

ANNUAL PROCUREMENT REVIEW

2013

**Prepared by
The Procurement Department
April 2013**

European Bank
for Reconstruction and Development

Executive summary

This report, prepared by the Procurement Department (PD), reviews public sector procurement contracts signed in 2013, funded and/or administered by the Bank and procured by the Bank's clients. A separate section (2.10) covers the procurement activities of the Nuclear Safety Department (NSD).

A total of 269 (excluding NSD contracts) contracts were signed by the Bank's clients in 2013. The total value of these contracts amounted to €1.270 billion for which EBRD's own financing totalled €878 million. In comparison with 2012, this represented a substantial increase in terms of the number of signed contracts (by 30 per cent) whilst maintaining the same level of the total contract value.

Co-financed contracts in EU member countries represented 36 per cent of the total number of co-financed contracts and 45 per cent of the total value of all co-financed contracts. Out of the 56 contracts signed in EU countries 45 were co-financed with EU cohesion funds.

Public sector contracts awarded through open tendering represent 98 per cent of the number of contracts and 99 per cent of the total contract value when consultancy services contracts and alternative procurement procedures are excluded for which the Bank's open tender procedures do not apply.

In 2013, the average contract value was €4.7 million and the average EBRD financing was €3.3 million per contract.

The largest contract was the "Supply of electric multiple units for Serbian Railways". This goods contract was signed with a value of €9 million (fully financed by EBRD).

On average, 3.9 tenders were submitted when open tendering procedures were applied.

Entities from the following five countries were most successful in terms of highest total contract value, regardless of procurement method: Romania (€189 million), Germany (€155 million), Morocco (€122 million), Spain (€121 million) and Poland (€109 million), which together won a total of €696 million or 55 per cent of the total contract value.

Out of the overall 880 tenders that were submitted, which is a significant increase compared with 2012 (615), 77 per cent were submitted by tenderers from countries of operations. Entities from EBRD's countries of operations won 225 contracts (84 per cent of all contracts) with a total value of €738 million (58 per cent of the total contract value).

The data shows that cross-border tendering is at a very high level (36 per cent) and 30 per cent of all contracts were won by firms competing in another country.

As expected there is a slight increase in the number of contracts procured using alternative procurement procedures. This is predominantly due to increased procurement activities under the RC2F project in Romania co-financed with the EU cohesion funds.

The number of procurement complaints received by the Bank decreased significantly from 23 to 13.

Annual Procurement Review 2013

1. Introduction

This report, prepared by the Procurement Department (PD), reviews public sector procurement contracts signed in 2013, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA in 2013. A separate section (2.10) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts financed under public sector financing. It does not cover consultancy contracts for the Bank's own needs, those financed through Technical Cooperation (TC) funds, those awarded by the Office of the General Counsel (OGC), or contracts for goods and services for the Bank's own needs. Information on these contracts are provided in the reports on *Engagement of Consultants by the EBRD* issued by the Technical Cooperation Team (formerly the Consultancy Services Unit), and in the *Annual Corporate Procurement Review*, issued by the Corporate Procurement Unit (CPU). It should be noted that consultancy contracts in this report are also reported in the Engagement of Consultants by the EBRD report.

Annexes 1 to 11 of the *Annual Procurement Review 2013* contain the statistical data for these public sector procurement contracts during 2013. The analysis of this data, as well as the main procurement activities of the PD (section 4), can be found in the main body of this report (with the exception of Annex 11). Sections 1-3 of this report (not section 4) as well as the annexes will be published on the Bank's website.

Notes on Annex 11

Not included in the analysis of this report are contracts signed in 2013 which were entered into the CRA system after the data was frozen for the purposes of the production of this Annual Procurement Review.

2. Analysis of public sector procurement data

2.1 Volume and nature of contracts

A total of 269 contracts (excluding NSD contracts) were signed by the Bank's clients in 2013. The total value of these contracts amounted to €1.270 billion for which EBRD's own financing totalled €878 million (see Annex 1 for the listing of contracts by country of operations). In comparison with 2012, this represented an increase in terms of the number of signed contracts (by 30 per cent) and a decrease of the total signed contract value (of 0.5 per cent).

Table 2.1.1a illustrates the number of public sector contracts signed between 2009 and 2013.

2.1.1a

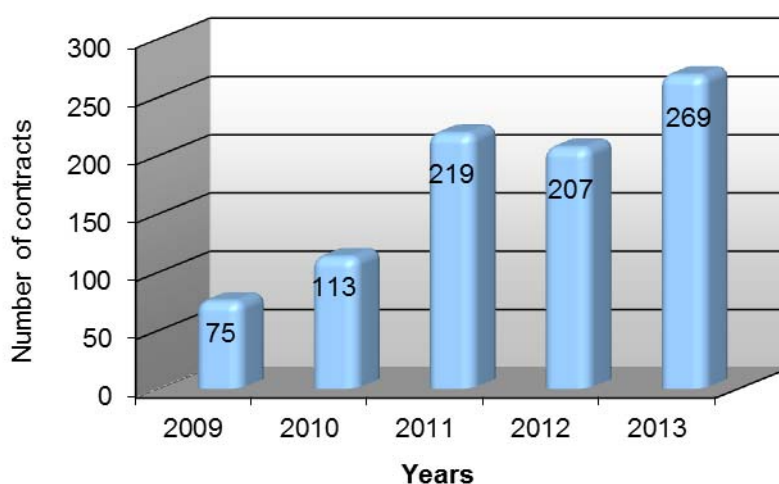

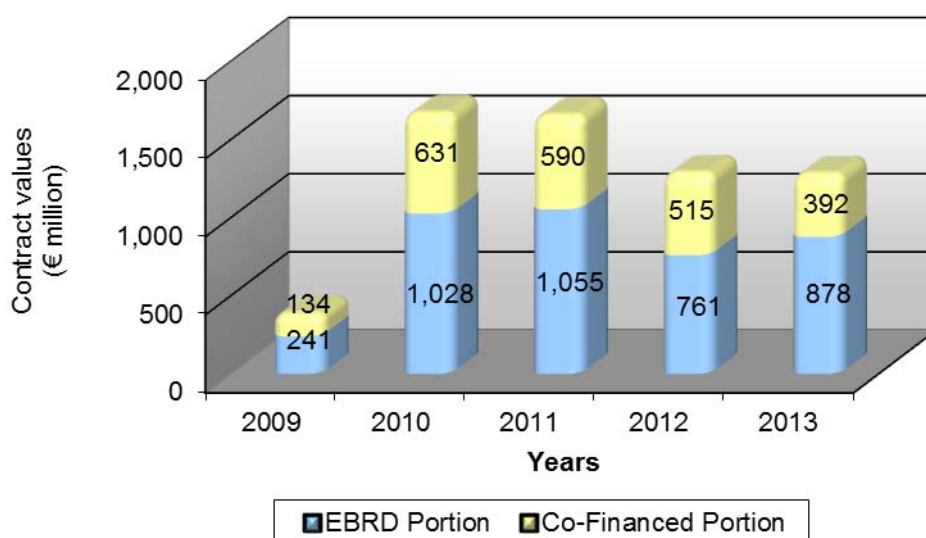

Table 2.1.1b demonstrates the overall contract value as well as the portion financed by the EBRD between 2009-2013. Over the past five years, a total of 884 contracts have been signed with a total value of €6.225 billion of which the EBRD financed €3.963 billion.

