exchange rates may be volatile and will affect the return to the holder of the Notes. The Central Bank of the Republic of Armenia can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes in U.S. Dollars, as well as the actual yield (in U.S. Dollar terms) on the Notes and the amounts payable on the Notes. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in the Republic of Armenia or elsewhere could lead to significant and sudden changes in the exchange rate between the Armenian Dram and the U.S. Dollar.

Notes are not liquid Instruments

There may exist at times only limited markets for the Notes resulting in low or non-existent volumes of trading in the Notes and such obligations, and therefore a lack of liquidity and price volatility of the Notes and such obligations.

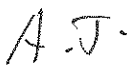

39 Total Commissions: Not Applicable

Annex A

Price Source Disruption Event

The Final Redemption Amount or the Early Redemption Amount, as applicable, per Calculation Amount will be payable in USD on the Maturity Date or Early Redemption Date, as applicable, and determined by the Calculation Agent as follows, on the corresponding Exchange Reference Rate Fixing Date:

Calculation Amount in AMD divided by the Exchange Reference Rate on the applicable Exchange Reference Rate Fixing Date, and rounded up to the nearest cent.

The Calculation Amount in AMD is AMD 482,740, which is calculated as the Calculation Amount of USD 1,000 multiplied by 482.74, which is a USD/AMD exchange rate set 2 Business Days prior to the Issue Date.

The Interest Amount per Calculation Amount will be determined by the Calculation Agent in accordance with the provisions of Annex B.

The Calculation Agent shall notify the Issuer and the Agent (who will in turn inform the Noteholders) of its determination of the Final Redemption Amount, the Early Redemption Amount and Interest Amount payable per Calculation Amount on the Maturity Date, Early Redemption Date or relevant Interest Payment Date (as applicable), as soon as practicable after such determination (but in no event later than the Business Day immediately following the relevant Exchange Reference Rate Fixing Date).

If the Exchange Reference Rate is not available for any reason under the designated source or on any successor page on any Exchange Reference Rate Fixing Date, then the Calculation Agent shall determine that a Price Source Disruption Event (a "Price Source Disruption Event") has occurred, and shall promptly, but in no event later than on the originally scheduled Exchange Reference Rate Fixing Date, inform the Issuer, the Agent (who will in turn inform the Noteholders) of such occurrence. Following the determination of the occurrence of a Price Source Disruption Event, Noteholders will not be entitled to any amounts in respect of the Notes until the earlier to occur of:

- (i) the day falling two Business Days after the day on which the Issuer is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists; and
- (ii) the Postponed Interest Payment Date, Postponed Early Redemption Date or the Postponed Maturity Date, as the case may be.

If on the tenth Business Day following the determination of the occurrence of a Price Source Disruption Event, the Exchange Reference Rate is still unavailable then the U.S. Dollar/Armenian Dram exchange rate (the "USD/AMD Rate") shall be the arithmetic mean of such firm quotes (expressed as the number of AMD per one USD) from the Reference Dealers as the Calculation Agent is able to obtain for the sale of AMD and the purchase of USD at or about 4.15 p.m. (Yerevan time) on the applicable Exchange Reference Rate Fixing Date for settlement on the next Yerevan Business Day, provided however, that if fewer than four (but at least two) Reference Dealers provide such firm quotes then USD/AMD Rate shall be the arithmetic mean of the quotes actually obtained. If only one of the Reference Dealers provides such a firm quote, such quote should be applied. If none of the Reference Dealers provides such a firm quote, the relevant USD/AMD Rate shall be determined by the Calculation Agent in its discretion, acting in good faith and in a commercially reasonable manner.

For the purposes of this Annex A and Annex B:

"AMD" means Armenian Dram, the lawful currency of the Republic of Armenia.

