

UK MiFIR product governance / Professional investors and ECPs target market:

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

For the purposes of this provision, the expression "**manufacturer**" means the Dealer.

European Bank for Reconstruction and Development (the "**Issuer**") does not fall under the scope of application of UK MiFIR. Consequently, the Issuer does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of UK MiFIR.

- (i) Investment considerations: Russian Rouble Exchange Risk
- The Notes are denominated in Russian Rouble. Currency exchange rates may be volatile and, in certain circumstances, may affect the return to the holder of the Notes. The Government of the Russian Federation can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes in U.S. Dollars, as well as the actual yield (in U.S. Dollar terms) on the Notes and the amount payable at maturity. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in the Russian Federation or elsewhere could lead to significant and sudden changes in the exchange rate between the Russian Rouble and the U.S. Dollar.
- Notes are Not Liquid Instruments
- There may exist at times only limited markets for the Notes resulting in low or non-existent volumes of trading in the Notes and such obligations, and therefore a lack of liquidity and price volatility of the Notes and such obligations.

Annex

Calculation of Early Redemption Amount per Specified Denomination and Redemption Amount per Specified Denomination

The Final Redemption Amount per Specified Denomination or the Early Redemption Amount per Specified Denomination will be payable in USD on the Maturity Date or the Early Redemption Date as applicable, and determined by the Calculation Agent as follows, on the corresponding Rate Fixing Date:

Specified Denomination x (1/Reference Rate on the applicable Rate Fixing Date) rounded to the nearest cent with USD 0.005 being rounded up

The Calculation Agent shall notify the Issuer, the Agent and the Noteholders of its determination of the Final Redemption Amount per Specified Denomination and the Early Redemption Amount per Specified Denomination as soon as practicable after such determination (but in no event later than one (1) Business Day prior to the Early Redemption Date or Maturity Date (as applicable)).

If the Reference Rate is not available for any reason on www.moex.com/en/fixing/, or on any successor website or page, as the MOEX FX Fixing at 12:35 p.m. Moscow time on any Rate Fixing Date, then the Calculation Agent shall determine that a Price Source Disruption Event (a “**Price Source Disruption Event**”) has occurred, and shall promptly inform the Issuer and Agent (who shall in turn inform the Noteholders) of such occurrence. If on the tenth (10th) Business Day following the original Rate Fixing Date the Reference Rate as published on www.moex.com/en/fixing/, or on any successor website or page, as the MOEX FX Fixing at 12:35 p.m. Moscow time is still unavailable then the Reference Rate shall be the average of such firm quotes (expressed as the number of RUB per one USD) from three (3) Reference Dealers (as defined below) as the Calculation Agent is able to obtain for the sale of RUB and the purchase of USD at or about 12.35p.m., Moscow time on the applicable Rate Fixing Date for settlement two (2) Moscow Business Days thereafter, provided, however, that if fewer than three (3) (but at least two (2)) Reference Dealers provide such firm quotes then the average of the quotes actually obtained shall apply.

If none, or only one, of the Reference Dealers provides such a firm quote the Calculation Agent will determine the Reference Rate in good faith and in a commercially reasonable manner.
