

MiFID II product governance / Professional investors and ECPs only target market:

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

For the purposes of this provision, the expression "manufacturer" means the Dealer.

European Bank for Reconstruction and Development (the "Issuer") does not fall under the scope of application of MiFID II. Consequently, the Issuer does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of MiFID II.

Lebanese Pound (“LBP”) Exchange Risk

The Final Redemption Amount, the Early Redemption Amount (if applicable) and the Interest Amounts on the Notes are linked to the Lebanese Pound. Currency exchange rates may be volatile and will affect the return to the holder of the Notes. The Government of Lebanon can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes in the United States Dollars, as well as the actual yield (in the United States Dollar terms) on the Notes and the amounts payable on the Notes. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Lebanon or elsewhere could lead to significant and sudden changes in the exchange rate between the Lebanese Pound and the United States Dollar.

Notes are Not Liquid Instruments

There may exist at times only limited markets for the Notes resulting in low or non-existent volumes of trading in the Notes, and therefore a lack of liquidity and price volatility of the Notes.

37 Total Commissions:

The Interest Amount per Calculation Amount will be payable in USD on the corresponding Fixed Interest Date and will be calculated by the Calculation Agent as follows, on the corresponding FX Fixing Date, rounded up to the nearest cent:

(the Reference LBP Amount multiplied by the Fixed Rate of Interest multiplied by the Fixed Day Count Fraction) divided by the FX Reference Rate.

The Calculation Agent shall notify the Issuer and the Agent (who will in turn inform the Noteholders) of its determination of the relevant FX Reference Rate as soon as practicable after such determination on the relevant FX Fixing Date. If the Reuters Exchange Rate is not available for any reason on the Reuters page 'LBN CBFIX' (or any successor page) at the specified time on an FX Fixing Date, the Calculation Agent shall immediately inform the Issuer of such an occurrence.

The Calculation Agent shall notify the Issuer and the Agent (who will in turn inform the Noteholders) of its determination of the Final Redemption Amount, the Early Redemption Amount and the Interest Amount payable per Calculation Amount on the Maturity Date, the Early Redemption Date or the relevant Fixed Interest Date (as applicable), as soon as practicable after such determination on the relevant FX Fixing Date.