2.1.1b

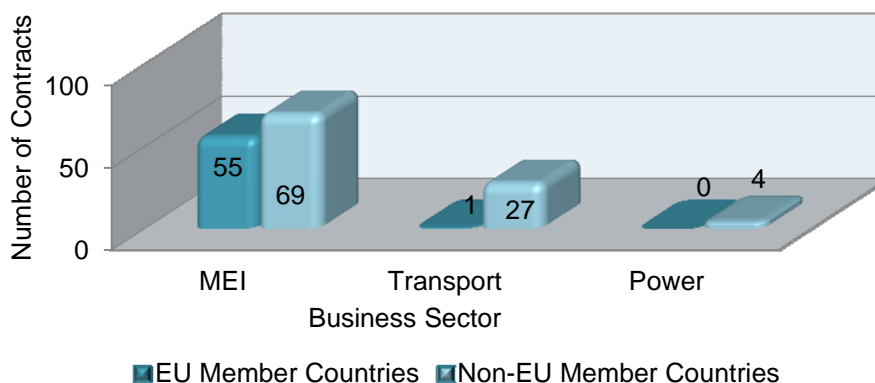

Co-Financing

The EBRD financed €78 million of the total contract value €1.270 billion in 2013. The balance of €392 million was provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves. In comparison with 2012, a 31 per cent decrease of the total value provided by other sources can be noted. In 2013, 156 of the 269 contracts (58 per cent) were co-financed in comparison with 128 out of the 207 contracts (62 per cent) in 2012. The value of the 156 co-financed contracts amounted to €602 million and the EBRD's portion of those contracts represented €210 million.

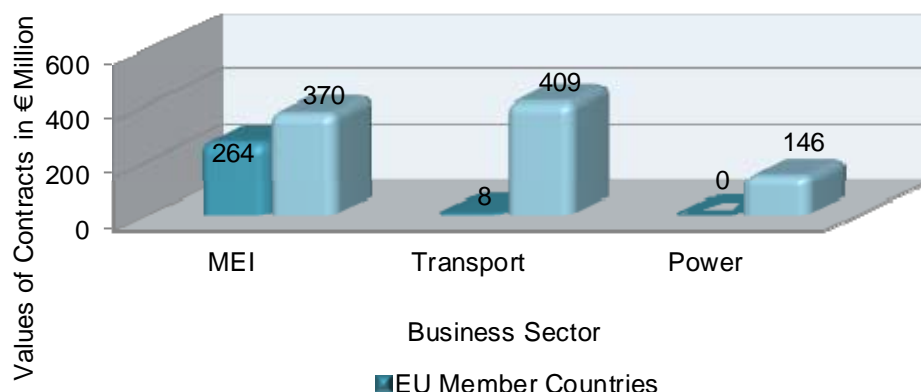

Table 2.1.2a and table 2.1.2b presents the distribution of the 156 co-financed contracts in EU member countries and non-EU member countries by number and by value. Co-financed contracts in EU member countries represented 36 per cent of the total number of co-financed contracts and 45 per cent of the total value of all co-financed contracts. The sector with the highest co-financed contractual activity in terms of number of contracts was the MEI sector with 124 contracts, i.e. 79 per cent of all co-financed contracts, representing €370 million. In the MEI sector, 69 out of 124 co-financed contracts were signed in non-EU member countries. Out of the 56 contracts signed in EU countries 45 are co-financed with EU cohesion funds. The highest overall co-financed contract value was in the MEI sector (€370 million, representing 61 per cent of the total co-financed contract value).

Table 2.1.2 Distribution of co-financed public sector contracts during 2013

2.1.2a

2.1.2b

Overall analysis

In 2013, the average contract value was €4.7 million and the average EBRD financing was €3.3 million per contract. The latter represented a decrease of 11 per cent compared to the average EBRD financing reported in 2012, where the EBRD financing averaged €3.7 million per contract. There were 24 contracts in which the total signed contract value was greater than €10 million, 14 of which had a total signed contract value of more than €20 million. In 2013, there were 18 contracts in which EBRD financing was greater than €10 million, 17 of which had EBRD financing of more than €13 million. The largest contract was the “Supply of electric multiple units for Serbian Railways”. This goods contract was signed with a value of €9 million (fully financed by EBRD).

In total 19, investment grant financed contracts were administered by the Bank following the Bank’s PP&R (in some cases with eligibility restrictions in accordance with funding agreements), representing a value of €20 million. Out of these contracts 10 were co-financed with EBRD.

Also included in this report are three contracts worth €12.3 million, which were 100 per cent financed by sources other than EBRD loans or EBRD administered grants. These awards followed the application of the Bank’s PP&R and were administered by the EBRD in line with the respective implementation agreements.

2.2 Analysis by sector

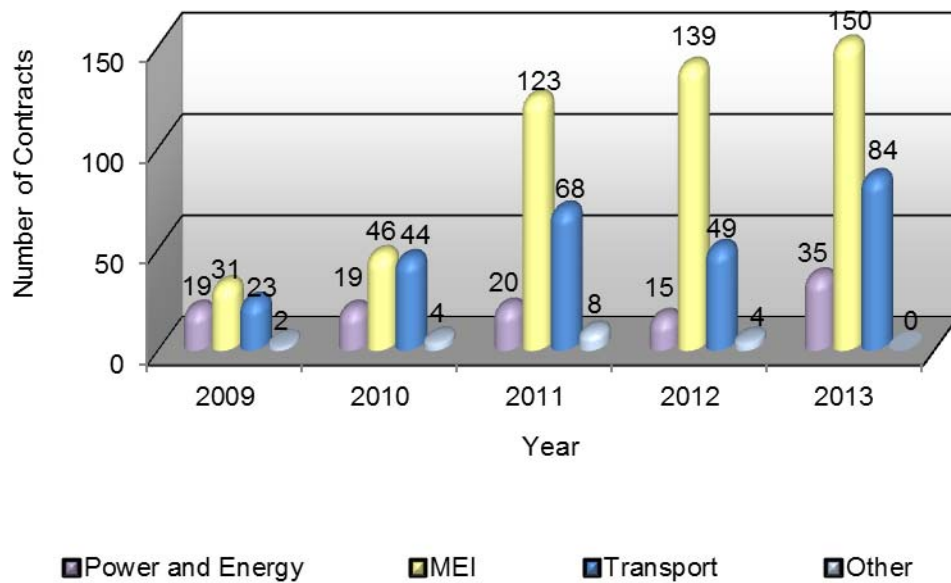

In 2013, the sector with the highest public sector contractual activity was the MEI sector, with 56 per cent of the total number of contracts and 39% of the overall total contract value.

