

**UK MiFIR product governance / professional investors and ECPs target market only** - Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of “retained EU law”, as defined in the European Union (Withdrawal) Act 2018 (“EUWA”) (“UK MiFIR”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

For the purposes of this provision, the expression “**manufacturer**” means the Dealer.

European Bank for Reconstruction and Development (the “**Issuer**”) does not fall under the scope of application of UK MiFIR. Consequently, the Issuer does not qualify as an “investment firm”, “manufacturer” or “distributor” for the purposes of UK MiFIR.

41 Additional Information:

**An investment in the Notes is subject to the risks described below, as well as the risks described under “Risk Factors” in the Offering Circular**

An investment in the Notes is subject to the risks described below, as well as the risks described under “Risk Factors” in the Offering Circular. The Notes are a riskier investment than ordinary fixed rate notes or floating rate notes. Investors should carefully consider whether the Notes are suited to their particular circumstances. Accordingly, prospective investors should consult their financial and legal advisers as to the risks entailed by an investment in the Notes and the suitability of the Notes in light of their particular circumstances.

**Suitability of investment**

An investment in the Notes is only suitable for investors who have the requisite knowledge and experience in financial and business matters to evaluate the information contained in the Offering Circular and this Pricing Supplement, who have made their own independent decision to invest in the Notes and as to whether the Notes are appropriate for them, and who are capable of bearing the economic risk of an investment in the Notes.

Historical performance of the Inflation Index is not indicative of future performance

The future performance of the Inflation Index cannot be predicted based on its historical performance. The Issuer

cannot guarantee the level of the Inflation Index on any of the Determination Dates.

The Rate of Interest on the Notes may not reflect the actual levels of inflation affecting investors.

The Inflation Index is just one measure of inflation and may not reflect the actual levels of inflation affecting investors. Accordingly, an investment in the Notes may not fully offset any inflation actually experienced by investors.

**The language set out under the heading “Use of Proceeds” in the Offering Circular shall be replaced for these Notes by the following:**

The net proceeds of the issuance of the Notes will be used towards the Issuer’s environmental projects in accordance with and subject to the following provisions:

An amount equivalent to the net proceeds of the Notes will be allocated within the Issuer’s Treasury liquidity pool to a portfolio that is separately monitored by the Issuer. So long as any of the Notes are outstanding, if the overall balance of such portfolio exceeds the overall amount of the Issuer’s Green Transition Project Portfolio (as defined below), the remaining balance may only be invested by the Issuer in certificates of deposits, commercial paper, bank deposits, repurchase transactions or other money-market instruments, as determined by the Issuer.

The “**Green Transition Project Portfolio**” shall mean, as determined by the Issuer, the sum of all loans and investments that are funded in whole or in part by the Issuer and in respect of which the amount disbursed or invested is directed at, as determined by the Issuer, green transition through financing or refinancing projects that are intended to enable significant improvements towards decarbonisation and/or improved resource efficiency in key sectors of the economy. While a minimum of 50 per cent of the loan or investment must be specifically designated to ensuring the green transition of the asset or project, the requirement to ensure improved climate governance of the related organisation or company in consistency with the transition objectives allows the entire amount of any such EBRD’s loans to be included in the Green Transition Portfolio.

Examples of projects in the Green Transition Portfolio include, without limitation, financings of:

- Investments in decarbonisation and resource

efficiency including circular economy products in manufacturing, which may include:

- chemical production
- cement production
- steel production
- Investments in food production which may include:
  - Improving resource efficiency in agribusiness
  - Promoting sustainable land use
- Investments in activities that enable green transition, which may include:
  - electricity grids
  - supply chains
  - low carbon transport (including infrastructure)
  - green logistics
  - ICT solutions
- Investments in construction and renovation of buildings

The above examples are illustrative only and no assurance can be provided that investments in projects with these specific characteristics will be made.

## Annex A

### Calculation of Rate of Interest and Fallback Provisions

#### 1. RATE OF INTEREST

The Rate of Interest shall be calculated by the Calculation Agent on the relevant Determination Date, in accordance with the following formula:

$$0.1\% * \frac{CPI}{CPI_0}$$

Where:

“CPI<sub>0</sub>” means 273.31229032; and

“CPI” means, in respect of each Interest Payment Date, Maturity Date or Early Redemption Date as applicable, an amount calculated by the Calculation Agent in accordance with the following formula:

$$CPI_3 + \left(\frac{d-1}{D}\right) * [CPI_2 - CPI_3]$$

Where,

“CPI<sub>3</sub>” means the Inflation Index level for the month that is the 3rd calendar month preceding the month in which the relevant Interest Payment Date, Maturity Date or Early Redemption Date as applicable, falls.

