify in the Data Sheet information and requirements specific to the circumstances of the Client, the Contract, the processing of the Prequalification and subsequent tender process and the applicable rules regarding the evaluation of qualification that will apply to the applicants.

In preparing Section II, Data Sheet, the following aspects should be checked:

- (a) information that specifies and complements provisions of Section I, Instructions to Participants, must be incorporated;*
- (b) amendments, if any, to the provisions of Section I, Instructions to Participants, as necessitated by the circumstances of the specific procurement, must also be incorporated and emphasised.*

Where applications are being invited for a number of contracts, suitable wording should be introduced, to allow applicants to apply for individual contracts or groups of contracts.

Boxed guidance notes and provisions in italics font are illustrative provisions containing instructions and guidance which the drafter should follow. They are not part of the text, and should not be included in the final Prequalification Document.

All reference numbers provided in this Section shall be construed as reference numbers in Section I, Instructions to Participants.

Section III: Evaluation Methodology

To be prequalified for tendering for the contract (lots), the Participant must demonstrate to the Client that it substantially satisfies the requirements of the Prequalification and meets all eligibility criteria, stated in ITP 4, as well as the qualification criteria specified hereafter as well as in the Tables in Section IV, Eligibility and Qualification Criteria:

When the prequalification refers to more than one contract and the goods to be supplied are to be tendered on a 'slice and package' basis, specific criteria should be established for every lot, any combination of lots, and for the whole package. Participants should be classified in accordance with their capacities and qualification, in respect of the lots they can be contracted for or the whole package.

EXAMPLE:

The quantitative criteria mentioned below shall be set in the Tables in Section IV, Eligibility and Qualification Criteria, only.

Financial Situation

The submitted annual financial statements for the required period must demonstrate the soundness of the Participant's financial position, showing long term profitability. Consistent losses or a risk of insolvency shown in the accounts may be cause for the disqualification of the Participant.

The monetary values in the Forms shall be expressed in equivalent of **[specify the currency]**.

The values in other currencies than the defined currency should be recalculated into the above stated currency, based on the exchange rate as set by **[state the bank, relevant to the currency]** on the 1st of July of each year reported.

The values of the projected assets, unencumbered real assets, planned lines of credit, and other financial means, as well as liabilities and commitments for the period of the expected contract implementation, shall be recalculated into the above stated currency, using the exchange rate as of the date of publication of the Invitation for Prequalification.

The required period for provision of the financial information is normally three to five years.

The required amount in respect of turnover should normally be not less than 2.5 times the estimated annual cash flow in the proposed contract (based on a straight line projection). The coefficient may be smaller for very large (in excess of EUR 100 million equivalent) or very small contracts (EUR 5 million equivalent or less), but not less than 1.5, and should take into consideration special country circumstances.

The Participant shall demonstrate that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means sufficient to meet the construction cash flow for the contract for a stated period of months, taking into account the Participant's commitments under other contracts.

The required amount shall be calculated on the estimated cash flow for the contract for a number of months, taking into account the expected payment terms under the contract.

The calculations should be based on a straight line projection of the estimated cash flow requirement, neglecting the effect of any advance payments and retention monies.

The Participant shall have the above mentioned financial resources free of ongoing obligations and/or pending contract awards, for which the Participant shall provide information.

The Client may reject the application if the level of the confirmed commitments to be carried out in parallel with the Contract exceeds the Participant's annual turnover for the previous year by a factor of *[insert the figure]*.

The factor shall normally be 2, but in any case not less than 1.5

Where necessary, the Client may make inquiries with the Participant's banks.

Experience

The Participant shall meet the minimum criteria for general, management and specific experience/for goods supply for the set period of time.

The required period is normally three to five years.

Normally at least two contracts of comparable magnitude shall be considered. The individual value of such contracts should be not less than 60 percent of the estimated cost of the Contract. However, the criterion shall be more rigorous in projects requiring considerable specialized experience.

The similarity shall be based on the key construction activities for the Contract, or the nature of the goods to be supplied under the Contract.

In respect of specific services the list may include highly specialized services, if they are critical for the contract implementation.

Non-Performance History

A consistent history of litigation and/or arbitration awards against the Participant or any partner of a JVCA or their non-performance under the contracts may result in failure of the application.

Moreover, if a Participant, following the judicial proceedings provided for adequate due process, is formally debarred from contracting activities by the law or official regulation of the Client's country or by the Bank, and the Client may not enter into a contract with such Participant, the Client may reject the application.

This determination shall be based solely on fully settled disputes or litigation. A fully settled dispute or litigation is one that has been resolved in accordance with the dispute resolution mechanism under the respective contract, and where all appeal instances available to the Participant have been exhausted.

The considered period is normally three to five years.