Cumulative 2009-2013 data overview

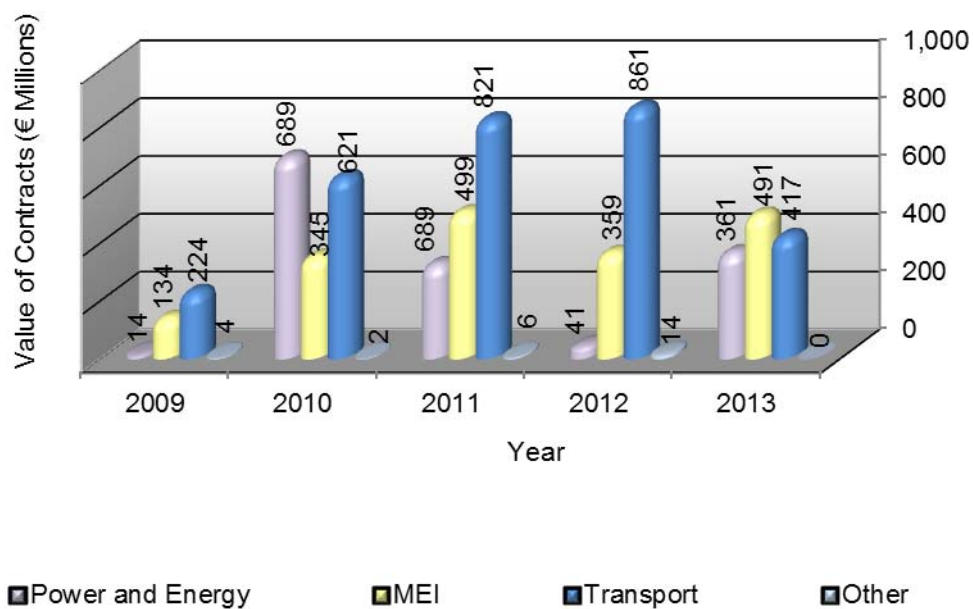

Tables 2.2.1a and 2.2.1b illustrate the overall contract value and the number of public sector contracts signed between 2009 and 2013 by business sector. With a total number of 489 contracts worth €1.828 billion, the MEI sector had the highest contractual activity in terms of number and the Transport team in terms of value (€2.944 billion) over the past five years.

Table 2.2.1 Annual number and value of public sector contract awards by business sector (2009-2013)

2.2.1a - Public Sector Contracts (number)

2.2.1b - Public Sector Contracts (Value €)

2.3 Analysis by country of operations

2013 analysis

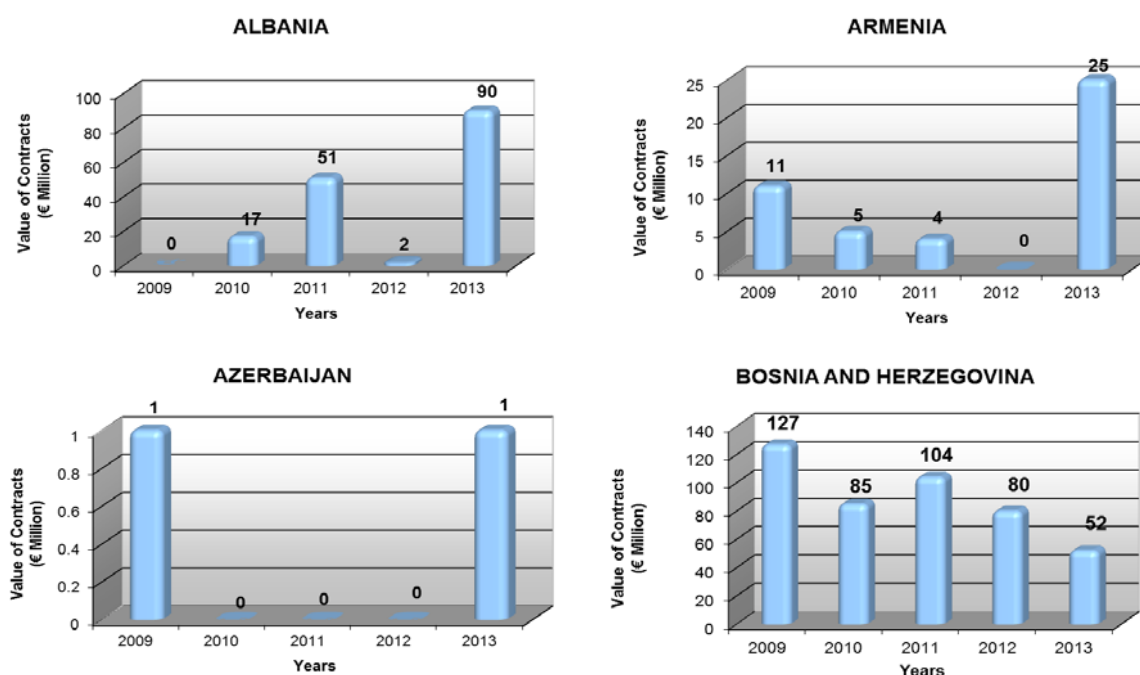

Public sector contracting activities were spread across 20 countries of operation. The five countries with the highest contractual activity in terms of number of contracts signed were Romania (46), the Russian Federation (31), Moldova (27), Albania (24) and Serbia (22). These 150 contracts represent 56 per cent of all contracts signed.

The five countries with the highest contractual activity in terms of value were Serbia (€285 million), Romania (€206 million), Ukraine (€134 million), Morocco (€122 million) and Kazakhstan (€108 million). With a total signed value of €855 million, these contracts represent 67 per cent of the total signed contract value in 2013.

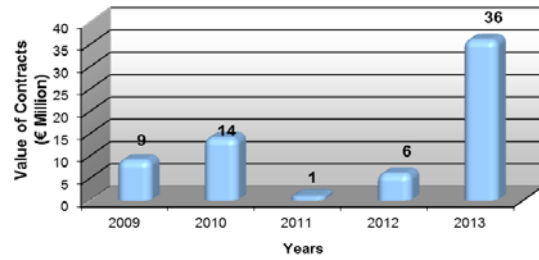

Cumulative 2009-2013 data overview

Table 2.3.1 illustrates the distribution of contracts signed between 2009 and 2013 in the countries of operation by contract value. During the past five years, the countries with the highest total value of contracts were, in descending order: Ukraine (€1.051 billion), Kazakhstan (€719 million), Romania (€694 million), the Russian Federation (€517 million) and Bosnia and Herzegovina (€467 million). The contracts in these five countries totalled €3.448 billion which represented 58 per cent of the overall total contract value of the past five years (€5.967 billion). In the period 2009 to 2013, no public sector contracts were reported in Belarus, Egypt, Estonia, Hungary, Jordan, Kosovo, Mongolia, Slovak Republic, Tunisia, Turkmenistan and Uzbekistan.

2.4 Analysis by type of contract

Table 2.4.1 gives the distribution of contracts by size and type. The 155 works contracts represented the largest total value by contract type (57 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants (€451 million out of €888 million).

Table 2.4.1 Distribution of contracts by size and type (2013)

Contract Size (€M)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	5	18	30	6	59
0.3~7.5	127	12	27	7	173
>7.5	23	7	7	0	37
Total	155	37	64	13	269
Total Value (€)	725,648,126	249,854,484	285,821,404	8,346,501	1,269,670,515
Average Value (€)	4,681,601	6,752,824	4,465,959	642,039	4,719,965
Fund Portion* (€)	451,168,353	178,862,478	251,499,990	6,807,924	888,338,745

*Loan and grant funded

2.5 Listing of contracts by country of operation

Annex 1 provides a breakdown by country of operation of all contracts signed during 2013 (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

Annex 1a provides a list of contracts and the level of Bank financing (as per percentage shown).

Annex 1b provides a list of contracts financed by Bank administered Grants (percentage shows the grant funded portion).