“CPI<sub>2</sub>” means the Inflation Index level for the month that is the 2nd calendar month preceding the month in which the relevant Interest Payment Date, Maturity Date or Early Redemption Date as applicable, falls.

“d” is the day of the month on which the relevant Interest Payment Date, Maturity Date or Early Redemption Date as applicable, falls. For the avoidance of doubt, d = 18 unless an Early Redemption Date is determined.

“D” is the total number of calendar days of the month in which the relevant Interest Payment Date, Maturity Date or Early Redemption Date as applicable falls.

“Inflation Index” means the USA – Non-revised Consumer Price Index – Urban (CPI-U), unrevised, as published by the US Bureau of Labor Statistics (the “Index Sponsor”, including any successor thereto) and available on Bloomberg Ticker CPURNSA Index, or any successor index, page or service.

#### 2. FALLBACK PROVISIONS

All payments in respect of the Notes shall be subject to the provisions below.

##### Index Level Adjustment Correction:

Subject to “Manifest Error in Publication” below, the first publication or announcement of the level of the Inflation Index (disregarding estimates) by the Index Sponsor for any relevant month for the purposes of calculating an Interest Amount, Final Redemption Amount or Early Redemption Amount as applicable (the “Relevant Month”) shall be final and conclusive and later revisions to the level of the Inflation Index for such Relevant Month will not be used in any calculations.

##### Delay of Publication:

If a level of the Inflation Index for a Relevant Month (a “Relevant Level”) has not been published or announced by the relevant Determination Date, the Calculation Agent shall determine a Substitute Index Level (in place of such Relevant Level) by using the following methodology:

“**Substitute Index Level**” means, in respect of the relevant Interest Payment Date, Maturity Date or Early Redemption Date as applicable, the Inflation Index level, determined by the Calculation Agent using the following methodology:

Substitute Index Level = Base Level x (Latest Level / Reference Level)

*Where:*

"**Base Level**" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"**Latest Level**" means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated.

"**Reference Level**" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above.

If a Relevant Level is published or announced at any time after a relevant Determination Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this section, will be the definitive level for that Relevant Month.

**Cessation of Publication:**

If, on a Determination Date, a level for the Inflation Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Calculation Agent shall determine, in a commercially reasonable manner, a Successor Index (in lieu of any previously applicable Inflation Index) by using the following methodology:

- i. If a notice has been given or an announcement has been made by an Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable index, such replacement index shall be the Inflation Index (a “**Successor Index**”) for purposes of the Notes from the date that such replacement index comes into effect.
- ii. If a Successor Index has not been determined under (i) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will determine an appropriate alternative index for such Interest Payment Date, Maturity Date or Early Redemption Date as applicable, and such index will be deemed a "Successor Index".
- iii. If the Calculation Agent determines there is no appropriate alternative index, the Calculation Agent, acting in a commercially reasonable manner and in its sole discretion, will determine an alternative index for such Interest Payment Date, Maturity Date or Early Redemption Date as applicable, and such index will be deemed a "Successor Index".

“**Successor Index**” shall have the meaning specified and determined in accordance with the methodology set forth above.

**Rebasing of the Inflation Index:**

If the Calculation Agent determines, that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the “**Rebased Inflation Index**”) will be used for purposes of determining the level of such Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

**Material Modification of the Inflation Index:**

If, on or prior to a Determination Date, the Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

**Manifest Error in Publication:**

If, within thirty days of publication and prior to any relevant Interest Payment Date or other relevant specified payment date in relation to the Notes, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will notify the Issuer and the Agent of the correction and the adjusted amount and shall take such other action as it may deem necessary to give effect to such correction. The Agent shall as soon as practicable after such notification by the Calculation Agent (but in no event later than one (1) Business Day after receipt of the aforementioned notice from the Calculation Agent) notify the Noteholders (in accordance with Condition 13) of (i) that correction and (ii) the adjusted amount that is then payable under the Notes as a result of that correction; provided that any amount payable pursuant to the correction shall be paid (with no interest accruing thereon) (a) as an adjustment to the payment obligation on the next scheduled Interest Payment Date, Maturity Date or Early Redemption Date as applicable, or (b) if there is no further scheduled Interest Payment Date, Maturity Date or Early Redemption Date as applicable, no amount will be payable pursuant to the correction.
