

MiFID II product governance / Retail investors, professional investors and ECPs target market –

Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, “**MiFID II**”); and (ii) all channels for distribution of the Notes are appropriate, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

For the purposes of this provision, the expression “**manufacturer**” means the Dealer.

European Bank for Reconstruction and Development (the “**Issuer**”) does not fall under the scope of application of MiFID II. Consequently, the Issuer does not qualify as an “investment firm”, “manufacturer” or “distributor” for the purposes of MiFID II.

Not Applicable
- 36 Additional Information: The language set out under the heading “Use of Proceeds” in the Offering Circular shall be replaced for these Notes by the following:
- The proceeds of the issuance of the Notes which is expected to be EUR 86,890,400 will be used towards the Issuer’s environmental projects in accordance with and subject to the following provisions:
- An amount equivalent to the net proceeds of the Notes will be allocated within the Issuer’s Treasury liquidity pool to a portfolio that is separately monitored by the Issuer. So long as any of the Notes are outstanding, if the overall balance of such portfolio exceeds the overall amount of the Issuer’s Green Project Portfolio (as defined below), the remaining balance may only be invested by the Issuer in certificates of deposits, commercial paper, bank deposits, repurchase transactions or other money-market instruments, as determined by the Issuer.
- “**Green Project Portfolio**” means, as determined by the Issuer, the sum of all loans and investments that are funded, in whole or in part, by the Issuer and in respect of which the entire or substantially the entire amount disbursed or invested is directed at, as determined by the Issuer, any of the following areas: energy efficiency, renewable energy, water management, waste management, air pollution prevention and sustainable transport. Examples of projects in the Green Portfolio include, without limitation, financings of:
- Renewable energy projects such as:
 - a) photovoltaic installations, and production

- of photovoltaic cells/modules;
 - b) installation of wind turbines;
 - c) construction of small hydro power plants and mini-hydro cascades; and
 - d) geothermal and biomass energy facilities,
- Rehabilitation of transmission/distribution facilities to reduce total greenhouse gas (“GHG”) emissions and allow for increased integration of renewable electricity in the grid, e.g. smart distribution networks;
 - Modernisation of industrial installations to reduce total GHG emissions and other pollution;
 - New technologies that result in significant reductions in GHG emissions;
 - Greater efficiency in mass transportation, such as investment in fuel-efficiency (fleet replacement) or more energy efficient infrastructure;
 - Methane capture on waste landfills and wastewater treatment plants;
 - Rehabilitation of municipal water/wastewater infrastructure to improve drinking water quality and wastewater treatment and reduce water consumption and wastewater discharges;
 - Improvements to solid waste management (minimalisation, collection, recovery, treatment, recycling, storage and disposal);
 - Energy efficiency investments in existing buildings (insulation, lighting, heating/cooling systems);
 - Investments to improve efficiency of industrial water use;
 - Sustainable and stress-resilient agriculture, including investments in water-efficient irrigation; and
 - Sustainable forest management, reforestation, watershed management, and the prevention of deforestation and soil erosion.

The above examples are illustrative only and no assurance can be provided that investments in projects with these specific characteristics will be made.