2.6 Analysis of contract award by country of origin of the tenderers

Annex 2 provides a distribution by country of origin of the successful tenderers¹ and the value of contracts signed for the period 2009-2013. Tenderers from Turkey have been the most successful over the last five years as they have won a total of €608 million or 10 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order: Turkey (€608 million), Romania (€550 million), the Russian Federation (€39 million), Kazakhstan (€360 million) and India (€343 million). The contracts won by firms from these five countries amount to €2.4 billion which represented 39 per cent of the overall total contract value for the past five years.

Annex 3 provides the same breakdown but on the basis of the total number of public sector contracts won and signed in the period 2009-2013 according to the country of origin of the tenderers. Out of the 883 contracts administered by EBRD in the period 2009-2013, the highest numbers of contracts were awarded to entities from Romania (142), the Russian Federation (107), Bosnia & Herzegovina (67), Germany (42), and Croatia and Tajikistan (38 each)

Annex 4 provides the total value of contracts signed in 2013, distributed by type and by country of origin of the tenderers. This annex illustrates that in 2013 entities from Romania were the most successful overall in terms of winning Bank administered contracts (15 per cent of the total value

¹ The successful tenderer nationality is recorded as being only the lead entity in the case of joint ventures.

of contracts). Entities from Italy were the most successful in winning loan funded consultancy services contracts at 23 per cent of the overall consultancy services contract value. Entities from Switzerland have been most successful for goods contracts, winning (35 per cent) of all goods contracts in terms of value. Entities from Germany have been the most successful at 42 per cent in winning supply and installation contracts. Lastly, entities from Romania were most successful for works contracts with 25 per cent of the value of all works contracts signed during 2013.

2.7 Contract award process

Table 2.7.1 summarises data concerning the public procurement opportunities posted on the Bank's Internet site. It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section as well as to the EU for publishing in the Official Journal of the European Union.

Table 2.7.1 Public procurement postings on web site (2009-2013)

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalify	Invitations for Tenders	Total
2009	79	18	16	97	210
2010	88	29	16	94	227
2011	103	23	12	163	301
2012	113	27	26	183	349
2013	84	21	14	147	266

In 2013, the Bank published a total of 266 procurement notices on its internet site. Out of 84 General Procurement Notices published in 2013, 22 were for new projects.

Table 2.7.2 Distribution of contracts by award method (2013)

Contract Size (€M)	Open	Short list selection	Direct Selection	Competitive	Alternative *	Total
0~0.3	50	1	3	1	4	59
0.3~7.5	131	0	3	6	33	173
>7.5	23	0	0	0	14	37
Total	204	1	6	7	51	269
Total Value (€)	989,469,382	250,000	14,296,245	6,594,655	259,060,233	1,269,670,515
Average Value (€)	4,850,340	250,000	2,051,464	942,094	5,079,612	13,173,510
Fund Portion (€) *	8,368,796,420	250,000	10,389,068	6,104,707	35,381,730	8,420,921,925

*Loan and grant funded

Table 2.7.2² illustrates that the majority (204) of the public sector contracts were awarded through open tender. This represented a 76 per cent of the total number of contracts awarded and 78 per cent of the total contract value. As open tendering only applies to goods, works and supply and installation contracts procured in accordance with the Bank's PP&R (which in 2013 was a total of 256 contracts), the public sector contracts awarded through open tendering represent 98 per cent of the number of these contracts and 99 per cent of the total contract value when consultancy services

² Please refer to Procurement Policies Rules edition May 2010, for explanation of different tender processes.

contracts and alternative procurement procedures are excluded.

Annex 5 provides the total value of contracts signed in 2013, distributed by method of procurement and by country of origin of the tenderers to whom the contracts were awarded. Entities from Germany were the most successful at winning open tendered contracts with a total value of €155 million, followed by Morocco (€122 million), Spain (€106 million), Switzerland (€100 million) and Poland (€92 million). Overall, entities from these five countries won 58 per cent of all open tendered contracts.

Annex 6 provides details of the public sector contracts awarded in 2013, by country of origin of the tenderers.

2.8 Level of participation

Table 2.8.1 provides data on the rate of participation in public sector tenders by country of origin of the tenderers for contracts signed in 2013.

A total of 880 tenders from 48 countries were received during 2013, which is an increase in participation (43 per cent) compared with the 615 tenders received in 2012. On average, 3.9 tenders were submitted when open tendering procedures were applied (compared with an average of 3.5 tenders in 2012) using open tendering procedures.

Entities from the following five countries were most successful in terms of highest total contract value, regardless of procurement method: Romania (€189 million), Germany (€155 million), Morocco (€122 million), Spain (€121 million) and Poland (€109 million), which together won a total of €696 million or 55 per cent of the total contract value.

The seven most successful tendering countries in terms of number of contracts were: Romania (53), the Russian Federation (34), Morocco (21), Albania (17) and Armenia, FYR Macedonia and Tajikistan (12 each). Entities from these seven countries won a total of 161 contracts (60 per cent of the total number of contracts) worth €445 million, which represented 35 per cent of the total contract value.

Entities from the seven most successful countries in terms of number of contracts won, submitted 56 per cent of all tenders received by the Bank's clients.

The column "Rate of Success" seen in Table 2.8.1 provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Table 2.8.1 Distribution of contracts by country of origin of the tenderers (2013)

Analysis by business sector

Annex 7 presents the level of interest generated by business sector in the respective countries of operation.

The following analysis is based on open tendered contracts only:

Out of the total aggregate number of tenders submitted, 41 per cent was in the MEI sector. Contracts awarded represented 44 per cent of all contracts, attracting on average 3.6 tenders per contract.

Out of the total aggregate number of tenders submitted, 40 per cent was in the Transport sector. Contracts awarded represent 39 per cent of all contracts, attracting on average 3.9 tenders per contract.

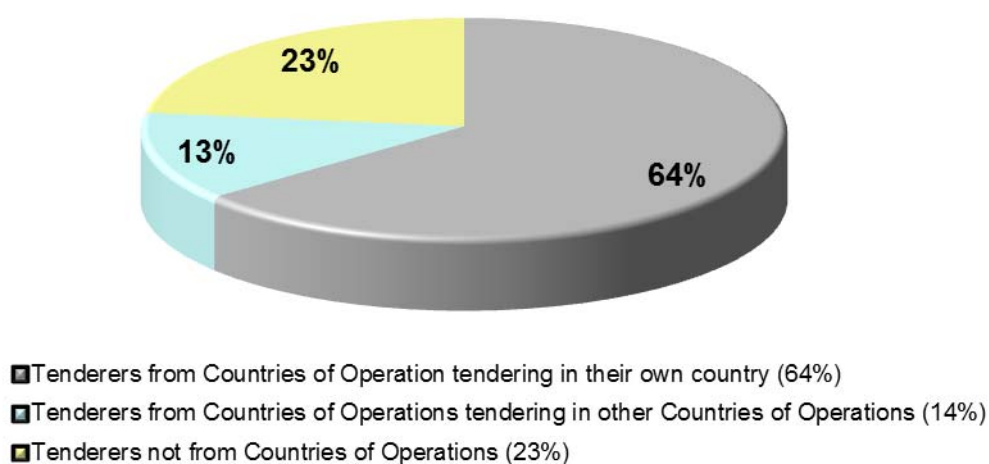

Out of the total aggregate number of tenders submitted, 19 per cent was in the Power and Energy sector. Contracts awarded represent 17 per cent of all contracts, attracting on average 3.5 tenders per contract.