The criterion for rejection should not be the number of reported litigations, but the proportion of arbitral awards or court decisions against the Participant. Normally the application may be rejected, should the ratio of the arbitral or court decisions against the applicant or an individual member of a JVCA exceed 25 per cent of all reported litigations.

Furthermore, it is reasonable to set the critical limit for the amount of pending litigations, as they may represent a potential indirect risk for the Client. Therefore, the Client may request that all pending litigations shall in total not represent more than 25 percent of the Participant's net worth.

An application should be rejected only if the Participant demonstrates a consistent history of non-performance under its contracts.

Specific Requirements with regard to JVCA

JVCAs must satisfy the following minimum qualification requirements:

- (a) the JVCA must satisfy collectively all the qualification criteria, for which purpose the relevant figures for each of the partners shall be added to arrive at the JVCA's total capacity;
- (b) each partner of JVCA shall fully satisfy the requirements with regard to the soundness of the financial position and non-performance history. They also shall individually meet the share/percentage of certain qualifying criteria, as stated in Section IV, Eligibility and Qualification Tables.

Taking into account joint and several liabilities of the partners in a JVCA, each partner of a JVCA shall meet not less than 30 percent of the qualifying criteria with regard to Participant's turnover and financial position. The Client may increase the above mentioned percentage. Moreover, the Client may establish higher requirements with regard to the Lead Partner of a JVCA.

The Lead Partner of the JVCA usually is expected to demonstrate that he acted as a main contractor on project(s) of similar magnitude.

The prequalification of a JVCA does not mean that any of its partners individually, or as a partner in any other JVCA, are prequalified.

Subcontractors/Sub-suppliers

In case, where the Participants plan to use specific suppliers and/or subcontractors for major and/or specialized items or services/works, the Participants shall specify the names and qualifications of such specialist subcontractors.

These services/works or supplies are those in excess of **[insert percentage]** percent of the estimated value of the Contract and/or any of the specific operations and services/works.

The percentage shall normally be not less than 10 per cent.

To be prequalified for tendering for the Contract, the Participants must demonstrate to the Client that the suppliers and subcontractors proposed by them for the above mentioned services/works substantially satisfy the following requirements:

- the Participant's subcontractors shall have successful experience in the execution of at least **[insert the number]** contracts of a nature, complexity and magnitude comparable to the services/works/supply proposed for subcontracting within the last **[insert the number]** years;
- shall have sufficient capabilities with respect to personnel, equipment, and supply or construction;
- shall have sound financial position, showing long term profitability.

The required period is normally three to five years.

Normally at least two contracts of comparable nature, complexity and magnitude shall be considered.

Should a subcontractor be determined to be unqualified or otherwise unacceptable, the application shall not be rejected, but the Participant shall be required to substitute the proposed subcontractor with an acceptable one.

Conditional prequalification

A Participant may be prequalified conditionally, if he fails to meet some of the criteria that may be corrected in future before tender submission. Such criteria may include:

- (a) composition of JVCA and/or JVCA agreement content;
- (b) critical project management;
- (c) availability of experts in specialized fields;
- (d) access to specialized equipment;
- (e) engagement of specialist subcontractors (suppliers); or
- (f) a bank commitment to provide securities and/or line of credit in the event the Participant's tender is successful.

The Participant may also be requested to provide additional critical information, or clarification with regard to the Participant's questionable ability to undertake the Contract due to the significant current commitments or the pending award of other significant contracts.

In case of conditional prequalification, the Participant shall be prequalified, subject to certain requirements, specified by the Client, being met by him prior to **[state the deadline]**.

Normally the deadline is set to be the deadline for submission of tenders, or the date of issuance of an invitation for tenders

Environmental, Social, Health and Safety (ESHS)

The Participant shall meet the criteria for ESHS.

Manufacturing Capacity

The Participant shall demonstrate that he or his manufacturer/supplier has the manufacturing capacity to produce the required goods during the planned Contract implementation period, taking into account the Participant's commitments in other contracts.

The Participant may also list alternative arrangements which he would propose to use for the Contract, together with an explanation of the proposal.

The criterion should be set at a level that ensures that the installed manufacturing capacity and the free (of the ongoing orders) capacity of the manufacturers are sufficient to meet the expected volume of supply during the expected time period.

Supplier's personnel availability is optional. This criterion shall normally be used at a qualification phase during the tendering stage, when all essential details of the contract, effecting response to this criterion, are better known.

If necessary, the same considerations may be taken in respect of the financial position in respect of pending litigations, meeting the contract cash flow requirements, effect of the current obligations and pending awards.

Supplier's Personnel Capabilities

The Participant shall provide suitably qualified personnel to the positions listed in Section IV, Eligibility and Qualification Tables.

For each position Participants shall supply information in the relevant form on a main candidate and an alternate, each of whom should meet the experience requirements specified in the respective Table.
