ANNEX

Calculation of Early Redemption Amount and Final Redemption Amount

The Early Redemption Amount or the Final Redemption Amount, as applicable, per Specified Denomination will be payable in USD on the Early Redemption Date (if any) or the Maturity Date, as applicable, and determined and/or calculated by the Calculation Agent as follows, on the corresponding Valuation Date:

In the case of the Early Redemption Amount:

Early Redemption Amount per Specified Denomination *divided by* the Reference Rate.

In the case of the Final Redemption Amount:

100 per cent. of the Specified Denomination *divided by* the Reference Rate.

Provided that, in each case, the resultant amount shall be rounded to the nearest whole USD (with USD 0.5 being rounded up).

The Calculation Agent shall notify the Issuer, the Agent and the Noteholders of its determination and/or calculation of the Final Redemption Amount and the Early Redemption Amount (if any) payable per Specified Denomination on the Maturity Date and the Early Redemption Date (as applicable) as soon as reasonably practicable after such determination (but in no event later than the Business Day immediately following the relevant Valuation Date).

If the Reference Rate is not available for any reason on the web page of the National Bank of Ukraine or on any successor page, the Calculation Agent shall determine that a price source disruption event (a "**Price Source Disruption Event**") has occurred and shall promptly inform the Issuer, the Agent and the Noteholders of such occurrence.

Following the determination of the occurrence of a Price Source Disruption Event, Noteholders will not be entitled to any amounts in respect of the Notes until the earlier to occur of:

- (i) the day falling five (5) Business Days after the day on which the Issuer is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists; and
- (ii) the Postponed Maturity Date or the Postponed Early Redemption Date, as the case may be.

If on the tenth Business Day following the determination of the occurrence of a Price Source Disruption Event, the Reference Rate is still unavailable, then the Reference Rate shall be the average of such firm quotes (expressed as the number of UAH per USD 100) from Reference Dealers as the Calculation Agent is able to obtain for the sale of UAH and the purchase of USD at or about 1:00 p.m., Kiev time on the next immediately following Business Day for settlement on the same day, provided, however, that if fewer than four, but at least two, Reference Dealers provide such firm quotes, then the average of the quotes actually obtained shall apply. If none, or only one, of the Reference Dealers provides such a firm quote, the Calculation Agent will determine the Reference Rate (or a method for determining the Reference Rate) in good faith and in a commercially reasonable manner.

For the purposes of these provisions:

"Business Day" means any day, other than Saturday or Sunday, on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London, New York and Kiev;