Participation of entities from countries of operations

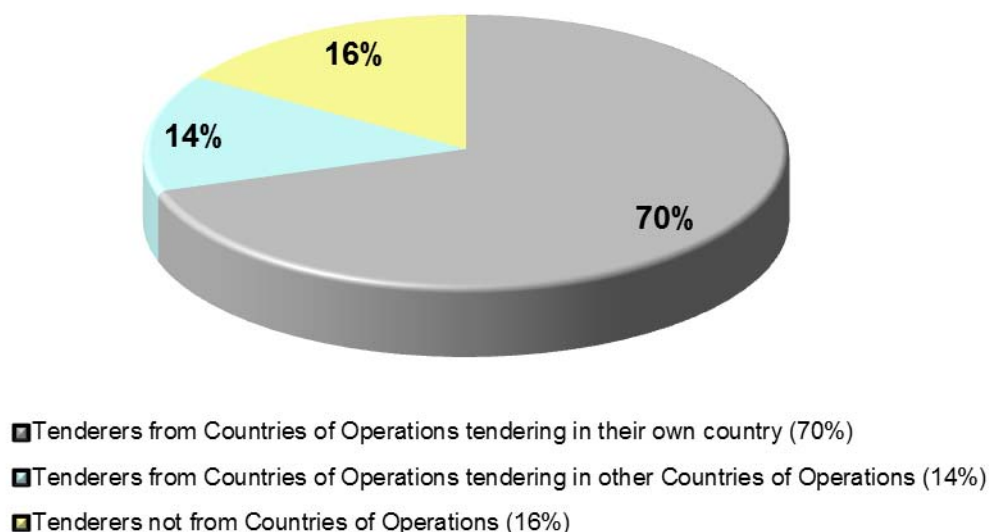

Chart 2.8.2a shows that out of the overall 880 tenders that were submitted, 77 per cent were submitted by tenderers from countries of operations. From Chart 2.8.2.b it can be seen that out of the 269 contracts awarded, 70 per cent were won by entities from countries of operations tendering in their own country and 14 per cent were won by entities from countries of operations tendering in other countries of operations. The above figures show a stable high level of participation of entities from the countries of operations in the tenders for Bank funded contracts and at the same time an increased level of success in tendering outside of their own countries as compared with 2012. The success rate of participation in the tenderers' own countries remains high.

Chart 2.8.2 a and b Distribution of tenders by countries of operations and other countries

Chart 2.8.2a: All submitted tenders

**Chart 2.8.2b: All successful tenderers
(Number of contracts)**

Entities from EBRD's countries of operations won 225 contracts (84 per cent of all contracts) with a total value of €738 million (58 per cent of the total contract value). In most cases, entities were most successful in their own countries (winning 188 contracts for a total contract value of €539 million in their own country). There were 37 contracts worth €200 million awarded to entities from EBRD's countries of operations in countries different from the country of origin of the tenderer.

Entities from ten countries of operations won contracts in their own countries only. These countries were Albania, Bosnia and Herzegovina, FYR Macedonia, Kyrgyz Republic, Moldova, Montenegro, Morocco Serbia, Slovenia and Tajikistan. They won contracts worth a total amount of €260 million or 20 per cent of the overall contract value.

Country and sector tendering analysis

Annex 8 presents the distribution of tenders submitted by country of origin of the tenderers and by country of operations.

Annex 9 presents the distribution of submitted tenders by country of origin of the tenderers and by business sector.

Out of all tenderers, entities from Germany diversified their tenders to the greatest extent as they submitted tenders across 11 countries of operations and across three business sectors. German entities won seven contracts spread across the MEI sector (1), Power and Energy (2) and Transport (4).

Contracts in the Russian Federation generated the highest level of interest in terms of number of tenders submitted (119), followed by Morocco (91).

2.9 Public sector procurement under sub-sovereign projects

A total of 103 contracts were signed under sub-sovereign public sector projects, showing an increase of 8 per cent compared to 2012 (95) and representing 38 per cent of the total number of contracts. These contracts have a total value of €479 million or 38 per cent of the overall contract value. In these contracts the EBRD portion of financing is 43 per cent of the total contract amount.

In 2013, six contracts were signed for projects co-financed with Instrument for Pre-accession Assistance (IPA) (Croatia: Sisak Wastewater Management Project (six)) and 46 contracts for projects co-financed with EU Cohesion Funds (Bulgaria: Burgas Integrated Urban Transport Project, Bulgaria: Varna Integrated Urban Transport Project, Romania: R2CF Water Framework).

2.10 Nuclear Safety Department

The EBRD manages six nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PP&R for public sector projects with the limitation that eligibility is restricted to entities from member countries of the respective Funds, the EU member states and the EBRD's countries of operations.

During 2013, 68 contracts amounting to a total value of €124 million were placed under the projects financed by the Funds. This represented an increase compared to 2012 of 58 per cent in the number of contracts and of 73 per cent in value. Annex 10 provides the listing and details of all the contracts financed from Nuclear Safety Funds signed during 2013.

Table 2.10.1 provides the distribution of the NSD administered contracts by size and type. Out of the 68 contracts signed 48 were below €1 million, 21 of which were for consultancy services, representing 31 per cent of the total number of contracts and 3 per cent of the total contract value. The majority of the remaining 27 contracts signed below €1 million are for procurement of goods representing 21 per cent of the total number of contracts and 2 per cent of the total contract value. The 15 contracts with a value between €1 million and €7.5 million accounted for 38 per cent of the total contract value and the five contracts with a value over €7.5 million accounted for 52 per cent of the total value of all contracts financed from the Funds. The largest contract, worth €25.2 million, was for the design and construction of the 'Dry storage unit' enclosures at Andreeva Bay under Northern Dimension Environmental Partnership (NDEP) Nuclear Window.

Table 2.10.1 Nuclear Safety Department-distribution of contracts by size and type (2013)

Contract Size (€M)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	0	2	12	17	31
0.3~7.5	15	7	4	6	32
>7.5	3	1	0	1	5
Total	18	10	16	24	68
Total Value (€)	73,155,979	17,662,017	9,584,655	23,900,553	124,303,204
Average Value (€)	399,835	235,850	8,734	9,920	8,734

Table 2.10.2 provides the distribution of the NSD-funded contracts by size and by method of award. Contracts subject to open and competitive selection procedures amounted to €15.1 million which is 93 per cent of the value of total contracts placed. The value of consultancy services contracts subject to direct selection has decreased by 87 per cent compared to 2012 and amounted to €2 million (compared to €6 million in 2012).

Table 2.10.2 Nuclear Safety Department- distribution of contracts by award method (2013)

Contract Size (€M)	Open	Shopping	Direct Selection	Competitive	Total
0~0.3	1	13	10	4	31
0.3~7.5	25	0	3	2	32
>7.5	4	0	0	1	5
Total	30	13	13	7	68
Total Value (€)	94,184,524	1,150,588	1,993,075	20,958,543	124,303,204
Average Value (€)	112,500	8,734	9,920	54,540	8,734

The procurement for projects administered by NSD is carried out in full compliance with the EBRD's PP&R, except for eligibility restrictions. The established procedures between NSD and PD to determine the compliance of chosen procurement methods, other than open tender, are further enhanced through reviews by the donors to the Nuclear Safety Funds. The work programmes, which include the proposed procurement methods for planned projects, are submitted to the respective Assembly in advance of its meetings. Therefore, the Assembly approval of a work programme also constitutes its approval of the respective procurement plan and any exceptions to open tendering which the procurement plan may contain.