"Business Day" means, in relation to any place, any day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in that place, or if no such place is specified, any day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle

“Exchange Reference Rate Fixing Date” means the date which is two Business Days prior to each of the applicable Interest Payment Date, Early Redemption Date or Maturity Date. If a Price Source Disruption Event occurs or otherwise subsists on such day, the Exchange Reference Rate Fixing Date shall be the earlier of:

(i) the Business Day on which the Issuer is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists; and

(ii) the tenth Business Day following the original Exchange Reference Rate Fixing Date;

“Postponed Early Redemption Date” means the tenth Business Day following the Early Redemption Date (if any);

Annex B
Additional Terms Relating to the Interest Amount Determination

Interest Amount

Interest will be calculated in accordance with the formula set out below, per Calculation Amount in AMD, provided however, that the Interest Amounts per Calculation Amount will, subject to the provisions of Annex A, be paid on each Interest Payment Date in USD converted from AMD at the applicable Exchange Reference Rate, and rounded up to the nearest cent.

As soon as possible on or after the corresponding Interest Determination Date (but in no event later than the Business Day immediately following the Interest Determination Date), the Calculation Agent shall notify the Agent and the Issuer of the Exchange Reference Rate.

The Interest Amount is calculated as follows:

$$\text{Max} \{ ([D \times RI \times N] / 365); 0 \}$$

Where:

D Calculation Amount in AMD;

RI 6-month AMD T-Bill-CBA (expressed as a percentage) minus 0.65 per cent; and

N The actual number of days in the respective Calculation Period calculated from and including the first day of such period (being the Issue Date or the previous Interest Payment Date as applicable) to but excluding the next Interest Payment Date or the Maturity Date, as applicable.

For the purposes of these provisions:

“6 month AMD T-Bill-CBA” means the rate per annum for a period of 6 months (“180 day”), which appears on the T-Bill-CBA Screen Page as of 11:00 a.m., Yerevan time on an Interest Determination Date.

In case the 6-month AMD T-Bill-CBA is not available for any reason on the T-Bill-CBA Screen Page on an Interest Determination Date in respect of a Calculation Period, the rate for such Calculation Period shall be:

(i) The lower of:

(a) the percentage rate per annum that is the arithmetic mean (rounded upwards to two decimal places) of the mid-rates calculated by the Calculation Agent from the bid and offer rates per annum quoted by at least two Reference Banks at the request of the Calculation Agent, (calculated on Actual/365 basis) in relation to the sale and purchase of Armenian Government bonds with maturities of 6 months, and in an amount equal to a Representative Amount, at which each Reference Bank is willing to enter into transactions between 1:00 pm and 2:00 pm, Yerevan time on the relevant Interest Determination Date, provided that, if three or more such quotations are provided, the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest) will be disregarded in calculating the arithmetic mean. If one and two of such quotations are provided the arithmetic mean of such quotations will be calculated. The Calculation Agent will inform the Issuer, the Agent and the Noteholders of the bid and offer rates per annum quoted by the Reference Banks; and

(b) the Lombard Repo Rate,

or if it is not possible to determine the rate of interest in accordance with the above paragraph (i),

(ii) the rate for the next Calculation Period shall be determined by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner.

“Lombard Repo Rate” is the target interest rate set by the Central Bank of Armenia which appears on the T-Bill-CBA Screen Page as of 1 p.m., Yerevan time on the Interest Determination Date.

“Reference Banks” means five leading banks of good credit standing that are active in the Armenian Government bond market selected by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner.

“Representative Amount” means an amount that is equal to the Nominal Amount of the Notes.

“T-Bill-CBA Screen Page” means,

- (i) in respect of the 6 month AMD T-Bill-CBA, the display page designated: <https://www.cba.am/en/sitepages/fmofinancialmarkets.aspx> on the website of the Central Bank of Armenia (the “CBA”) (in the Excel file “Yield Curve (Daily)”, under “Yield Curve for Bills”, for the Term designated “180 day”); and
- (ii) in respect of the Lombard Repo Rate, the display page designated: <https://www.cba.am/EN/SitePages/fmompiinterestrates.aspx> on the website of the CBA under “MP Instruments Interest Rates”.

In respect of either of the above, if such page on such service designated for the purpose of displaying the relevant rate, or if such service ceases to be available or the relevant rate ceases to be available on such service, the successor page on such service or, as the case may be, the page that displays the relevant rates on another service as specified by the Calculation Agent will be applicable.
