ANNEX

Calculation of Fixed Interest Amount, Early Redemption Amount and Final Redemption Amount

The Early Redemption Amount and Final Redemption Amount (as applicable) per Specified Denomination will be payable in JPY on the Early Redemption Date (if any) or on the Maturity Date (as applicable and subject to the disruption event provisions below) and determined by the Calculation Agent as follows, as soon as possible on or after the corresponding Rate Fixing Date (but in no event later than the Business Day immediately following the Rate Fixing Date):

Specified Denomination x the Reference Rate,

Provided that, such resultant amount shall be rounded to the nearest whole JPY (with JPY0.5 being rounded up).

The Fixed Interest Amount per Specified Denomination will be payable in JPY on the Fixed Interest Date (subject to the disruption event provisions below) and determined by the Calculation Agent as follows, as soon as possible on or after the corresponding Rate Fixing Date (but in no event later than the Business Day immediately following the Rate Fixing Date):

In case of the Fixed Interest Amount:

IDR 1,720,000 x Reference Rate

Provided that, such resultant amount shall be rounded to the nearest whole JPY (with JPY0.5 being rounded up).

As soon as reasonably practicable on or after the corresponding Rate Fixing Date (but in no event later than the Business Day immediately following the Rate Fixing Date), the Calculation Agent shall notify the Agent of the Reference Rate.

The Calculation Agent shall notify the Issuer, the Agent and the Noteholders of its determination of the Final Redemption Amount, the Early Redemption Amount (if any) and the Fixed Interest Amount payable per Specified Denomination on the Maturity Date, the Early Redemption Date (if any) or the relevant Fixed Interest Date (as applicable), as soon as reasonably practicable after such determination (but in no event later than the Business Day immediately following the relevant Rate Fixing Date).

If the USD/IDR Reference Rate is not available for any reason on Reuters page "IDR JISDOR (IDR04)" or on any successor page on any Rate Fixing Date in respect of the Fixed Interest Date, the Maturity Date or the Early Redemption Date (if any) as applicable, then the Calculation Agent shall determine that a price source disruption event (a "Price Source Disruption Event") has occurred, and shall promptly inform the Issuer and Agent of such occurrence. Following the determination of the occurrence of a Price Source Disruption Event, Noteholders will not be entitled to any amounts in respect of the Notes until the earlier to occur of (i) the day falling five Business Days after the day on which the Issuer is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists and (ii) the Postponed Fixed Interest Date (as defined below), the Postponed Early Redemption Date (if any) (as defined below) or the Postponed Maturity Date (as defined below), as applicable.

If on the 10th Business Day following the original Rate Fixing Date Reuters page IDR JISDOR (IDR04) (or successor page) is still unavailable then the USD/IDR Reference Rate shall be the arithmetic mean of such firm quotes (expressed as the number of IDR per one USD) from four Reference Dealers as the Calculation Agent is able to obtain for the sale of IDR and the purchase of USD at or about 10:30 a.m. (Jakarta time) on the Rate Fixing Date for settlement two Jakarta Business Days thereafter, provided, however that if fewer than four (but at least two) Reference Dealers provide such firm quotes then the arithmetic mean of the quotes actually obtained shall apply, and if none or only one of the Reference Dealers provides such a firm quote, the USD/IDR Reference Rate will be determined by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner.

The Calculation Agent shall notify the Issuer, the Agent and the Noteholders of its determination of USD/IDR Reference Rate as soon as reasonably practicable after such determination.

If the USD/JPY Reference Rate is not available for any reason on Reuters Screen Page "JPNU" (or successor page) or Reuters Screen Page "JPNU" is not available on the relevant Rate Fixing Date, then USD/JPY Reference Rate shall be determined by the Calculation Agent as follows:

The Calculation Agent will request five leading reference banks (selected by the Calculation Agent at its sole discretion, acting in a commercially reasonable manner) in the Tokyo interbank market for their mid market quotations of the USD/JPY spot exchange rate at approximately 12:00 p.m. Tokyo time on such date. The highest and the lowest of such quotations will be disregarded and the arithmetic mean of the remaining three quotations will be USD/JPY Reference Rate.

If only four quotations are so provided, then USD/JPY Reference Rate shall be the arithmetic mean of such quotations without regard to the highest and lowest values quoted. If fewer than four quotations but at least two quotations can be obtained then USD/JPY Reference Rate shall be the arithmetic mean of the quotations actually obtained by the Calculation Agent.

If only one quotation is available, in that event, the Calculation Agent will determine that such quotation shall be USD/JPY Reference Rate, and if no such quotation is available or if the Calculation Agent determines in its sole discretion that no suitable reference bank who is prepared to quote is available, USD/JPY Reference Rate shall be determined by the Calculation Agent in good faith, acting in a commercially reasonable manner.

The Calculation Agent shall notify the Issuer, the Agent and the Noteholders of its determination of USD/JPY Reference Rate as soon as reasonably practicable after such determination.