The decisions to proceed with direct selection are mainly influenced by the specific nature of the highly regulated nuclear industry, including various security, radiation or safety requirements.

2.11 Alternative Procurement

Alternative Procurement is the categorisation given to those contracts which are co-financed with other International Financial Institutions and for which the Board has granted an exception under paragraph 2.4 of the PP&R from the use of the Bank's procurement procedures. In such cases, these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board.

Table 2.11.1 Summary of contract procured under alternative procurement procedures

Number of Contracts	51
Total Value	€259,060,233
EBRD funded portion	€35,381,971
Average EBRD financing	13.3%
Largest Contract	€14,441,895

Two types of co-financing are represented in the data in table 2.11.1. The majority of contracts (41 of 51) were co-financed with the EU-Cohesion Fund under the Regional EU Cohesion Funds Water Co-Financing Framework R2CF Project in Romania amounting to EUR 197,971,793 or 76% of the total number of contracts by value. In addition, five contracts in Bulgaria under the Varna Integrated Urban Transport Project and Burgas Integrated Urban Transport Project were also co-financed with the EU Cohesion Funds. All these contracts were procured under national public procurement law in accordance with EU requirements

Six contracts were co-financed with the EU IPA funds in Croatia. These contracts were procured under the EU PRAG procurement procedures. Procurement conducted under EU PRAG procedures were subject to EBRD and EU Delegation prior review.

The majority of contracts (44 out of 51) were won by companies from the same country as the country of the project. Contracts were also placed with contractors from Poland (3), Spain (2), Italy and the Czech Republic (1 each).

3. Compliance and integrity

PD handled 13 procurement complaints and six concerns for Bank financed or administered contracts during the course of 2013, as compared to the 23 procurement complaints and four concerns in 2012³. For reference, the following number of contracts were awarded under the Bank's PP&R, under which participants in the respective procurement processes are eligible to submit procurement complaints and concerns to the respective clients and the Bank. There were 269 contracts signed under public sector projects and 68 under the nuclear safety funds, 2,879 consultancy contracts, funded from Bank administered TC funds and from the Bank's own budget. Furthermore, 719 consultancy contracts were signed by OGC for retaining outside legal counsel.⁴

Table 3.1.1 presents a comparison of figures for complaints/concerns reviewed between 2009 and 2013, by contract type and procurement method.

Table 3.1.1 Number of complaints/concerns 2009-2013 by contract type and procurement method

Contract Type	2009	2010	2011	2012	2013
Works	3	7	5	8	7
Goods	4	6	5	6	3
Supply and Installation	7	6	1	8	3
Services	0	0	0	0	0
Consultancy (Loan or NSD Grant Funded)	0	1	1	3	3
Consultancy (TC and Bank's own funds, administered by TCT)	0	0	0	2	3
Consultancy (outside legal counsel retained by OGC)	0	0	0	0	0
Total	14	20	12	27	19

In 2013, the majority of complaints/concerns were related to contracts for works (seven), with a further three complaints/concerns each related to contracts for goods and supply and installation respectively. The remaining six complaints/concerns were related to contracts for consultancy services. In 2012, the majority of complaints/concerns were equally related to contracts for works and contracts for supply and installation (eight each).

Table 3.1.2 provides a summary of the 11 complaints and five concerns that were closed in 2013. The information provided includes the nature, the business sector and the outcome of the complaint process for each of these complaints and concerns. Whilst nine of the 11 complaints were not upheld by PCC, one complaint was upheld (no 2 Bosnia and Herzegovina Road Rehabilitation Project) and one complaint was partially upheld (no 1 Kyiv City Transport: Pastrans Loan).

³ A distinction is made between those issues raised by dissatisfied parties that clients can resolve themselves and complaints that are formally addressed to and require the action of the Bank. A "concern" is any minor issue that is brought to the attention of the EBRD by a tenderer regarding the procurement process or contract award. The concern is referred to the contracting authority, which is expected to address and resolve the issue with the relevant party under PD's supervision. If the two parties cannot come to an understanding or an agreement, the concern may be elevated to the status of a complaint. At that point, the EBRD freezes the procurement process and an investigation is undertaken.

⁴ The number of consultancy contracts administered by the Technical Cooperation Team (including contracts related to the Small Business Support Team (SBS) and OGC) has been included in this section as the Bank's PP&R and, consequently, the Bank's procurement complaints/concerns review procedures are also applicable for these contracts.

One of the five concerns was rejected by PD. The remaining four concerns were considered to have become redundant as no further correspondence was received after the Client's and/or PD's explanations concerning the respective allegations.

The complaints/concerns raised by unsuccessful entities in 2013 varied in nature. The following issues were raised:

- Challenging the Client's decision not to prequalify the Complainant.
- Allegation that the winning tenderer failed to meet the qualification criteria.
- Challenging the result of the client's technical evaluation for a consultancy assignment.
- Allegation that the qualification criteria were not robust enough to address the risks of implementing the works.
- Allegation that a proposal at the first stage of the tendering process was wrongly rejected as submitted too late.
- Allegation that a tenderer had not been sent a key addendum to the tender documents.
- Challenging the Client's decision to terminate the contract negotiations for a consultancy assignment and awarding the contract to the second ranked consultant.
- Allegation that the winning consultant had offered insufficient person/months and not suitably qualified personnel.
- Challenging the applicability of the Bank's PP&R.
- Questioning the long duration of the tender evaluation process.
- Allegation that the tenderer had not been informed of the outcome of the tender evaluation process.

**Table 3.1.2 Complaints and concerns by nature and by business sector
(complaints and concerns closed during 2013, presented in chronological order as received by the Bank)**

	Country of Originator of Complaint/Concern	Project	Complaint /Concern	Business Sector	Nature of Complaint/Concern	Outcome of the Complaint Process	Contract Amount €	Time-line
1.	Ukraine	Ukraine: Kyiv City Transport: Pastrans Loan	Complaint	MEI	<p>The Complainant accused the Client of a violation of the tendering process on the following grounds:</p> <p>(a) the Client was wrong in prequalifying the complainant for one lot only, despite the latter meeting all qualification requirements for two lots;</p> <p>(b) the Client awarded the contract to a tenderer, who offered a product, which had not been manufactured nor certified by the Authorities by the deadline for tender submission; and</p> <p>(c) the Client incorrectly rejected the Complainant's tender during postqualification on the basis of a third party falsified audit report.</p>	<p>Following a thorough investigation of all aspects of the complaint, the Bank arrived at the conclusion that the Complainant had failed to meet some of the post-qualification criteria, and that the complaint in respect of the rejection of the Complainant's tender was therefore not substantiated.</p> <p>However, it was found that in other aspects referred to in the complaint, the tender process and award of contract did not follow in certain respects the procedures agreed with the Bank. The complaint was therefore partially upheld, but after due consideration of all mitigating factors, it was decided by the Bank not to cancel the contract award.</p>	223,800,000	< 21 months
2.	Bosnia and Herzegovina	Bosnia & Herzegovina Road Rehabilitation Project	Complaint	Transport	<p>Whilst the submitted tenders were still under evaluation, the Complainant alleged that the awarded tenderer (unnamed) was not qualified and specifically did not have a licence for an asphalt plant. Consequently, this tenderer would not be able to perform the contract, if awarded to them.</p> <p>In a subsequent letter, the Complainant also alleged the occurrence of Prohibited</p>	PCC decided to uphold the complaint as it had been established that the tenderer who had been recommended for contract award had not met some of the minimum requirements as per the tender documents and was therefore was not qualified. Consequently, this contract would not be eligible for financing by the Bank, unless the Client issued a tender evaluation	1,000,000	< 6 months

