

MiFID II product governance / Professional investors and ECPs only target market:

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

For the purposes of this provision, the expression "manufacturer" means the Dealer.

European Bank for Reconstruction and Development (the "Issuer") does not fall under the scope of application of MiFID II. Consequently, the Issuer does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of MiFID II.

37 Investment Considerations:

Ukrainian Hryvnia Exchange Risk

The Final Redemption Amount, Early Redemption Amount (if applicable) and the Interest Amount on the Notes are linked to Ukrainian Hryvnia. Currency exchange rates may be volatile and will affect the return to the holder of the Notes. The Government of Ukraine can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes in U.S. Dollars, as well as the actual yield (in U.S. Dollar terms) on the Notes and the amounts payable on the Notes. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Ukraine or elsewhere could lead to significant and sudden changes in the exchange rate between the Ukrainian Hryvnia and the U.S. Dollar.

Notes are Not Liquid Instruments

There may exist at times only limited markets for the Notes resulting in low or non-existent volumes of trading in the Notes, and therefore a lack of liquidity and price volatility of the Notes.

38 Total Commissions: Not Applicable