					Practices in connection with this tender. Consequently, this aspect of the Complaint was referred to the Bank’s Office of the Chief Compliance Officer (OCCO) for their review.	report acceptable to the Bank. Having noted the outcome of the Bank’s review of the Complaint, the Client sent a revised evaluation report to the Bank, proposing contract award to the next ranked tenderer. This report was no-objected by the Bank. As the Complaint included allegations of prohibited practices, this matter was referred to the Office of the Chief Compliance Officer (OCCO) to assess these allegations. OCCO concluded that the allegation of prohibited practices were not substantiated and closed the matter.		
3.	FYR Macedonia	FYR Macedonia: Corridor X	Complaint	Transport	This Complaint concerns the same tender as the Complaint listed in this table under number 4. The Complainant alleged that their (first stage) tender was incorrectly rejected as "late" by the Client, claiming that in fact it was delivered on time. They further complained that the delivery receipt issued by the client as proof of delivery does not contain a time stamp.	PCC noted that the Client had carried out the procurement process materially in accordance with the agreed procedures. PCC therefore concluded that the complaint was to be rejected.	15,000,000	< 6 months
4.	FYR Macedonia	FYR Macedonia: Corridor X	Complaint	Transport	This Complaint concerns the same tender as the Complaint listed in this table under number 3. The Complainant alleged that the Client had not sent to them a key addendum in due time and had ignored requests for an extension to the tender deadline.	PCC noted that the Client had carried out the procurement process materially in accordance with the agreed procedures. PCC therefore concluded that the complaint was to be rejected.	15,000,000	< 5 months

5.	Bulgaria	Bulgaria: Kozloduy International Decommissioning Support Fund	Complaint	Nuclear Safety	According to the Client's technical evaluation report for a consultancy assignment, the Complainant had not met the threshold for their technical proposal to be considered for further financial evaluation. The Complainant alleged that the exclusion of its proposal from the financial evaluation was not justified.	PCC noted that the Complainant's proposal had missed the minimum technical threshold very narrowly. However, PCC concluded that this appeared to be the outcome of a fair and rational evaluation process, free from bias. Consequently, PCC decided to reject the Complaint.	1,500,000	< 4 months
6.	Slovak Republic	Slovak Republic: Bohunice International Decommissioning Support Fund	Complaint	Nuclear Safety	<p>This Complaint concerns a different contract under the same project by the same Complainant as under the procurement Concern listed in this table under number 7.</p> <p>The Complainant raised concerns about the qualification requirements of the tender documents for the works contract. The Complainant believed that the qualification requirements were not robust enough to address the risks of implementing the works. The Complainant requested the current tender exercise to be cancelled, the tender documents to be amended and the contract to be retendered.</p>	PCC concluded that the Complaint was unfounded and, therefore, was not to be upheld.	14,600,000	< 5 months
7.	Slovak Republic	Slovak Republic: Bohunice International Decommissioning Support Fund	Concern	Nuclear Safety	<p>This Complaint concerns a different contract under the same project by the same Complainant as under the procurement Complaint listed in this table under number 6. It also concerns the same contract as under the procurement concern listed in this table under number 14.</p> <p>The Complainant raised concerns about the qualification requirements of the tender documents for the works contract. The Complainant believed that the qualification requirements were not robust enough to address the risks of implementing the works. The Complainant requested the</p>	<p>PD concluded that the Concern was unfounded and, therefore, was not to be upheld.</p> <p>However, the tender was cancelled for reasons unrelated to this Concern and the works were subsequently retendered.</p>	26,000,000	< 6 months

					current tender exercise to be cancelled, the tender documents to be amended and the contract to be retendered.			
8.	Italy	Albania: Local And Regional Roads	Concern	Transport	In a letter to the Client, which was copied to the Bank, a company objected to the rejection of its pre-qualification application by the Client and requested a postponement of the tender submission deadline.	As the Client had addressed the allegations to the Complainant and no further communication had been received from the latter, PD decided to close the case.	6,330,000	< 3 months
9.	United Kingdom	Bulgaria: Kozloduy International Decommissioning Support Fund	Complaint	Nuclear Safety	<p>The Complainant presented its complaint as follows:</p> <p>1) The Complainant contests the Client's decision to terminate the contract negotiations and the Client's request for the Complainant to withdraw the amendments to the draft Contract that were previously agreed by the Complainant and the Client during the contract negotiations. The decision breaches the procurement procedures outlined in the Request for Proposal (RFP) for the assignment and the Bank's Procurement Policies and Rules;</p> <p>2) The Complainant requires the agreement reached by the Client and the Complainant (as evidenced by the initiated draft Contract) to be reinstated and the parties to conclude the contract negotiations by signature of the Contract;</p> <p>3) in the event that the Contract has</p>	PCC decided not to uphold this complaint as the Client had not violated its obligations in terms of the procurement process.	15,000,000	< 7 months

					<p>already been awarded to the second ranked consultant, the Complainant:</p> <p>(i) contests the award of such Contract;</p> <p>(ii) in accordance with the rules applicable to project procurement complaints, requires the financing for this Contract to be withdrawn.</p>			
10.	Czech Republic	Moldova: Moldelectrica Transmission Rehabilitation Loan	Complaint	Power & Energy	<p>The issues raised by the Complainant concerning the competitive selection for a consultancy assignment can be summarised as follows:</p> <p>1) Whilst three of the shortlisted companies submitted technical proposals that received similarly high scores, one of the shortlisted consultant's financial proposal was approximately 15% lower than the lowest of the other bidders. The Complainant believes that this could only be achieved by the former offering low qualification of the proposed personnel and/or insufficient person/month inputs, which would not be in accordance with the RFP requirements.</p> <p>2) The bidder with the lowest financial proposal may not have offered the required services of duly qualified and appropriately licensed sub-consultants as required by the Request for Proposal (RFP) documents.</p>	PCC decided not to uphold this Complaint as it was concluded that the bidder with the lowest financial proposal had met the requirements of the RFP documents and as this bidder had provided the required evidence about having secured the services of a duly qualified sub-contractor.	3,000,000	< 3 months

11.	Czech Republic	Serbia: Belgrade Bus Renewal Programme	Complaint	MEI	The Complainant raised the concern that the procurement process had not been conducted in accordance with the applicable procurement law of the Republic of Serbia and since the participants were allegedly misled, that this procurement process should be cancelled and re-tendered. The Complainant also insisted that the technical specifications were discriminatory, which consequently led to the refusal of the Complainant's tender.	PCC decided not to uphold this complaint as it had been established that the Complainant had not met the technical specifications, which were considered to be appropriate and non-biased. Furthermore, it was established that the Bank's PP&R were applicable and not the procurement law of the Republic of Serbia.	64,779,680	< 3 months
12.	Sweden	FYR Macedonia Transmission Interconnection	Complaint	Power & Energy	The Complainant was concerned about the allegedly unclear scope of the contractor's obligations in respect of the maintenance after the defects liability period and its duration. The Complainant believed that the Client was in breach of the provisions of paragraph 3.15 of the PP&R (description of tender documentation) and requested the cancellation of the tender and the re-tendering of the contract.	PCC concluded that the tender documents could have been clearer in respect of the requirements of the post defects liability period maintenance. However, PCC was satisfied that a lack of clarity in the formulation of these requirements in the documents did not substantially compromise the sound competitive nature of the tendering process, because the proposals of all tenderers reflected a common understanding of the requirements. Therefore, the complaint was rejected.	3,800,000	< 6 months
13.	Austria	Serbia: Serbian Railways Corridor X	Complaint	Transport	The Complainant disputed the reasons for the rejection of their offer on the basis of material non-compliance relating to product licences and other technical issues.	PCC concluded that the Complainant had failed to demonstrate that it had a valid permit or a temporary licence from the relevant authority for the usage of the product in question, as required by the tender documents. Consequently, the Complaint was deemed unfounded and was declined.	1,750,000	< 6 months

14.	Slovak Republic	Slovak Republic: Bohunice International Decommissioning Support Fund	Concern	Nuclear Safety	<p>This Concern relates to the same tender as the Concern listed in this table under number 7.</p> <p>The originator of the Concern asked the Bank to explain the reasons for the long duration of the tender evaluation process which had been ongoing for almost one year.</p>	<p>PD assessed the matter and concluded the following:</p> <p>(a) The qualification criteria were found generally adequate for the nature and magnitude of the contract;</p> <p>(b) The delay of the evaluation process was caused by the fact that the Bank was not in a position to provide its no-objection to the client's evaluation report;</p> <p>(c) The extension of the tender validity was triggered by protracted tender evaluation.</p> <p>The tender was eventually cancelled for reasons unrelated to this Concern and the works were subsequently retendered.</p> <p>Due to the cancellation of the tender by the Client, the Concern is deemed redundant.</p>	26,000,000	< 1 month
15.	Bulgaria	Bulgaria: Kozloduy International Decommissioning Support Fund	Concern	Nuclear Safety	<p>The Concern relates to the fact that the originator of the Concern had not been informed of the outcome of the tender evaluation concerning two out of five lots of a works contract.</p>	<p>The Bank had requested the Client to inform the tenderers on the outcome of the tender evaluation without further delay. On the basis that</p> <p>a) the Bank had clearly explained the procedure to be followed in the event that the originator of the Concern wished to submit a formal complaint in the event that it was not satisfied with the outcome of the tender, and</p> <p>b) the fact that no further communications had been received by the Bank from the originator of</p>	3,000,000	< 2 months

						the Concern up to the end of December 2013, this Concern was considered as closed by PD.		
16.	Slovak Republic	Slovak Republic: Bohunice International Decommissioning Support Fund	Concern	Nuclear Safety	This procurement Concern predominately relates to the fact that the originator of the Concern had not been informed of the basis upon which its tender had been unsuccessful in competing for a works contract.	On the basis that a) the Bank had clearly explained the procedure to be followed in the event that the originator of the Concern wished to submit a formal complaint in the event that it was not satisfied with the outcome of the tender, and b) the fact that no further communications had been received by the Bank from the originator of the Concern up to the end of December 2013, this Concern was considered as closed by PD.	2,500,000	< 2 months

Table 3.1.2 also provides information on the duration of the review of complaints and concerns. Whilst the review of six of the cases could be finalised within a period of less than three months, nine complaints/concerns could only be closed up to seven months after receipt by the Bank. Due to the complex nature of one of the complaints, the decision to uphold this complaint and Board approval for the proposed way forward could only be obtained 20 months after receipt of the complaint.

The complaints/concerns closed in 2013 were related to Nuclear Safety projects (seven), to Transport projects (five) and to MEI and Power & Energy projects (two each). Allegations of improper tender evaluation and biased technical specifications were the principal sources of complaints.

3.2 Prohibited practices

In 2010, the Bank signed the “Agreement for Mutual Enforcement of Debarment Decisions”. The Agreement was signed by the African Development Bank Group, the Asian Development Bank, the InterAmerican Development Bank, the World Bank Group and the European Bank for Reconstruction and Development. The list of entities and individuals which are currently ineligible to become an EBRD Counterparty can be found on the Bank’s website at:
<http://www.ebrd.com/pages/about/integrity/list.shtml>.

Entities (and their affiliates) or individuals may be ineligible to become a Bank Counterparty if EBRD determines, in accordance with EBRD’s Enforcement Policy and Procedures, that (a) they have engaged in any Prohibited Practice in the context of a Bank project, or (b) they are subject to a Third Party Finding or (c) they are subject to a Debarment Decision by a Mutual Enforcement Institution.

In 2013, no enforcement proceedings were instituted by the EBRD. Pursuant to the Agreement for the Mutual Enforcement of Debarment Decisions cross-debarment provisions of the EPP, the Bank cross-debarred 303 entities and 25 individuals. Based on debarment notices received from the World Bank Group (53 notices), the Asian Development Bank (4 notices) and the Inter-American Development Bank (5 notices). Very few of these debarred entities have had previous relationships with the EBRD. A list of all EBRD debarred entities and persons is published on the EBRD’s web site. As at 31 December 2013, four firms are ineligible to be awarded EBRD funded contracts as a result of EBRD initiated debarment action. In addition, 376 entities and 91 individuals are ineligible as a result of mutual enforcement of debarment decisions.

3.3 Independent procurement reviews

Independent Procurement Reviews (IPRs) are carried out with the view to strengthen the ability of the Bank to fulfil its fiduciary obligation with regard to the oversight of procurement and contract implementation, to complement the prior review and post review procedures applied, and to inform the Bank’s management of the quality of the Bank’s fiduciary work on procurement. The projects for IPRs are selected based on: the relevance of the project or the issue reviewed to the Bank’s likely future operations; lessons-learned potential; size of the Bank’s investment commitment/exposure; balance among countries of operations; relative priority of operation within PD’s overall work programme as well as by reference to PD’s procurement risk dashboard.

In 2013, PD commissioned two IPRs as follows:

1) Moldova Road Rehabilitation III Project (OPID 41442)

The Bank has provided long term financing for the rehabilitation of national roads in Moldova. The Bank has engaged a senior procurement expert whose review will particularly focus on contract implementation. It is expected that the IPR will be finalised in the first quarter of 2014.

2) Russian Federation: Archangelsk Municipal Water Services Development Project (OPID 20699)

The Bank has administered a project under the Northern Dimension Environmental Partnership (the “NDEP”), which will contribute significantly to decreasing the level of polluting discharges into the Barents Sea basin. The NDEP investment grant is EUR 7.3 million.

The investment programme consists of:

- Upgrade of the municipal water treatment facilities and rehabilitation of water distribution networks;
- Improvement of service standards and strengthening the financial and operational performance of Vodocanal; and,
- Modernisation and extension of the wastewater network and collectors in view of eliminating direct discharges of untreated wastewater.

The Bank has engaged a senior procurement expert whose review will particularly focus on the conduct of the procurement processes and contract implementation. It is expected that the IPR will be finalised in the first quarter of 2014.

Listing of Contracts by Country of Operations in 2013
